22	<del>_</del>		

Page 6 Page 8 BY MS. KLIEBENSTEIN: 1 1 responsible for all the systems integration over 2 Q. Good morning Mr. Bakewell. How are you today? 2 to SAP. We licensed SAP at the time and were 3 A. Good morning. I'm fine. Thank you. moving all the enterprise stuff over. 4 Q. All right. So welcome to Minneapolis. 4 Q. And what were the years you were with Wartsila? 5 A. Thank you. Did I get that right? 6 Q. What were you asked to do in this case? 6 A. Wartsila. I think it was 1995 through about 2001. 7 A. Well, it's outlined in my report, but at a high 7 A little bit maybe longer on either side. level, it's to assess damages and 8 Q. And what were the -- what were the revenues in financial-related issues under the assumption of general, the annual revenues -- you were -- you 10 liability. 10 were the controller of the North American group; 11 Q. And what is the expertise that you're offering in 11 12 this case? 12 A. That was one of the positions that I held. 13 A. Well, I'm an expert in finance and valuation. 13 Q. One of the positions. What would you say the I've quantified damages quite a few times. I'm an annual revenues were for that company while you 15 expert in particular area of valuation of 15 were with it? intellectual property and intangible assets. I 16 A. The North American subsidiary, or for the entire 16 17 think those are primarily the skills that I bring. 17 company? 18 Q. And you're not an expert in software licensing; is 18 Q. Why don't we do both. 19 that correct? 19 A. So the North American subsidiary our revenues were 20 A. So in this case -- I do have expertise in software 20 500 to \$800 million dollars per year, and the 21 licensing, but that's not the expertise that I'm 21 corporation was, like, between I'd say 3 and \$4 22 being specifically asked to use. 22 billion. Something like that. 23 Q. And your expertise in software licensing that you 23 Q. What is your experience in the insurance industry? 24 just mentioned is that -- is that from serving as 24 A. I've worked on matters as a consultant in the 25 an expert witness in litigation? 25 insurance industry. I had a matter not long ago Page 7 Page 9 1 A. Well, I've worked for a company for eight years, 1 for a company called Great West, another insurance and I was the CFO of some businesses, and I was 2 company, and I've had other assignments kind of 3 responsible for licensing the software that we here and there throughout my career. 4 used in the enterprise, and then throughout my 4 Q. And that's as a consultant in the financial space? 5 career as a consultant, I've been involved in 6 issues that relate software licensing and 6 Q. In preparing your opinions, did you presume 7 valuation, including in the context of damages but 7 liability? 8 also consulting projects. 8 A. Yes. 9 I have a professional designation, 9 Q. Did you make any presumptions about burdens of 10 certified licensing professional, and in part, the 10 proof with respect to damages? And we can start award of that is based on my experience in -- in 11 11 with -- let's start with lost license, or the 12 licensing, including licensing software. 12 breach of contract damages. Did you make any 13 Q. And your experience with that company for eight 13 presumptions about who has the burden of proof? 14 year what was that company? 14 A. Well, my understanding would have been outlined in 15 A. The name of the company was Wartsila, 15 -- in my report in detail, which I don't have a W-A-R-T-S-I-L-A. 16 copy of yet. You have one sitting right there. 16 17 O. You were the CFO? 17 Q. I have marked as Exhibit 522 a copy of your 18 A. I was the CFO of our investment group, not of the 18 report. corporation. I was the controller of North 19 A. Thank you. 20 America, which was the biggest subsidiary at the 20 Q. And this is a copy of your report with all of the 21 time, and I had some other responsibilities. I

was a controller and I forget exactly what my

we turned into what we call our peer energy

business. That was in Amsterdam, and I was

title was of -- of a business that we acquired and

22

23

24

25

21

23

25

exhibits and schedules; correct?

22 A. Well, I'll accept your representation that that's

24 Q. So then I'll go back to my question. What

so. It appears to be. That's my answer. Period.

presumptions did you make about the -- the burdens

Page 10	Page 12
1 of proof with respect to breach of contract	1 not get caught up in whose what's burden
2 damages?	whose burden is what.
3 A. Well, generally speaking, in terms of breach of	3 Q. Understood. So we talked about proof of revenues,
4 contract damages, I understand that it's your	4 nexus, costs would be either, and then there's a
5 burden. It's the plaintiff's burden. Generally	5 third element that I see in Paragraph 106 that at
6 speaking.	6 the very end of that italicized paragraph I see
7 Q. Okay, and what about with respect to actual	the phrase, "Elements of profitable," "profit
8 damages for copyright infringement?	8 attributable to factors other than the copyright
9 A. As are you distinguishing actual damages from	9 at work."
10 disgorgement or	10 What was your assumption regarding whose
11 Q. I am.	burden it was to prove elements of profit
12 A. So actual damages my understanding we can try	12 attributable to factors other than the copyright
13 to find this in my report, but I think just from	13 at work?
14 memory	14 MR. FLEMING: Objection to the extent it
15 MR. FLEMING: Object to the extent it calls	15 calls for a legal conclusion.
16 for a legal conclusion.	16 THE WITNESS: My understanding, not as a
	17 lawyer but as a practitioner, is that this relates
17 THE WITNESS: From memory, generally 18 speaking, I understand that to be your burden, but	18 to two issues, two words where I think that
19 let me see here. I have this outlined on my	there's some overlap between what I understand and
20 understanding of it on Pages 31 and 32. I'm	20 where I understand the law to be, and where
21 making assumptions as a damages expert and not as	21 finance and economics are, and those words are
21 making assumptions as a damages expert and not as 22 a lawyer.	22 nexus and apportionment, and I think that there's
23 BY MS. KLIEBENSTEIN:	23 an obligation for a practitioner in my field to
24 Q. Okay. That's your that's your answer.	24 insure that the analysis has a nexus to something
25 With respect to copyright disgorgement, did	25 that is defined and that you apportion so that you
23 With respect to copyright disgorgement, and	23 that is defined and that you apportion so that you

Page 11  1 you make any presumptions about burdens of proof  2 with respect to copyright disgorgement?  3 MR. FLEMING: Objection to the extent it  4 calls for legal conclusion.  5 THE WITNESS: Again, you're saying  6 presumptions, and I'm responding and saying  7 assumptions that I'm making  8 BY MS. KLIEBENSTEIN:  9 Q. Sure.	<ol> <li>present values that are reasonable and not</li> <li>irrelevant and not misleading.</li> <li>BY MS. KLIEBENSTEIN:</li> <li>Q. So am I hearing you correct that the burden</li> <li>your assumption was the burden of proof to prove</li> <li>elements of profit attributable to factors other</li> <li>than the copyright of work falls on both the</li> <li>plaintiff and the defendant?</li> <li>MR. FLEMING: Object to the extent ti calls</li> </ol>
Page 11  1 you make any presumptions about burdens of proof  2 with respect to copyright disgorgement?  3 MR. FLEMING: Objection to the extent it  4 calls for legal conclusion.  5 THE WITNESS: Again, you're saying  6 presumptions, and I'm responding and saying  7 assumptions that I'm making  8 BY MS. KLIEBENSTEIN:  9 Q. Sure.  10 A because I'm not a lawyer. So I only make	1 present values that are reasonable and not 2 irrelevant and not misleading. 3 BY MS. KLIEBENSTEIN: 4 Q. So am I hearing you correct that the burden 5 your assumption was the burden of proof to prove 6 elements of profit attributable to factors other 7 than the copyright of work falls on both the 8 plaintiff and the defendant? 9 MR. FLEMING: Object to the extent ti calls 10 for lemon conclusion.
Page 11  1 you make any presumptions about burdens of proof  2 with respect to copyright disgorgement?  3 MR. FLEMING: Objection to the extent it  4 calls for legal conclusion.  5 THE WITNESS: Again, you're saying  6 presumptions, and I'm responding and saying  7 assumptions that I'm making  8 BY MS. KLIEBENSTEIN:  9 Q. Sure.  10 A because I'm not a lawyer. So I only make  11 assumptions about what the applicable framework	1 present values that are reasonable and not 2 irrelevant and not misleading. 3 BY MS. KLIEBENSTEIN: 4 Q. So am I hearing you correct that the burden 5 your assumption was the burden of proof to prove 6 elements of profit attributable to factors other 7 than the copyright of work falls on both the 8 plaintiff and the defendant? 9 MR. FLEMING: Object to the extent ti calls 10 for lemon conclusion. 11 THE WITNESS: That's not what I said.
Page 11  1 you make any presumptions about burdens of proof  2 with respect to copyright disgorgement?  3 MR. FLEMING: Objection to the extent it  4 calls for legal conclusion.  5 THE WITNESS: Again, you're saying  6 presumptions, and I'm responding and saying  7 assumptions that I'm making  8 BY MS. KLIEBENSTEIN:  9 Q. Sure.  10 A because I'm not a lawyer. So I only make  11 assumptions about what the applicable framework  12 is, and my understanding is as a as a damages	1 present values that are reasonable and not 2 irrelevant and not misleading. 3 BY MS. KLIEBENSTEIN: 4 Q. So am I hearing you correct that the burden 5 your assumption was the burden of proof to prove 6 elements of profit attributable to factors other 7 than the copyright of work falls on both the 8 plaintiff and the defendant? 9 MR. FLEMING: Object to the extent ti calls 10 for lemon conclusion. 11 THE WITNESS: That's not what I said. 12 BY MS. KLIEBENSTEIN:
Page 11  1 you make any presumptions about burdens of proof  2 with respect to copyright disgorgement?  3 MR. FLEMING: Objection to the extent it  4 calls for legal conclusion.  5 THE WITNESS: Again, you're saying  6 presumptions, and I'm responding and saying  7 assumptions that I'm making  8 BY MS. KLIEBENSTEIN:  9 Q. Sure.  10 A because I'm not a lawyer. So I only make  11 assumptions about what the applicable framework  12 is, and my understanding is as a as a damages  13 expert that in terms of the burden, it is your	1 present values that are reasonable and not 2 irrelevant and not misleading. 3 BY MS. KLIEBENSTEIN: 4 Q. So am I hearing you correct that the burden 5 your assumption was the burden of proof to prove 6 elements of profit attributable to factors other 7 than the copyright of work falls on both the 8 plaintiff and the defendant? 9 MR. FLEMING: Object to the extent ti calls 10 for lemon conclusion. 11 THE WITNESS: That's not what I said. 12 BY MS. KLIEBENSTEIN: 13 Q. Tell me how I got that wrong.
Page 11  1 you make any presumptions about burdens of proof  2 with respect to copyright disgorgement?  3 MR. FLEMING: Objection to the extent it  4 calls for legal conclusion.  5 THE WITNESS: Again, you're saying  6 presumptions, and I'm responding and saying  7 assumptions that I'm making  8 BY MS. KLIEBENSTEIN:  9 Q. Sure.  10 A because I'm not a lawyer. So I only make  11 assumptions about what the applicable framework  12 is, and my understanding is as a as a damages  13 expert that in terms of the burden, it is your  14 burden, the plaintiff's burden to identify proof	1 present values that are reasonable and not 2 irrelevant and not misleading. 3 BY MS. KLIEBENSTEIN: 4 Q. So am I hearing you correct that the burden 5 your assumption was the burden of proof to prove 6 elements of profit attributable to factors other 7 than the copyright of work falls on both the 8 plaintiff and the defendant? 9 MR. FLEMING: Object to the extent ti calls 10 for lemon conclusion. 11 THE WITNESS: That's not what I said. 12 BY MS. KLIEBENSTEIN: 13 Q. Tell me how I got that wrong. 14 A. Because you used way less words than I did. I
Page 11  1 you make any presumptions about burdens of proof  2 with respect to copyright disgorgement?  3 MR. FLEMING: Objection to the extent it  4 calls for legal conclusion.  5 THE WITNESS: Again, you're saying  6 presumptions, and I'm responding and saying  7 assumptions that I'm making  8 BY MS. KLIEBENSTEIN:  9 Q. Sure.  10 A because I'm not a lawyer. So I only make  11 assumptions about what the applicable framework  12 is, and my understanding is as a as a damages  13 expert that in terms of the burden, it is your  14 burden, the plaintiff's burden to identify proof  15 of revenues subject to there needing to be a nexus	1 present values that are reasonable and not 2 irrelevant and not misleading. 3 BY MS. KLIEBENSTEIN: 4 Q. So am I hearing you correct that the burden 5 your assumption was the burden of proof to prove 6 elements of profit attributable to factors other 7 than the copyright of work falls on both the 8 plaintiff and the defendant? 9 MR. FLEMING: Object to the extent ti calls 10 for lemon conclusion. 11 THE WITNESS: That's not what I said. 12 BY MS. KLIEBENSTEIN: 13 Q. Tell me how I got that wrong. 14 A. Because you used way less words than I did. I 15 explained that in a more detailed way.
Page 11  1 you make any presumptions about burdens of proof  2 with respect to copyright disgorgement?  3 MR. FLEMING: Objection to the extent it  4 calls for legal conclusion.  5 THE WITNESS: Again, you're saying  6 presumptions, and I'm responding and saying  7 assumptions that I'm making  8 BY MS. KLIEBENSTEIN:  9 Q. Sure.  10 A because I'm not a lawyer. So I only make  11 assumptions about what the applicable framework  12 is, and my understanding is as a as a damages  13 expert that in terms of the burden, it is your  14 burden, the plaintiff's burden to identify proof  15 of revenues subject to there needing to be a nexus  16 to the allegations in the case, and then I think	1 present values that are reasonable and not 2 irrelevant and not misleading. 3 BY MS. KLIEBENSTEIN: 4 Q. So am I hearing you correct that the burden 5 your assumption was the burden of proof to prove 6 elements of profit attributable to factors other 7 than the copyright of work falls on both the 8 plaintiff and the defendant? 9 MR. FLEMING: Object to the extent ti calls 10 for lemon conclusion. 11 THE WITNESS: That's not what I said. 12 BY MS. KLIEBENSTEIN: 13 Q. Tell me how I got that wrong. 14 A. Because you used way less words than I did. I 15 explained that in a more detailed way. 16 Q. Other than the fact that I used fewer words, where
Page 11  1 you make any presumptions about burdens of proof  2 with respect to copyright disgorgement?  3 MR. FLEMING: Objection to the extent it  4 calls for legal conclusion.  5 THE WITNESS: Again, you're saying  6 presumptions, and I'm responding and saying  7 assumptions that I'm making  8 BY MS. KLIEBENSTEIN:  9 Q. Sure.  10 A because I'm not a lawyer. So I only make  11 assumptions about what the applicable framework  12 is, and my understanding is as a as a damages  13 expert that in terms of the burden, it is your  14 burden, the plaintiff's burden to identify proof  15 of revenues subject to there needing to be a nexus  16 to the allegations in the case, and then I think  17 there's some question as to sort of what the	1 present values that are reasonable and not 2 irrelevant and not misleading. 3 BY MS. KLIEBENSTEIN: 4 Q. So am I hearing you correct that the burden 5 your assumption was the burden of proof to prove 6 elements of profit attributable to factors other 7 than the copyright of work falls on both the 8 plaintiff and the defendant? 9 MR. FLEMING: Object to the extent ti calls 10 for lemon conclusion. 11 THE WITNESS: That's not what I said. 12 BY MS. KLIEBENSTEIN: 13 Q. Tell me how I got that wrong. 14 A. Because you used way less words than I did. I 15 explained that in a more detailed way. 16 Q. Other than the fact that I used fewer words, where 17 did I get it wrong?
Page 11  1 you make any presumptions about burdens of proof 2 with respect to copyright disgorgement? 3 MR. FLEMING: Objection to the extent it 4 calls for legal conclusion. 5 THE WITNESS: Again, you're saying 6 presumptions, and I'm responding and saying 7 assumptions that I'm making 8 BY MS. KLIEBENSTEIN: 9 Q. Sure. 10 A because I'm not a lawyer. So I only make 11 assumptions about what the applicable framework 12 is, and my understanding is as a as a damages 13 expert that in terms of the burden, it is your 14 burden, the plaintiff's burden to identify proof 15 of revenues subject to there needing to be a nexus 16 to the allegations in the case, and then I think 17 there's some question as to sort of what the 18 burdens are for proving the costs you would	1 present values that are reasonable and not 2 irrelevant and not misleading. 3 BY MS. KLIEBENSTEIN: 4 Q. So am I hearing you correct that the burden 5 your assumption was the burden of proof to prove 6 elements of profit attributable to factors other 7 than the copyright of work falls on both the 8 plaintiff and the defendant? 9 MR. FLEMING: Object to the extent ti calls 10 for lemon conclusion. 11 THE WITNESS: That's not what I said. 12 BY MS. KLIEBENSTEIN: 13 Q. Tell me how I got that wrong. 14 A. Because you used way less words than I did. I 15 explained that in a more detailed way. 16 Q. Other than the fact that I used fewer words, where 17 did I get it wrong? 18 A. You didn't use my words, and you oversimplified
Page 11  1 you make any presumptions about burdens of proof  2 with respect to copyright disgorgement?  3 MR. FLEMING: Objection to the extent it  4 calls for legal conclusion.  5 THE WITNESS: Again, you're saying  6 presumptions, and I'm responding and saying  7 assumptions that I'm making  8 BY MS. KLIEBENSTEIN:  9 Q. Sure.  10 A because I'm not a lawyer. So I only make  11 assumptions about what the applicable framework  12 is, and my understanding is as a as a damages  13 expert that in terms of the burden, it is your  14 burden, the plaintiff's burden to identify proof  15 of revenues subject to there needing to be a nexus  16 to the allegations in the case, and then I think  17 there's some question as to sort of what the  18 burdens are for proving the costs you would  19 deduct from these revenues some people say, hey,	1 present values that are reasonable and not 2 irrelevant and not misleading. 3 BY MS. KLIEBENSTEIN: 4 Q. So am I hearing you correct that the burden 5 your assumption was the burden of proof to prove 6 elements of profit attributable to factors other 7 than the copyright of work falls on both the 8 plaintiff and the defendant? 9 MR. FLEMING: Object to the extent ti calls 10 for lemon conclusion. 11 THE WITNESS: That's not what I said. 12 BY MS. KLIEBENSTEIN: 13 Q. Tell me how I got that wrong. 14 A. Because you used way less words than I did. I 15 explained that in a more detailed way. 16 Q. Other than the fact that I used fewer words, where 17 did I get it wrong? 18 A. You didn't use my words, and you oversimplified 19 what I said. I took, like, two or three
Page 11  1 you make any presumptions about burdens of proof  2 with respect to copyright disgorgement?  3 MR. FLEMING: Objection to the extent it  4 calls for legal conclusion.  5 THE WITNESS: Again, you're saying  6 presumptions, and I'm responding and saying  7 assumptions that I'm making  8 BY MS. KLIEBENSTEIN:  9 Q. Sure.  10 A because I'm not a lawyer. So I only make  11 assumptions about what the applicable framework  12 is, and my understanding is as a as a damages  13 expert that in terms of the burden, it is your  14 burden, the plaintiff's burden to identify proof  15 of revenues subject to there needing to be a nexus  16 to the allegations in the case, and then I think  17 there's some question as to sort of what the  18 burdens are for proving the costs you would  19 deduct from these revenues some people say, hey,  20 that's the defendant's burden.	1 present values that are reasonable and not 2 irrelevant and not misleading. 3 BY MS. KLIEBENSTEIN: 4 Q. derived, and I'm asking a slightly different	16 correct?
17 question. When you use the phrase some	17 A. I say that in several places. Yes.
18 connection, I understand that there strike 19 that.	18 Q. So that's your opinion?
	19 A. Yes. I think that the numbers he quantified would
Now moving to the word attributable, within	20 represent a windfall.
21 the context of the phrase profit attributable to	21 Q. And is it your opinion that in connection with
factors other than the copyright of work, in your experience as a damages expert, what does the word	copyright disgorgement that FICO should receive no more than the value Federal received from the
24 experience as a damages expert, what does the word attributable mean to you in that context?	
	24 alleged infringement? 25 A. Where do you where are you reading from? Is
25 MR. FLEMING: Object to the extent it calls	23 A. where do you where are you reading from? Is

Page 20 Page 18 1 there a place in my report that I said that? 1 Q. At Paragraph 158 in your report, in the second 2 Q. You know, I don't know that you expressly said line, I see the phrase "financial and economic 3 that. So I'm just trying to test the boundaries nexus," and I'm wondering with regard to the 4 of how I understand your opinion, and I understand 4 phrase financial nexus, what does that mean within 5 the windfall aspect, and so I'm trying to the context of your report? 6 understand what the -- what the financial and 6 A. Well, it means what I describe throughout my 7 economic underpinnings of your -- the way that you report, but if you want to substitute another word 8 approached your work in this case. 8 to help in the understanding, I think that another 9 9 So I asked you about the windfall. The word would be connection. There needs to be some 10 question I asked is: Your opinions relating to 10 sort of connection. disgorgement damages are they based on the 11 11 Another phrase that might be helpful is you 12 presumption that FICO should receive no more than 12 need to define the economic boundaries of what it 13 the value received by Federal from the alleged 13 is that your math yields and connect that to 14 14 infringement? whatever the claims are that are being made in the 15 MR. FLEMING: Objection. Vague. 15 case. That's how I think about nexus. THE WITNESS: I don't recognize the -- that 16 O. Financial nexus? 16 17 phrase or term. 17 A. I think so. BY MS. KLIEBENSTEIN: 18 18 Q. So what about economic nexus; what is your 19 Q. Okay. So your answer is no? definition of economic nexus? 20 A. No. That's not my answer. I just said I didn't 20 A. It would be the same. I'm using that -- I think 21 21 recognize that phrase or term. That's different the fields of finance and economics are closely 22 than the terminology that I used in my report. 22 related, and I'm using that I think to --23 23 Q. And that may be so, but I'm asking you to -- well, interchangeably there. you did the work for your report; right? 24 Q. So why didn't you just use the word nexus instead of financial and economic nexus? 25 A. Sure. 25 1 Q. What is it about that question that's difficult to 1 A. Because I think you could have -- it's possible 2 answer? that you could have a technical nexus, and I'm I 3 A. It's not difficult. I thought I gave you a clear 3 think clarifying that this relates to the field of answer. I didn't recognize that from my report. finance, and valuation, and economics. 5 Q. Okay. So if it -- if it's not in your report, 5 O. So what's a technical nexus? you're not going to answer the question? 6 A. Sometimes technical experts are asked to do 7 7 A. No. I didn't say that at all. I just said that I comparisons or make connections using their skill didn't recognize that from my report. I took the time to explain my understanding of the law and to 9 Q. And in that last sentence of 158, you write, "I 10 explain my understanding of the standards that are 10 understand that any profits of the infringer must 11 required for Mr. Zoltowski or I to arrive at a be attributable to the infringement. Mr. 11 12 reasonable and reliable conclusion from -- in 12 Zoltowski has not shown how this is so in his 13 terms of the field that we practice in and where 13 analysis." 14 we're experts, and I provided that level of detail 14 A. Correct. 15 in my -- in my report. 15 Q. Are you -- is your assumption that Mr. Zoltowski 16 Q. Okay. So you can't answer that question one way 16 had -- had a -- had the burden to show profits of 17 or the other? 17 the infringer that are attributable to the 18 MR. FLEMING: Objection. Misstates the 18 infringement? 19 19 MR. FLEMING: Objection. Calls for legal 20 20 THE WITNESS: I think I did answer the conclusion. 21 question. I don't understand why you're saying 21 THE WITNESS: No. I wouldn't say that 22 22 that I -- I'm not answering the question. I'm that's the assumption that I made. 23 23 answering the question very directly. BY MS. KLIEBENSTEIN:

24 Q. I understand from your report that you disagree

with Mr. Zoltowski's figures for lost license fees

MS. KLIEBENSTEIN: Okay.

BY MS. KLIEBENSTEIN:

24

25

Page 22 Page 24 1 for breach of contract; is that right? 1 A. We can call it that if you like. 2 A. There's a lot of things that I said I disagree 2 O. Sure. with. Sure. 3 A. I'll accept that. 4 Q. Well, that's just one part; right? 4 Q. Okay, and my question is: Do you have an opinion 5 A. Correct. that a different framework should be used in this 6 Q. Okay. So focusing on the breach of contract, I 6 case? 7 want to understand -- I'm trying to understand 7 A. Well, there's two parts to my answer there. First 8 where you're serving in a responsive rebuttal role of all, I think the form is less important than 9 and where you have affirmative opinions. the substance, and so whether it's a license where 10 Does your report contain an opinion as to 10 there's named applications or it's an enterprise 11 what you believe is the proper framework to assess 11 license, that's less important to me than trying 12 breach of contract damages? 12 to get at the value of what it is that is the --13 MR. FLEMING: Can you repeat the question 13 is the focus of the wrongdoings as alleged, and 14 14 please? the second part of my answer is I think that 15 MS. KLIEBENSTEIN: I can just ask it again. 15 Doctor Kursh has some opinions that respond to Mr. 16 I'll wait until Mr. Bakewell is ready. 16 Zoltowski on this and explain that Mr. Zoltowski's 17 THE WITNESS: I'm -- what -- he asked you 17 framework of named applications is unreasonable. 18 to repeat the question? 18 I think that from a financial and economic 19 MS. KLIEBENSTEIN: Yeah. I'll ask it again 19 perspective Mr. Zoltowski's focus on the form 20 when you're ready. 20 rather than the substance results in him making 21 THE WITNESS: Oh sure. Go ahead. 21 some errors and deviating from the -- the 22 MS. KLIEBENSTEIN: Now it scrolled all the 22 footprint, financial and economically, of what it 23 23 way down. Yeah. Just read it. is that he's -- that he's trying to measure. 24 (Whereupon the material was read by the 24 There's, like, a cascading effect from the 25 shorthand reporter.) 25 error. So that's my response to your question. Page 23 Page 25 1 THE WITNESS: I think that it does. 1 Q. Moving on to actual damages for copyright 2 BY MS. KLIEBENSTEIN: 2 infringement, separate from disgorgement, does 3 Q. Can you point me to where? Well, let me -- yeah. 3 your report have a framework for what you see as Why don't you direct me to where you're looking in 4 the appropriate damages amount or actual damages? 5 5 A. Well, the framework would be as -- as I outlined your report. 6 A. Well, two things. First of all, I'm describing in Section 3.6, and then as I incorporated from 7 and responding to what Mr. Zoltowski did, and I'm reference to Mr. Zoltowski's report about what the 8 framework is. So I do have a section on that, 8 citing to his report, and I don't have his report. 9 So it would be helpful to see that because I'm 9 10 10 Q. I see your Section 3.6 on the overall general trying to make the same assumptions regarding the 11 applicable standards, and then I think when you 11 legal framework. My question was focused on the 12 read my report, it's clear that Mr. Zoltowski is 12 damages calculation for actual damages. Do you 13 just by the name of what he's -- what we both 13 have an affirmative calculation for actual damages 14 framed his analysis as -- as well as what he does 14 for copyright infringement? 15 he's trying to do some sort of lost software fee 15 A. Let me see if I can find the spot in my report. 16 16 This answer is a little more challenging for me or lost profits, which is a but-for type of 17 analysis. 17 because Mr. Zoltowski didn't really define what 18 Q. So separate from Mr. Zoltowski's opinion, what is 18 the copyrights are that he's trying to value, and 19 your opinion on the proper framework for breach of 19 so I'm trying to be as responsive to him and his 20 20 contract? Is it -- is it enterprise? Is it named analysis as I can. 21 application? Is it something else? There's one place in my report that 22 replicates the specific modules that Mr. Zoltowski 22 A. I don't understand your question. 23 23 Q. Mr. Zoltowski put forth a named application identified, and I'm trying to find it. It's in 24 damages analysis for the breach of contract claim; 24 26, Paragraph 26 where there's copyright 25 25 registration numbers, a table of copyright right?

Page 26 Page 28 to correct for at least some of his errors. 1 registration numbers. What I'm referring to here

- 2 is that Mr. Zoltowski doesn't disaggregate his
- analysis in a way that's specific to each of these
- 4 copyrights.
- 5 Q. And why should Mr. Zoltowski have done that?
- 6 A. Well, if he's going to use his financial and
- valuation skill set and offer numbers that he's
- 8 going to refer to as values, which he clearly
- does, he needs to define what it is that he's
- 10 valuing.
- 11 Q. And you believe that what should be valued is the
- 12 -- the registered works under the copyright
- 13 registrations?
- 14 A. If you're claiming to arrive at a value that's
- 15 specific to the copyrights, there needs to be some
- sort of connection to the copyrights.
- 17 Q. Do you have an understanding of what these
- 18 copyright registrations identified in Paragraph 26
- 19
- 20 A. Yes.

1

- 21 Q. What is that?
- 22 A. It's what's described in the complaint. There's a
- 23 typo here. It says, "Second and amended company."
- 24 It should say complaint I think on Page 3. If you
- have the complaint, that's the understanding of 25

- 2 O. And these --
- 3 A. So that's why I say yes or no.
- 4 Q. Okay, and the adjustments primarily were adding --
- adding a discount and modifying the number of
- applications at issue; am I right about that?
- 7 A. No. I think his -- there's some other things that
- are -- that are there, but if you're talking about
- 9 what is quantified in the schedules, like, 2 and
- 10 2.1 for those corrections, I think you're
- 11 capturing a bunch of them.
- 12 O. Are there any other quantifiable adjustments as --
- 13 as it relates to actual damages for copyright
- 14 infringement?
- 15 A. Well, the main one is you reduce it to zero
- because Mr. Zoltowski hasn't defined what the 16
- 17 copyrights are economically.
- 18 Q. Does your report state anywhere that the actual
- damages FICO should receive for copyright
- 20 infringement are zero?
- 21 A. I think that I've said very clearly that Mr.
- 22 Zoltowski didn't define what it is that he's
- 23 valuing, and I think it follows from that that if
- 24 there's -- if there's a lack of definition, it's
- 25 zero or a null value, nothing's been identified.

Page 27

- the assumptions I made.
- 2 Q. And in -- in your report, I don't see anywhere
- where you independently value the copyrighted
- 4 works. Am I correct about that?
- 5 A. Well, I haven't seen where those copyrights have
- been distinguished from anything else that is --
- 7 that was licensed, and so I think you're right,
- 8 and you're wrong.
- 9 You're right in that I don't have a
- 10 specific number for each of these copyrights, but
- 11 that's because Mr. Zoltowski hasn't defined what
- 12 these are economically, and I haven't seen any
- 13 evidence that these are anything of substance
- 14 economically. So there, there's no number.
- 15 However, I think you can also assume, and
- 16 as I wrote in my report, I've tried to make the
- 17 assumption that let's -- let's assume that Mr.
- 18 Zoltowski is correct and -- and if this is indeed
- 19 his assumption, that the copyrights overlap
- 20 conceptually with what is -- what the alleged 21
- wrongdoings are, that -- in other words, that the 22 entirety of the -- of what's covered under the
- 23 contract is also copyrighted, that they are
- 24 coextensive, and under that scenario, I've made
- 25 adjustments to what Mr. Zoltowski has done to try 25

- I think I said that repeatedly.
- 2 Q. You say repeatedly that the damages award should
- 4 A. I didn't say that. I used that specific term, but
- I did say that he hasn't shown that there's a
- nexus. He hasn't defined what the copyrights are,
- 7 and I think it follows from the fact that -- from
- 8 an economic point of view what the copyrights are,
- 9 and I think it follows from that -- that the
- 10 number is either zero or it's not a number, it's a
- 11 null value, that he has not done anything
- 12 reliable, with all due respect, from a financial
- 13 and economic point of view, and that results in a
- 14 null value.
- 15 Q. As far as quantifiable adjustments, other than the
- 16 null value, those quantifiable adjustments are all
  - reflected in Exhibits 2 through -- why don't you
- 18 tell me.

17

- 19 Other than the null value, can you identify
- 20 for me where else your quantifiable adjustments
- 21 are as it relates to actual damages for copyright
- 22 infringement?
- 23 A. Well, there's a variety of calculations starting
- 24 at Exhibit 1 I think through -- I think through
  - about Exhibit 10. Then there's some narratives in

888-391-3376

	Page 30			Page 32
1	my report where I describe some other things	1		report for you.
2	conceptually.	2	Q	2. I didn't understand something at the end of that
3 Q	. With regard to copyright disgorgement damages, I	3		answer. We were talking you were talking about
4	think that your report you opine that Mr.	4		market value, and then you said that that's
5	Zoltowski is wrong about his assessment of	5		subject to conducting some sort of analysis of
6	copyright damages for disgorgement; correct?	6		what's attributable to the copyrighted works as
7 A	. That's one of the things that I said. Sure.	7		opposed to other things.
8 Q	. And now, again, I'm trying to understand your	8		Is that analysis done at the application
9	affirmative opinions as they relate to copyright	9		level, or in the insurance context the policy sale
10	disgorgement. Your report does not contain an	10		level? What were you referring to there?
11	opinion regarding whether any of Federal's profits	11	A	. Well, I wasn't referring to anything that
12	have a connection to Blaze Advisor; is that	12		specific. What I was saying is what I said
13	correct?	13		earlier, that if you have copyrights that
14 A	. No. That's wrong.	14		conceivably those copyrights could be coextensive
15 Q	. Tell me why I'm wrong.	15		with the entire software product, although that's
16 A	. I think the evidence shows that there is no	16		I think rarely the case that you can copyright
17	connection, that I think I've explained at	17		something that is identical to economically what
18	length, and I can do this without even looking at	18		the product is that's sold, and so you need to
19	any parts of my report, how there isn't a	19		define the boundaries of each and compare them and
20	connection between revenues and Blaze Advisor.	20		make a reduction that is specific to the
21	It's not a software that I understand	21		copyrights. That's what I was referring to.
22	fundamentally is used to create revenues. There's	22	Q	Okay. So is it your opinion in your report that
23	no economic analysis or evidence that shows that	23		there is zero connection between the gross written
24	it creates revenues.	24		premiums at issue in this case and Blaze Advisor?
25	I think that conceivably there's	25	Α	. I haven't seen anything that is that shows that
	Page 31			Page 33
1	potentially some cost savings elements over, say,	1		there's a reliable connection other than
2	for example, doing the same work manually, but	2		conceivably the cost savings types of attributes
3	there's also substitute products that are	3		that I described in my in my report.
4	available, and so I think that provides some	4		I think it's wrong frankly for Mr.
5	indication of what the economic boundaries are of	5		Zoltowski to claim that there's a connection
6	the of the software, and then I describe in my	6		between all of the revenues and Blaze Advisor. I
7	report how the value of software works, and I've	7		think it's wrong is I'm being polite.
8	confirmed that that's how it works in this field	8	Ç	). So your answer was I haven't haven't seen
9	where you can assess income-generating	9		anything that shows there is a reliable
10	opportunities, I call that the income approach, or	10		connection. Got it. Understood that. My
11	attributes I should say instead of opportunities,	11		question is a little bit different.
12	cost savings versus alternatives, call that the	12		Have you seen anything that shows you for
13	cost approach, and then market-derived inputs were	13		sure 100 percent there's zero connection? Is that
14	considerations that, in this industry, reflects	14		your opinion?
15	the cost and the income approach is what I call	15		MR. FLEMING: Objection to the first part
16	fundamental economic attributes, and the value of	16		of that before stating the question misstates his
17	software will tend to manifest in terms of market	17		testimony.
18	values, and and that's what I say would provide	18		MS. KLIEBENSTEIN: I actually typed it out
19	the best measure, but that's subject to conducting	19		realtime so it's accurate.
20	some sort of analysis of what's attributable to	20		MR. FLEMING: Same objection.
21	the copyrighted works as opposed to other things.	21		THE WITNESS: I don't understand your
22	So without doing another level of what I'll	22		question.
23	call apportionment here, that would yield an	23		BY MS. KLIEBENSTEIN:
24	inflated results still. So I talk about that, and	24	Ç	2. I mean, it's kind of a circumstantial versus
	I basically just described the second half of my	25		direct question; right? So I can say that I've

Page 34 Page 36 1 seen something with my own eyes and I know for 100 1 A. I think it depends on the context of the question 2 percent that it's true versus I haven't seen and which application that it is. 3 anything that disproves it, proves it one way or 3 Q. So what about -- what about CSI Express? 4 the other. So my question is relating to that. 4 A. What page of my report is that? 5 Your testimony was, "I haven't seen 5 Q. I think you can look at Page 47. 6 MR. FLEMING: So just so that I'm clear, anything that shows there is a reliable 7 7 connection," and I just want to confirm your when you say what about CSI Express, is that the 8 opinion one way or the other whether you 8 9 affirmatively believe 100 percent that there is 9 MS. KLIEBENSTEIN: I'll ask the question 10 zero connection between the gross written premiums 10 again. 11 at issue here and Blaze Advisor. 11 MR. FLEMING: Okay. 12 MR. FLEMING: Just to clarify, you had a 12 THE WITNESS: I didn't think there was a 13 long lead-up to that question, and I'm assuming 13 question pending. That's why I was waiting. 14 14 the only thing that you're asking had nothing to BY MS. KLIEBENSTEIN: 15 do with the lead-up but just the question itself; 15 Q. Page 47. 16 correct? 16 A. Okay. 17 MS. KLIEBENSTEIN: That's correct. I'm 17 Q. Are you there? 18 just trying to get the context so we don't go 18 A. I am. It's right here. 19 round and round on this for too long. 19 Q. We were talking about your discussions with 20 THE WITNESS: I have an open mind. I try 20 Federal employees, and my question was: At the 21 21 application level, did -- did you speak with to consider, frankly, your perspective when I'm 22 assuming liability, and I haven't seen in Mr. 22 anyone -- do you have an understanding one way or 23 23 Zoltowski's report or the reports or declarations another as to whether CSI Express contributes to 24 of the experts that he's relying upon any sort of 24 revenue in any way at Federal at the application reliable direct evidence of that type of value, 25 25 level? Page 35 Page 37 1 and that's important to me because I'm assuming 1 MR. FLEMING: Okay. So the question is 2 that Mr. Zoltowski is able to do that, and the 2 whether he asked anybody at Federal that question? 3 fact that he didn't is to me direct evidence that 3 MS. KLIEBENSTEIN: No. I'll ask it again. 4 there isn't such a connection. So that's Part 1. BY MS. KLIEBENSTEIN: 5 Part 2 is that I interviewed Mr. Kursh or 5 Q. Mr. Bakewell, do you have an understanding one way 6 Doctor Kursh and Mr. McCarter about this, as well or the other as to whether CSI Express contributes 7 as people at Federal, and they all told me that in any way at Federal to revenues at the 8 there is no connection, and so that's another application level? 9 category of direct evidence that there isn't a --9 A. What do you mean revenues at the application 10 a connection between revenues and Blaze Advisor, 10 level? There are no revenues at the application So there's several categories of direct 11 11 12 evidence if you look at it that way, as I think 12 Q. I'll ask it a different way. Do you have an 13 you're -- you described in your preamble to your understanding one way or the other whether CSI 13 14 question that lead me to conclude that there 14 Express, the application, drives or contributes to 15 15 aren't any -- there isn't a revenue connection. revenue in any way at Federal? BY MS. KLIEBENSTEIN: 16 16 A. Yes. 17 Q. What about the applications -- let me back up. 17 Q. In what way? 18 You understand that Blaze Advisor is used in 18 A. It doesn't. 19 certain applications at Federal; correct? 19 Q. And what is your source for that opinion? 20 A. Yes. 20 A. That's what I've been looking for to see which 21 Q. Did you ask anybody at Federal whether the 21 specific person I could cite you to based upon applications that contain Blaze Advisor drove 22 22 what I've written. I don't know that I can give 23 revenue in any way? 23 you one particular person. 24 A. Yes. 24 You can see in Paragraph 15 that I 25 O. And what was the answer? 25 interviewed a whole bunch of people, and the

	T
Page 38 1 questions that I asked were of this nature. I	Page 40  1 to me, or others I followed up when they said, oh,
would think well, the person I would start with	now I understand your question, I'll look into
3 is Mr. Iannuzzi, and what what he told me is	that, and an example of that would be Mr. Pandey,
4 that it doesn't drive revenues.	4 Ramesh Pandey, and when they did that
5 Q. And what was his what was his reasoning?	5 investigation, they said, you know Chris, you need
6 A. Generally speaking, it's that it could be this	6 to really and what I what I learned here from
7 is a it's something that could be replaced, and	7 my research is we've got a business process, and
8 that it's the business process and not the	8 then we've got some software that supports our
9 software that and the business process	9 business process, and really the business process
including the people and their knowledge that	is first, and then what Mr. Pandey said
11 drives revenues as well as the sort of historical	specifically, he's one of the people who gave me
business relationships, and the brand, and that	business process flow charts, he's, like, look,

Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say  7 it that way.  8 Q. Did that make it wrong though?
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say  7 it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say  7 it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really  10 oversimplifies it, and I didn't say that there was
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say  7 it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really  10 oversimplifies it, and I didn't say that there was  11 a connection like that.
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say  7 it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really  10 oversimplifies it, and I didn't say that there was  11 a connection like that.  12 Q. So the the applications are part of the
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some  13 people they described how making sound decisions	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say  7 it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really  10 oversimplifies it, and I didn't say that there was  11 a connection like that.  12 Q. So the the applications are part of the  13 business process; would you agree with that?
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some  13 people they described how making sound decisions  14 can help, is helpful to the business, and they	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say  7 it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really  10 oversimplifies it, and I didn't say that there was  11 a connection like that.  12 Q. So the the applications are part of the  13 business process; would you agree with that?  14 A. They support a business process.
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some  13 people they described how making sound decisions  14 can help, is helpful to the business, and they  15 weren't able to provide any sort of specific	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say  7 it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really  10 oversimplifies it, and I didn't say that there was  11 a connection like that.  12 Q. So the the applications are part of the  13 business process; would you agree with that?  14 A. They support a business process.  15 Q. They support a business process, and what is your
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some  13 people they described how making sound decisions  14 can help, is helpful to the business, and they  15 weren't able to provide any sort of specific  16 measure or anything like that, but they from	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say  7 it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really  10 oversimplifies it, and I didn't say that there was  11 a connection like that.  12 Q. So the the applications are part of the  13 business process; would you agree with that?  14 A. They support a business process.  15 Q. They support a business process, and what is your  16 understanding of the business processes that these
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some  13 people they described how making sound decisions  14 can help, is helpful to the business, and they  15 weren't able to provide any sort of specific  16 measure or anything like that, but they from  17 their perspective I think had sort of the same	Page 41  1 Q. So the applications that you understand from your interviews those enable business processes; did I get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really oversimplifies it, and I didn't say that there was a connection like that.  12 Q. So the the applications are part of the business process; would you agree with that?  14 A. They support a business process.  15 Q. They support a business process, and what is your understanding of the business processes that these 17 applications support?
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some  13 people they described how making sound decisions  14 can help, is helpful to the business, and they  15 weren't able to provide any sort of specific  16 measure or anything like that, but they from  17 their perspective I think had sort of the same  18 open mind that I did when I was investigating this	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say  7 it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really  10 oversimplifies it, and I didn't say that there was  11 a connection like that.  12 Q. So the the applications are part of the  13 business process; would you agree with that?  14 A. They support a business process.  15 Q. They support a business process, and what is your  16 understanding of the business processes that these  17 applications support?  18 A. They are all different.
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some  13 people they described how making sound decisions  14 can help, is helpful to the business, and they  15 weren't able to provide any sort of specific  16 measure or anything like that, but they from  17 their perspective I think had sort of the same  18 open mind that I did when I was investigating this  19 issue that, hey, you know, if we make better	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say  7 it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really  10 oversimplifies it, and I didn't say that there was  11 a connection like that.  12 Q. So the the applications are part of the  13 business process; would you agree with that?  14 A. They support a business process.  15 Q. They support a business process, and what is your  16 understanding of the business processes that these  17 applications support?  18 A. They are all different.  19 Q. Correct, but do you can you can you name one
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some  13 people they described how making sound decisions  14 can help, is helpful to the business, and they  15 weren't able to provide any sort of specific  16 measure or anything like that, but they from  17 their perspective I think had sort of the same  18 open mind that I did when I was investigating this  19 issue that, hey, you know, if we make better  20 decisions, I suppose maybe that might be a good	Page 41  1 Q. So the applications that you understand from your  2 interviews those enable business processes; did I  3 get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say  7 it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really  10 oversimplifies it, and I didn't say that there was  11 a connection like that.  12 Q. So the the applications are part of the  13 business process; would you agree with that?  14 A. They support a business process.  15 Q. They support a business process, and what is your  16 understanding of the business processes that these  17 applications support?  18 A. They are all different.  19 Q. Correct, but do you can you can you name one  20 of the business processes that these applications
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some  13 people they described how making sound decisions  14 can help, is helpful to the business, and they  15 weren't able to provide any sort of specific  16 measure or anything like that, but they from  17 their perspective I think had sort of the same  18 open mind that I did when I was investigating this  19 issue that, hey, you know, if we make better  20 decisions, I suppose maybe that might be a good  21 thing, and maybe there's some connection to	Page 41  1 Q. So the applications that you understand from your interviews those enable business processes; did I get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really oversimplifies it, and I didn't say that there was a connection like that.  12 Q. So the the applications are part of the business process; would you agree with that?  14 A. They support a business process.  15 Q. They support a business process, and what is your understanding of the business processes that these applications support?  18 A. They are all different.  19 Q. Correct, but do you can you can you name one of the business processes that these applications 21 support?
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some  13 people they described how making sound decisions  14 can help, is helpful to the business, and they  15 weren't able to provide any sort of specific  16 measure or anything like that, but they from  17 their perspective I think had sort of the same  18 open mind that I did when I was investigating this  19 issue that, hey, you know, if we make better  20 decisions, I suppose maybe that might be a good  21 thing, and maybe there's some connection to  22 revenues, but I'm not in a position to really	Page 41  1 Q. So the applications that you understand from your interviews those enable business processes; did I get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really oversimplifies it, and I didn't say that there was a connection like that.  12 Q. So the the applications are part of the business process; would you agree with that?  14 A. They support a business process.  15 Q. They support a business process, and what is your understanding of the business processes that these applications support?  18 A. They are all different.  19 Q. Correct, but do you can you can you name one of the business processes that these applications support?  20 A. There's some underwriting functions that and
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some  13 people they described how making sound decisions  14 can help, is helpful to the business, and they  15 weren't able to provide any sort of specific  16 measure or anything like that, but they from  17 their perspective I think had sort of the same  18 open mind that I did when I was investigating this  19 issue that, hey, you know, if we make better  20 decisions, I suppose maybe that might be a good  21 thing, and maybe there's some connection to  22 revenues, but I'm not in a position to really  23 judge that, I'm more of a technical person, or I	Page 41  1 Q. So the applications that you understand from your interviews those enable business processes; did I get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really oversimplifies it, and I didn't say that there was a connection like that.  12 Q. So the the applications are part of the business process; would you agree with that?  14 A. They support a business process.  15 Q. They support a business process, and what is your understanding of the business processes that these applications support?  18 A. They are all different.  19 Q. Correct, but do you can you can you name one of the business processes that these applications support?  22 A. There's some underwriting functions that and 23 some pricing functions.
Page 39  1 business process, and I think that Mr. Zoltowski  2 would have been well served to have spent more  3 time trying to study those and understand them  4 frankly. With all due respect.  5 Q. I heard you say earlier that when I asked you  6 about the different applications and whether they  7 drive or contribute to revenue you said it depends  8 on it depends. With the answer to CSI Express,  9 can you identify any on this list that you have  10 information that they could contribute to revenue?  11 A. What I had in mind there in in leaving myself a  12 little bit of room is that when I spoke with some  13 people they described how making sound decisions  14 can help, is helpful to the business, and they  15 weren't able to provide any sort of specific  16 measure or anything like that, but they from  17 their perspective I think had sort of the same  18 open mind that I did when I was investigating this  19 issue that, hey, you know, if we make better  20 decisions, I suppose maybe that might be a good  21 thing, and maybe there's some connection to  22 revenues, but I'm not in a position to really	Page 41  1 Q. So the applications that you understand from your interviews those enable business processes; did I get that right?  4 A. No.  5 Q. How did I get that wrong?  6 A. I used a lot more words than that. I wouldn't say it that way.  8 Q. Did that make it wrong though?  9 A. Not always. Not always, but that really oversimplifies it, and I didn't say that there was a connection like that.  12 Q. So the the applications are part of the business process; would you agree with that?  14 A. They support a business process.  15 Q. They support a business process, and what is your understanding of the business processes that these applications support?  18 A. They are all different.  19 Q. Correct, but do you can you can you name one of the business processes that these applications support?  20 A. There's some underwriting functions that and

Page 42 Page 44 1 about the business processes and whether those 1 A. I don't think any do ultimately. I gave you I drive or contribute to revenue at Federal at all? think more context for that in our prior 3 A. I spoke with a lot of people about that. 3 discussion, but I think that if I had to boil it 4 Q. Did you say about that? 4 down, I would say no. I said that at the 5 A. I did. 5 beginning of our discussion. 6 Q. Okay. I just couldn't hear you, and what -- what 6 Q. Does your report -- does your report express an 7 did -- what were you told about the business opinion that all of Federal's revenues and profits 8 8 processes that these applications support and are driven by something other than Blaze Advisor? whether they do or don't drive revenue? 9 A. I think yes and no is the answer to that question. 10 A. Well, every business is different, and the 10 Q. Explain that for me. 11 A. I think that fundamentally it seems to be that way business process comes first, and the software 12 that's used only supports the business process, 12 because of the reasons that I described for you 13 and the business process is -- as I understand it 13 earlier, that the business is a century old, it's 14 14 have been developed over literally decades if not complex, it involves people. I discuss a lot of 15 a century, and there's people that provide value 15 this throughout my report just to try to give you 16 too through their knowledge, and those are the 16 as concise an answer as possible. I'll leave it 17 aspects that really drive value at the business. 17 there. 18 Q. So you would agree that the business processes 18 I discussed earlier how your experts and that the applications support do contribute to 19 designees have been unable to identify anything, 20 revenue at Federal? 20 despite that being their task, that is specific to 21 21 A. The business processes contribute to revenue. any incremental revenues or profits. 22 There's applications that support the business 22 I discussed how I interviewed Doctor Kursh 23 processes. There's all kind of applications, but 23 and Mr. McCarter, and their opinion is that there 24 24 is no connection. So that's all falls in the it would be wrong to mix the two like you did in 2.5 your answer, misleading, or in your 25 category of zero or null or none, and then I also Page 43 Page 45 re-characterization of my answer that you 1 1 1 said that, hey, I've got an open mind, and I've 2 2 rephrased as a question. I think somebody had to 2 tried to leave open the possibility that there 3 3 use the restroom. 3 might be some, and you and I discussed earlier, 4 4 Q. Just one second. 4 and this is also in my report, how the cost, 5 5 A. Okay. 5 income, and market approaches are interrelated, MS. KLIEBENSTEIN: Okay. We can take a 6 6 6 and the best measure of any sort of incremental 7 7 7 break. footprint would be manifest or show up in the 8 market-derived data points, and I discussed that 8 8 THE WITNESS: Thank you. 99 THE VIDEOGRAPHER: We are going off the 9 10 10 record. The time now is 10:14 a.m. 10 Q. You mentioned incremental revenues and profit, and 11 11 (Whereupon a short break was taken from 11 incremental footprint. What do you mean by those 12 12 10:14 a.m. to 10:33 a.m.) 12 phrases? 13 13 THE VIDEOGRAPHER: We are back on the 13 A. I thought that's what you're asking me. 14 14 record. It this marks the beginning of Media 2 in 14 Q. Maybe. I'm not in your industry though so I just the deposition of Chris Bakewell. The time now is 15 15 15 want to make sure I understand what you mean by 16 16 10:34 a.m. 16 the phrase, let's start with, incremental 17 17 17 BY MS. KLIEBENSTEIN: footprint. 18 18 Q. All right Mr. Bakewell, just to close up this line 18 A. That's what we're supposed to measure is 19 19 of questioning so that I'm clear, if you turn to 19 incremental. 20 20 Page 47 in your report. 20 Q. The incremental change that Blaze Advisor does or 21 21 A. Okay. 21 doesn't add; is that what that phrase means? 22 22 Q. So the list of applications on Page 47 can you 22 A. It has to be incremental to Blaze, or specific to 23 23 tell me which -- can you identify for me which of 23 the allegations in this case.

24 Q. Did you, in your report, create a model for FICO's

damages based on FICO's disgorgement claim?

contribute to revenue?

those applications you have been informed do

24 24

25 25

Page 46 Page 48 1 A. What do you mean create a model? 1 A. I make assumptions about that. I don't offer 2 Q. Did you create a damages model responding to Mr. opinions about liability. I would have assumed Zoltowski's model as to what would be the 3 everything you claim infringes -- infringes, if 4 appropriate measure of damages for disgorgement? that's the word that you used, and all the 5 5 A. He doesn't really have a model. He just says wrongdoings that you've claimed are in fact 6 everything. That's not really a model. wrongdoings. I've made that assumption. 7 Q. My question is: Do you have a model for what you 7 Q. Your opinions though remove some of the view as the appropriate amount of damages for applications that FICO has accused of infringement copyright disgorgement in this case? 9 and breach of contract; is that right? 10 A. Well, my assumption is what I laid out. If that's 10 A. What are you referring to? what your -- if you mean by a model. I laid that 11 Q. Look on Page 45, and the header at the top is Mr. 12 out in Section 3.6. 12 Zoltowski's Analysis is Overstated because He 13 Q. And I don't mean the legal framework. I mean -- I 13 Includes Applications that Do Not Use Blaze 14 mean a damages model with dollar figures in it. Advisor. Do you understand that it's FICO's 15 A. Is that a question? 15 position that the applications with -- with Xs by 16 16 Q. Yes. them in the table below that do use Blaze Advisor? 17 A. I don't understand it. 17 A. I think that that may or may not be your position. 18 Q. Does your report provide an affirmative opinion as 18 My experience is that as discovery proceeds in to what should be the damages amount for copyright 19 matters like this that plaintiffs often times will 20 20 disgorgement in this case? learn that their allegations are not entirely 21 21 A. Yes. accurate, and they will adjust, and one of the 22 Q. What is that? 22 ways that they can adjust is through their 23 23 A. Well, I think, there again, the specific most experts, like Mr. Zoltowski, can elect based upon succinct answer is that it's probably a null 24 the evidence and discovery that's occurred to be value, that Mr. Zoltowski hasn't identified 25 25 more specific and accurate and not include certain Page 49 1 anything that's specific to the allegations in 1 things in his analysis, and I frankly think there 2 this case, and I haven't seen how the allegations 2 was evidence there that he should have recognized 3 in this case specifically create value or relate 3 and -- and credited. 4 to value other than sort of the market-derived 4 If he doesn't credit that, I'm fine making 5 data points, and then in response to Mr. 5 the assumptions that somehow you're going to prove 6 Zoltowski's, with all due respect, vague and 6 that those applications use Blaze Advisor. I'm 7 inflated figures, I provide context for the costs 7 only making assumptions about liability, and I'm 8 that would apply without accepting that what he's 8 indicating that my analysis is flexible, and that 9 doing is correct. 9 whatever the record evidence shows that should be 10 What he's done, frankly, is so wrong that 10 included. 11 it's challenging to respond his analysis in, like, 11 For whatever reason, Mr. Zoltowski isn't 12 a specific way, but I've tried to be as specific 12 willing to each make those -- those sort of basic 13 as I can, and one of the things that he's done 13 concessions, which I think is -- is problematic, 14 without conceding -- without me conceding that 14 but part of my job here is to -- is to highlight 15 he's identified a reliable set of revenues is he 15 that issue, and to show what the impact would be, 16 totally missed the boat on -- on cost. He didn't 16 and how you account for it to be helpful to the 17 even try, which is a problem because it relates to 17 fact finder. 18 and it shows his lack of either understanding of 18 Q. I'll represent to you that FICO does believe all 19 the business or willingness to endeavor in an 19 of these applications use Blaze Advisor. Looking 20 analysis of understanding the business. 20 at Exhibit 1, your report does not contain an 21 Q. Does your report provide an opinion about which 21 alternative damages framework for those

applications that you have listed as does not use

24 A. No. That's not true. I think your interpretation

is a little too narrow of what I'm doing.

Blaze Advisor; is that right?

25 Q. Yeah.

24 A. An opinion of that?

Federal applications are accused of infringing

FICO's copyrights in breaching the agreement?

22

23

22

23

Page 52 Page 50 1 What I'm doing here is responding to what 1 some reference to Blaze Advisor in doing that sort 2 2 Mr. Zoltowski is saying, and he's -- he's assuming of general Internet research. Those would be the 3 I suppose that you're going to prove up every places that come to mind. 4 single one of your claims, and I can make that 4 Q. Did you -- did you see how Blaze Advisor works 5 within Federal? same assumption too and incorporate the same 6 A. Yes. 6 numbers that he does, but there's -- there's 7 evidence, as I understand it, and it wouldn't be 7 O. Tell me about that. 8 the first time I've seen this, where discovery 8 A. I think there my understanding was developed more proceeded and it came to light that there are from looking at flow charts. I had already 10 certain applications that don't use Blaze Advisor, 10 developed an understanding of how the product or don't infringe, and in that case, they need to worked and what the interface looked like from the 11 11 12 be deducted, and there's all kind of, like, 12 materials that I described to you a moment ago, 13 combinations of -- of results. I'm indicating one 13 and so then when I spoke with, for example, Mr. 14 14 here in Exhibit 1 for example. Pandey, he described thing to me, and then Fed 15 It could be that CUW is found by the fact 15 produced those flow charts. That all kind of fit 16 16 finder not to be something that belongs on the together and gave me an understanding for how the 17 list, and it's easy enough to -- to make that sort 17 systems would work at Federal. 18 of adjustment. I'm indicating one set of 18 O. Have you reviewed the rules that are within Blaze 19 adjustments that I understand applies. 19 Advisor at Federal? 20 Q. And who provided you with the assumption that the 20 A. Some of them. I'm not a technical expert, but 21 applications with Xs by them on Page 45 do not use 21 I've seen some information that gave me an 22 Blaze Advisor? 22 understanding of that as a lay person. 23 A. Well, not just to me. It's from deposition 23 Q. And what materials are you referring to? testimony of Mr. Harkin and Mr. Pandey. It's from 24 A. Marketing materials, deposition testimony, and the 25 Fed's answers. Footnotes -- I've had this all 25 like. Page 53 documented in Footnotes 224 through 229. 1 Q. But not the rules themselves that are in Blaze 1 2 Q. So you have done no independent analyses, separate 2 Advisor today? 3 from reviewing the materials in this lawsuit and 3 A. I may have. I can't remember if I've seen that 4 speaking with people at Federal, to confirm which type of stuff specifically from -- from Federal, applications do or do not use Blaze Advisor? or if that's the understanding that I gained is 6 A. That question doesn't even make sense. You said I from combining general rules descriptions that didn't do any independent research except for the I've seen with testimony and other documents and independent research that I did? That doesn't 8 diagrams. I don't have -- I'd have to have my make sense. 9 memory refreshed. 10 Q. Mr. Bakewell, you have not gone into the 10 Q. Moving to Paragraph 44. 11 A. Okay. 11 applications themselves to confirm whether Blaze 12 Advisor is or isn't used in them; correct? 12 Q. The last sentence says, "Annual sales activity is 13 A. Correct. I'm not a technical expert. 13 principally driven by customer renewals of 14 Q. Have you ever seen a demonstration of Blaze 14 existing policies." 15 Advisor? 15 A. Correct. That's one of the things I was referring 16 A. Yes. 16 17 Q. Tell me about that. 17 Q. Do you know what percent of Federal's revenues in 18 A. I've looked at -- there's descriptions in 18 any given year are from customer renewals of marketing materials. There's a couple of 19 existing policies? 20 marketing materials that are very detailed that I 20 A. I've seen that, but I don't have a number 21 think provide a demonstration of Blaze Advisor. 21 22 I think at different points I went -- sort 22 Q. And is this sentence true -- you know, I see that 23 of did some of my own Internet research and, like, 23 it's from a general industry publication. Is that 24 24 true at Federal? looking at YouTube videos and stuff. I can't 25 25 A. Definitely. remember specifically what I saw, but I did see

Page 54 Page 56 1 Q. And what is your support for that statement? 1 Q. And how do you know that? 2 A. Because the businesses that comprise Federal are 2 A. Which statement? No or yes? some of the oldest and most established businesses 3 Q. Your -- the support for your statement that in the country. In addition to seeing more know-how of the workforce at Federal attributes --5 specific information and testimony. attributes or contributes to revenue? 6 Q. Is it your opinion in your report that Federal's 6 A. It comes from gaining an understanding of the 7 7 existing customer relationships drive revenue? business and the industry that it operates in. It 8 comes from financial statements and annual 9 Q. And do you know what percent of Federal's revenue 9 reports. It comes from documents prepared in the existing customer relationships drive? 10 10 ordinary course of business as well as deposition 11 A. I don't think I can give you a specific number, 11 testimony. Those would be some examples and not 12 but it's very high. 12 an exhaustive list. 13 Q. And what's your -- what's your support for that? 13 Q. I'm going to try to ask this generally. Maybe we 14 A. Same things we just discussed. 14 can, maybe we can't. 15 Q. Which are -- just so I've got it right, why don't 15 A. Let's try. you recap those, that support for me. 16 Q. I have a few -- I have about ten other things on 17 A. Sure. Just broadly, we talked about how this 17 my list that I want to ask you the same questions 18 industry works, property and casualty insurance, 18 about the percentage -- the percentage of revenue 19 and the cites that you asked me about in 19 that is attributable to these different factors 20 Paragraphs 44 and I think 43. We talked about the 20 and then your support for that. So I'll -- I'll 21 21 Federal businesses and their long history. This list them, and if we have to go through them one 22 is also explained in annual reports of Chubb, and 22 at a time, let me know; brand recognition, ability 23 23 then I referred to deposition testimony and other to maintain strong financial ratings, underwriting 24 documents that describe how Chubb's business works 24 expertise, business infrastructure, global 25 fundamentally, and ACE, and Federal. 25 presence, price, product offerings, scope and type Page 57 1 Q. But you haven't seen a marketing survey or 1 of distribution system, customer service quality, anything like that that says existing customer 2 and use of technology. 3 relationships drive 33 percent of revenues? 3 So for that -- that bucket of factors, can Nothing that specific; is that correct? you tell me what percent of Federal's revenues are 5 A. There's nothing that is -- has a number like 33 attributable to those different elements? percent in response to a question like you just 6 A. I don't think I have a specific percentage for 7 provided that I've seen. The information that each of those. I've seen is more fundamental than that, and 8 Q. Do you have a specific percentage for any of them? pervasive. 9 A. Not committed to memory. There might be a 10 Q. I also saw you mention strong management team 10 document somewhere that measures something like throughout your report. Do you believe that 11 11 that, but I can't give you anything off the top of 12 Federal's revenues are generated by a strong 12 my head. 13 management team as well? 13 Q. Do you believe those things, those aspects of 14 A. I do. 14 Federal's business attribute to the revenue? 15 Q. And can you identify a percent for me? 15 A. I don't understand your question. What do you 16 A. I can't give you a percentage for that. mean attribute to? 16 17 Q. And is your support for that opinion the same 17 Q. Is Federal's revenue -- couldn't identify a 18 types of information we just discussed? 18 percentage, but is Federal's revenue in general 19 A. Yes. 19 attributed to all of those factors I just listed? 20 Q. The next is know-how of Federal's workforce. Is 20 A. I don't know what you mean by attributed to there. 21 it your opinion that the know-how of Federal's 21 That sounds like an easy enough word, but that can 22 workforce contributes to revenues at Federal? 22 be, like, a term of art in my field. So it's --23 A. Absolutely. 23 it would be easier if you use a different word for 24 Q. And do you know a percent? 24

25 Q. Why don't we try just one and see if we can work

25 A. No.

Page 58 1 I've seen. 1 through it. So brand recognition. 2 A. Yes.

- 3 Q. Do you believe that any of Federal's revenue is
- attributed to brand recognition?
- 5 A. Attributable to? Toward it? What do you mean?
- Why did you say attributed to in the past tense?
- 7 That's a weird -- that's weird to me.
- 8 Q. I can use attributable.
- 9 A. Okay.
- 10 Q. Brand recognition. Are any of Federal's revenues
- attributable to brand recognition?
- 12 A. Yes.
- 13 Q. And do you know a specific percent?
- 14 A. I can't tell you a specific number.
- 15 Q. And what is your support for your opinion that
- Federal -- Federal's revenues are attributable to
- 17 brand recognition?
- 18 A. Well, there's two things fundamentally. First
- that Chubb and ACE are two very highly regarded
- 20 brands, and my experience is that in a field like
- 21 this that you can -- it's possible to identify a
- 22 specific value that's attributable to a brand, or
- 23 to brands like those, and second, Chubb just went
- 24 through a re-branding effort, and I just read
- 25 about it recently where Chubb's management talked

2 Q. The next is underwriting expertise. Are Federal's

Page 60

- revenues attributable to underwriting expertise?
- 4 A. Yes.
- 5 Q. Do you have a percent?
- 6 A. No.
- 7 Q. And what is your support for that opinion?
- 8 A. It's from understanding how the business works
- fundamentally is -- and the different sources that
- 10 I gave you for each of the other categories would
- 11 probably apply to this category as well.
- 12 O. If you were tasked with trying to figure out a
- percentage of the revenues that were attributable 13
- 14 to underwriting expertise, how would you go about
- 15 doing that?

19

25

1

- 16 A. At the highest level, I would use the tools that I
- 17 have in my -- my toolbox as a valuation expert,
- 18 and those -- in the toolbox, there's three big
  - bins that I put the tools into.
- 20 One would be what I'll call income
- 21 approach, that bin. The other one would be the
- 22 cost approach, and the -- the third would be the
- 23 market approach, and I would think about what
- 24 tools are available under each of those bins.
  - Under the income approach, I would -- I'm

- about the value expects to create from that brand
- 2 and the refinement on the Chubb side, and the 3 integration of the ACE business, and the reasons
- 4 why it -- it did that relate to revenues, and
- 5 that's described at length in documents that I've
- 6

- 7 Q. So the next subject is the ability to maintain
- strong financial ratings. Is it your opinion that 8
- Federal's revenues are attributable to the ability
- 10 to maintain strong financial ratings?
- 11 A. Yes.
- 12 Q. Do you have a percentage?
- 13 A. No. I can't give you a percentage. Not right --
- sitting right here. If I was tasked with doing
- 15 that, I might be able to.
- 16 Q. And what is your support for that opinion, that
- Federal's revenues are attributable to the ability 17
- 18 to maintain strong financial ratings?
- 19 A. Well, it's how the business works, and I think
- 20 that there's some examples from my experience
- 21 where if you're an insured you can be required to
- 22 obtain insurance from a company that has a certain 22 A. Maybe.
- 23 rating. That wouldn't be unusual for me to see in
- 24 a contract, and that's consistent with how Federal
- 25 describes its business in a variety of places that

- Page 61 inclined to say that's probably going to be the
- 2 best fit here, and surveys would be -- would be
- 3 one way to do it. I think I could do some
- 4 comparisons using statistics between companies
- 5 that have different ratings and see if there's a
- 6 correlation between ratings changes and revenues.
- 7 That's just off the top of my head how I
- 8 would go about doing -- solving that problem.
- 9 Q. Business infrastructure. Is it your opinion that
- 10 Federal's business structure -- strike that. Let
- 11 me ask it again. Are Federal's revenues
- 12 attributable to its business structure?
- 13 A. You said business infrastructure, and then you
  - said business structure. Which one do you mean?
- 15 Q. I mean infrastructure. I get so flummoxed trying
- 16 to say attributable that I can't say it. Go
- 17 ahead.
- 18 A. I don't understand your question. I don't think
- 19 that was a question.
- 20 O. Are Federal's revenues attributable to business
- 21 infrastructure?
- 23 Q. Are Federal's revenues attributable to its global
- 24 presence?
- 25 A. Yes.

Page 62 Page 64 1 Q. And can you identify the percent of Federal's 1 elasticity and demand is, like, one of the revenues that are attributable to its global 2 fundamental considerations as a -- as a 3 3 financial/economic expert that I -- I'm interested 4 A. I can't give you a specific number as I sit here 4 in understanding anytime I assess a business and 5 right now. measuring when it's appropriate. 6 Q. If you were asked to try to come up with a 6 Q. Thinking about the insurance industry specific number, how would you go about doing 7 specifically, is there anything -- anything else 8 8 that -- beyond the fact that you need products to 9 A. I'd get my toolbox out that I just described for 9 sell to make money? Is there any other support you, has three big compartments in it, and then for your opinion that Federal's product offerings 10 10 11 think about what specific tools within each 11 the revenues are attributable to Federal's product 12 compartment or which compartment I would try to 12 offerings? 13 use and. 13 A. Sure. 14 Q. And what is your support for your opinion that 14 Q. And what's that? 15 Federal's revenues are attributable to its global 15 A. Well, another thing that comes to mind is I can 16 16 draw on my own experience when I was in industry 17 A. Because there are businesses that operate globally 17 one of the things I was responsible for was and they require global insurance companies, 18 managing and procuring property casualty -global coverage, and I think that if somehow 19 19 property and casualty insurance, and I -- I can 20 Federal artificially -- this is very artificial by 20 remember that figuring out the different vendors 21 the way in the case of Federal and its companies, 21 and their relationships with brokers and how 22 was only able to operate in one geography, then 22 things were underwritten was an important part of 23 there would be -- I'd have to do some thinking 23 that decision-making process, and I actually -- I 24 24 about what the impact is of that, and my can remember taking -- I actually took a week once experience is that having worked for a global 25 25 to take a deep dive and learn all about that 1 company and observed the globalization trends, stuff. I went to the Lloyd's Market in London, 1 particularly as they affect the United States, 2 2 and toured that, and interviewed people, and tried that's a consideration in the real world. 3 to learn as much as I could because it was an 4 Q. And price and product offerings; do you have an important part of our business. So I have a very opinion as to whether Federal's revenues are 5 good understanding I think of how that -- how that attributable to prices and product offerings? 6 7 A. Yes. 7 The product offerings and mix, and having a 8 8 Q. And can you identify a percentage of Federal's different sources for different products can be revenues that are attributable to price and 9 important. Sometimes it would make sense to have 10 product offerings? 10 multiple services and products purchased from one 11 A. Not that broadly as I sit here right now. 11 underwriter and broker, and sometimes it would 12 Q. If you were tasked with figuring out a percentage, 12 make sense to -- to split that stuff up. That's how would you go about doing that? 14 A. I would get out the toolbox and think about the 14 Q. So you mentioned a trip to Lloyd's in London; is tools in each compartment that I would use. that right? 15 16 Q. And what is your support for your opinion that 16 A. Sure. Yeah. I did. I mentioned that. 17 Federal's revenues are attributable to its product 17 Q. For what purpose? 18 A. I was trying to give some color to my answer and 18 offerings and their prices? 19 A. Well, let's address each one. The first one, 19 what I was remembering about how I learned that 20 product offerings, your -- it's such a circular --20 products -- different products are important. 21 what's the word? It's self-referencing or 21 Q. And -- and what was the purpose of this trip? 22 tautology. If you -- you need product offerings 22 A. To learn how -- I mean, that's a market that's 23 to generate revenues. So that's the first one, 23 been around for literally centuries, and to learn

how the industry has developed over the years.

25 Q. And was there a particular -- was there a

and then the second one, pricing, that's an issue

that I'm always interested in studying. Price

24

25

Page 66 Page 68 1 Q. And what is it? 1 particular research question you had when you --2 when you scheduled that trip, or were you trying 2 A. Can be a good thing. to solve a business problem? 3 Q. In what circumstances can having a broad product 4 A. Well, both. I knew that it was a responsibility offering be a good thing, and in what that I had. I was tasked with addressing some circumstances can it be a bad thing? 6 problems that we had, and I wanted to learn as 6 A. Well, it makes sense for your customers it's a 7 much as I could about the insurance industry and 7 good thing, and if you are just compiling a bunch 8 how it worked. 8 of businesses together that there aren't We owned some assets that we had insured. 9 interrelationships with and that you can't make 10 and we had some projects that were insured and 10 work together better than they would be 11 that we had to get insured, and it was my job and 11 independently, then it's probably not so good. 12 so I wanted to learn as much as I could about it, 12 O. That's pretty true across all industries; wouldn't 13 and that was a great opportunity that was 13 you agree? 14 14 A. I think so. presented to me. 15 Q. And this is while you were working at? 15 Q. Okay. Scope and type of distribution system. 16 A. Wartsila, W-A-R-T-S-I-L-A. 16 That's our next factor that's listed in your 17 Q. Okay, and you mentioned you were tasked with 17 report. Is it your opinion that Federal's 18 addressing some problems that we had. What were 18 revenues are attributable to the scope and type of 19 those problems specifically? 19 distribution system that Federal has? 20 A. We spent a lot of money on insurance for projects 20 A. Probably. I would need to know more. I would say 21 21 that were underway as well as -- this was when I mavbe. 22 worked for -- I was the -- my job title was 22 Q. And customer service default; do you have an 23 23 managing director of I think finance or treasury opinion as to whether Federal's revenues are 24 control and administration for what was our --24 attributable to customer service quality? 25 basically our investment fund, and we were 25 A. I think it seems plausible to me, but I would have Page 67 Page 69 1 to say maybe there too. Because I would need to 1 spending a lot of money on insurance, and the 2 2 program -- we didn't really have a well define that a little more specifically. 3 thought-out strategy. We had just accumulated a 3 Q. And use of technology; do you have an opinion whether Federal's revenues are attributable to bunch of assets, and there was an opportunity to improve what we were doing, and it was my job. 5 Federal's use of technology? 6 A. Like all of its technology, generally, maybe. I'd 6 Q. Did you come away from that week at Lloyd's of 7 have to know more specifics. I mean, certainly London with any conclusions? 8 the proposition, as I said earlier, is -- is 8 A. Probably. 9 9 Q. Do you remember what they were? plausible. That's one of the things -- one of the 10 things that collectively would relate to revenues, 10 A. Not really. It was more, you know, sometimes when 11 11 you learn, you learn specific facts and you but if we're going to get more granular, then I 12 memorize some things just like in school, and 12 need to know more about the specific aspects that 13 13 those things tend to disappear, right, but the you're talking about. 14 things, the principles that you learn as opposed 14 Q. In your report, Paragraph 35, you have some 15 15 sentences that are cited to Mr. McCarter. One of to things memorialization the principles tend to 16 them is that Blaze Advisor is an agnostic business 16 stick with you, and those principles stuck with 17 solution, and another is that Blaze Advisor is 17 18 Q. Am I hearing you right that one of the principles 18 similar to a blank Excel worksheet. 19 you took away from that was having a broad product 19 Is your support for those opinions -- your 20 20 offering was a good thing for an insurance support for your opinions is your conversation 21 with Mr. McCarter; correct? 21 company? 22 A. Sort of. I mean, that's what I listed in 22 A. No. 23 Paragraph 35, but there's other things that 23 Q. Do you have an opinion on that one way or the other? 24 support that -- those statements as well. 25 25 A. I do. For example, Federal's marketing

And did did Mr. McCarter tell you that, or are 19 you just relying on your own business experience? 20 A. I think he gave me maybe a little more color. 21 This is not a transcript of my interview with him, 22 and I think that he provided some further context	4	Is it your opinion in your report that FICO is only entitled to profits from the actual named defendants themselves?  MR. FLEMING: Objection. Calls for legal conclusion.  THE WITNESS: I'm trying to think of a way to answer it.  MS. KLIEBENSTEIN: Let me ask this question again.  THE WITNESS: Okay.  MS. KLIEBENSTEIN: If I could.  THE WITNESS: Sure.  BY MS. KLIEBENSTEIN:  Is it your opinion in your report that FICO may only attempt to disgorge the profits from the actual named defendants themselves?  MR. FLEMING: Same objection. Calls for

	7. 74		D 76
1	Page 74 objection that's being made, but frankly, I have	1	Page 76 hasn't done his job, and then third, I say here
2	really viewed that all along as being a legal	2	again, from a financial perspective, I'm making it
3	issue. I was surprised that Mr. Zoltowski was so	3	clear that this is just from a financial
4	willing to offer opinions about that issue. They	4	perspective, and I'm not offering a legal opinion,
5	don't seem appropriate to me.	5	but certainly from a financial perspective, he has
6	BY MS. KLIEBENSTEIN:	6	no basis to to sweep all this other stuff in
	Your report states that you don't believe Mr.	7	because it's not tied to the evidence.
8	Zoltowski has proven all the entities in his	8	I think there's a word that's missing here,
9	report were, quote-unquote, one; is that right?	9	Mr. Zoltowski's claims are not tied to the
	. Where? Where are you?	10	evidence and would result in a windfall to FICO.
	. I'm at 168. So the very last sentence on the Page	11	So that's sort of giving you some context
12	51 starts with, "These are ordinary business	12	for this and maybe some further understanding as
13	relationships, and Mr. Zoltowski has provided no	13	to how I'm using certain terms in my report.
14	financial basis for effectively transforming these	1	Q. So no and it's that financial basis that I
15		15	don't understand. So I heard you say there's no
16	separate entities into one for the purposes of a damages assessment."	16	basis financially for combining this stuff
	. Correct. I said that.	17	together.
	. Do you have an opinion on what what would need	18	What would provide a basis financially to
19	to be shown in your mind to prove a financial	19	to quote your words, combine this stuff
20	basis for transforming these separate entities	20	together? Do that make sense?
21	into one?	21	MR. FLEMING: Object to the extent it calls
	. Well, I think these let's look at these three	22	for a legal conclusion.
22 A	sentences, and I'll give you a little more insight	23	THE WITNESS: No it doesn't make sense.
24	into why I chose the words that I did.	24	Can you ask that again?
25	So the sentence that starts, "These are	25	MS. KLIEBENSTEIN: Sure.

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Page 75 ordinary business relationships, and Mr. Zoltowski has provided no financial basis," and it goes on, no financial basis is I'm saying, look, this is a legal issues, but to the extent Mr. Zoltowski is allowed to talk about this type of stuff financially, there's no basis for him combining this stuff together; right? That's what I'm trying to make clear there.  The next sentence starts with, "It is my understanding that," well, that's I've done this throughout my report, and it's pretty standard for a financial expert, a damages expert to write this language, to use this language in two instances. One, where they are making assumptions about technology, and two, where they are making assumptions about the law. That's a statement that signals I think very clearly that, hey, it's a legal issue, I can just tell you what my understanding is, but I'm not a lawyer, I'm not offering any legal opinions.  So and then I go on. I say, "He has no financial basis," and the context of this as it's	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Page 77 BY MS. KLIEBENSTEIN: Q. Not asking for a legal conclusion, not asking you to opine on the law. I'm focusing on your use of the phrase financial basis, that you don't correct me if I'm wrong, you don't see a financial basis in Mr. Zoltowski's report to combine the revenues from these different entities; is that am I getting that right?  MR. FLEMING: Same objection.  THE WITNESS: Well, setting aside the fact that this is a legal issue, he hasn't, like, financially or economically shown that all this stuff is combined. That's basically one and the same. He hasn't shown that at all. I mean, he hasn't even come close. Totally, totally missed the mark frankly, and with all due respect.  BY MS. KLIEBENSTEIN: Q. And I'm asking how would you go about it if you were asked to assess whether financially or economically these entities their revenues can be combined. How would you go about that assessment?
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Page 75 ordinary business relationships, and Mr. Zoltowski has provided no financial basis," and it goes on, no financial basis is I'm saying, look, this is a legal issues, but to the extent Mr. Zoltowski is allowed to talk about this type of stuff financially, there's no basis for him combining this stuff together; right? That's what I'm trying to make clear there.  The next sentence starts with, "It is my understanding that," well, that's I've done this throughout my report, and it's pretty standard for a financial expert, a damages expert to write this language, to use this language in two instances. So when you mentioned you would look at it  13 economically, I'm not an economist, what does that  14 what does that phrase mean? What does it  15 entail; looking at something economically?  16 A. I think you need to look at it holistically and  17 combining all the the disciplines within  18 within the business field, not just accounting.	Page 81  1 Q. Infection systems being? Give me an example.  2 A. Well, how the business is set up to process things  3 on an automated basis. How payroll is done for  4 example is something that can be automated.  5 Q. So not just so it's broader than when you  6 say information systems, to me my mind goes to the  7 applications at issue here. You're talking about  8 broader information  9 A. There's only one type of computer application  10 there's all kind of computer applications that are  11 used in business, like, when I go with my with  12 my son who is visiting colleges now, there's  13 departments in the college of business that are,  14 like, have followed the names that I just gave  15 you. There's organizational behavior department,  16 there's a information systems department, there's  17 a finance department, an economics department,  18 accounting department.
Page 79  1 have and how I would go at solving the problem.  2 Because ultimately this is a legal question, and  3 it's a question that, you know, a lot of courts  4 say it's only their province to solve it. A lot  5 of judges are, like, you know what, I'll I'll  6 just deal with that issue, I don't need expert  7 opinion, and I think that, frankly, Mr. Zoltowski  8 should have thought about that too, and I can only  9 tell you, since you're asking me under oath, how I  10 would go about thinking about this problem.  11 That's what you just asked me; right?  12 Q. So when you mentioned you would look at it  13 economically, I'm not an economist, what does that  14 what does that phrase mean? What does it  15 entail; looking at something economically?  16 A. I think you need to look at it holistically and  17 combining all the the disciplines within  18 within the business field, not just accounting.  19 That's what I mean by economically.	Page 81  1 Q. Infection systems being? Give me an example.  2 A. Well, how the business is set up to process things  3 on an automated basis. How payroll is done for  4 example is something that can be automated.  5 Q. So not just so it's broader than when you  6 say information systems, to me my mind goes to the  7 applications at issue here. You're talking about  8 broader information  9 A. There's only one type of computer application  10 there's all kind of computer applications that are  11 used in business, like, when I go with my with  12 my son who is visiting colleges now, there's  13 departments in the college of business that are,  14 like, have followed the names that I just gave  15 you. There's organizational behavior department,  16 there's a information systems department, there's  17 a finance department, an economics department,  18 accounting department.  19 Q. Okay.
Page 79  1 have and how I would go at solving the problem.  2 Because ultimately this is a legal question, and  3 it's a question that, you know, a lot of courts  4 say it's only their province to solve it. A lot  5 of judges are, like, you know what, I'll I'll  6 just deal with that issue, I don't need expert  7 opinion, and I think that, frankly, Mr. Zoltowski  8 should have thought about that too, and I can only  9 tell you, since you're asking me under oath, how I  10 would go about thinking about this problem.  11 That's what you just asked me; right?  12 Q. So when you mentioned you would look at it  13 economically, I'm not an economist, what does that  14 what does that phrase mean? What does it  15 entail; looking at something economically?  16 A. I think you need to look at it holistically and  17 combining all the the disciplines within  18 within the business field, not just accounting.  19 That's what I mean by economically.  You can't just look at it through the lens	Page 81  1 Q. Infection systems being? Give me an example.  2 A. Well, how the business is set up to process things  3 on an automated basis. How payroll is done for  4 example is something that can be automated.  5 Q. So not just so it's broader than when you  6 say information systems, to me my mind goes to the  7 applications at issue here. You're talking about  8 broader information  9 A. There's only one type of computer application  10 there's all kind of computer applications that are  11 used in business, like, when I go with my with  12 my son who is visiting colleges now, there's  13 departments in the college of business that are,  14 like, have followed the names that I just gave  15 you. There's organizational behavior department,  16 there's a information systems department, there's  17 a finance department, an economics department,  18 accounting department.  19 Q. Okay.  MR. FLEMING: We've been going for an hour.
Page 79  1 have and how I would go at solving the problem.  2 Because ultimately this is a legal question, and  3 it's a question that, you know, a lot of courts  4 say it's only their province to solve it. A lot  5 of judges are, like, you know what, I'll I'll  6 just deal with that issue, I don't need expert  7 opinion, and I think that, frankly, Mr. Zoltowski  8 should have thought about that too, and I can only  9 tell you, since you're asking me under oath, how I  10 would go about thinking about this problem.  11 That's what you just asked me; right?  12 Q. So when you mentioned you would look at it  13 economically, I'm not an economist, what does that  14 what does that phrase mean? What does it  15 entail; looking at something economically?  16 A. I think you need to look at it holistically and  17 combining all the the disciplines within  18 within the business field, not just accounting.  19 That's what I mean by economically.  You can't just look at it through the lens  21 of that an accountant would because that's	Page 81  1 Q. Infection systems being? Give me an example.  2 A. Well, how the business is set up to process things  3 on an automated basis. How payroll is done for  4 example is something that can be automated.  5 Q. So not just so it's broader than when you  6 say information systems, to me my mind goes to the  7 applications at issue here. You're talking about  8 broader information  9 A. There's only one type of computer application  10 there's all kind of computer applications that are  11 used in business, like, when I go with my with  12 my son who is visiting colleges now, there's  13 departments in the college of business that are,  14 like, have followed the names that I just gave  15 you. There's organizational behavior department,  16 there's a information systems department, there's  17 a finance department, an economics department,  18 accounting department.  19 Q. Okay.  MR. FLEMING: We've been going for an hour.  20 MR. FLEMING: We've been going for an hour.
Page 79  1 have and how I would go at solving the problem.  2 Because ultimately this is a legal question, and  3 it's a question that, you know, a lot of courts  4 say it's only their province to solve it. A lot  5 of judges are, like, you know what, I'll I'll  6 just deal with that issue, I don't need expert  7 opinion, and I think that, frankly, Mr. Zoltowski  8 should have thought about that too, and I can only  9 tell you, since you're asking me under oath, how I  10 would go about thinking about this problem.  11 That's what you just asked me; right?  12 Q. So when you mentioned you would look at it  13 economically, I'm not an economist, what does that  14 what does that phrase mean? What does it  15 entail; looking at something economically?  16 A. I think you need to look at it holistically and  17 combining all the the disciplines within  18 within the business field, not just accounting.  19 That's what I mean by economically.  20 You can't just look at it through the lens  21 of that an accountant would because that's  22 going to give you an incomplete view of the	Page 81  1 Q. Infection systems being? Give me an example.  2 A. Well, how the business is set up to process things  3 on an automated basis. How payroll is done for  4 example is something that can be automated.  5 Q. So not just so it's broader than when you  6 say information systems, to me my mind goes to the  7 applications at issue here. You're talking about  8 broader information  9 A. There's only one type of computer application  10 there's all kind of computer applications that are  11 used in business, like, when I go with my with  12 my son who is visiting colleges now, there's  13 departments in the college of business that are,  14 like, have followed the names that I just gave  15 you. There's organizational behavior department,  16 there's a information systems department, there's  17 a finance department, an economics department,  18 accounting department.  19 Q. Okay.  20 MR. FLEMING: We've been going for an hour.  21 Do you mind if we take a short break?  22 THE WITNESS: I could use a break.
Page 79  1 have and how I would go at solving the problem.  2 Because ultimately this is a legal question, and  3 it's a question that, you know, a lot of courts  4 say it's only their province to solve it. I think you need to look at it holistically and  17 combining all the the disciplines within  18 within the business field, not just accounting.  19 That's what I mean by economically.  20 You can't just look at it through the lens  21 of that an accountant would because that's  22 going to give you an incomplete view of the	Page 81  1 Q. Infection systems being? Give me an example.  2 A. Well, how the business is set up to process things  3 on an automated basis. How payroll is done for  4 example is something that can be automated.  5 Q. So not just so it's broader than when you  6 say information systems, to me my mind goes to the  7 applications at issue here. You're talking about  8 broader information  9 A. There's only one type of computer application  10 there's all kind of computer applications that are  11 used in business, like, when I go with my with  12 my son who is visiting colleges now, there's  13 departments in the college of business that are,  14 like, have followed the names that I just gave  15 you. There's organizational behavior department,  16 there's a information systems department, there's  17 a finance department, an economics department,  18 accounting department.  19 Q. Okay.  20 MR. FLEMING: We've been going for an hour.  21 Do you mind if we take a short break?  22 THE WITNESS: I could use a break.

Page 82	Page 84
1 MS. KLIEBENSTEIN: Can we do just a short	1 to deduct the costs it incurs to generate
2 one, and then we'll we'll go for about another	2 revenue." Was it your assumption that Federal was
3 45 minutes and break for lunch.	3 entitled to deduct all of its costs it incurs to
4 MR. FLEMING: Sure.	4 generate revenue, or just a portion?
5 MS. KLIEBENSTEIN: Does that work?	5 A. I think that the appropriate deductions are of
6 THE VIDEOGRAPHER: We're going off the	6 costs that are required to generate whatever
7 record. The time is 11:38 a.m.	7 revenues are identified.
8 (Whereupon a short break was taken from	8 Q. And so when you use the phrase generate revenue in
9 a.m. to 11:48 a.m.)	9 Paragraph 193, you mean generate the revenues that
10 THE VIDEOGRAPHER: We are back on the	10 generate which revenues; all of the Federal
11 record. This marks the beginning of Media 3 in	11 revenues, or just the ones that have been put
12 the deposition of Chris Bakewell. The time now is	12 forth in Mr. Zoltowski's report?
13 11:49 a.m.	13 A. I don't really mean either of those things.
MR. FLEMING: Say Heather, at the beginning	14 Q. What do you mean?
15 of the deposition, I don't know if you mentioned	15 A. I mean that those are costs that have a
that Jim Woodward, in-house counsel, is present,	16 relationship with an economic tie or a financial
but he is, and I'm just making a note of that for	17 tie to whatever it is the revenue stream that is
18 the record.	being analyzed, and there's issues with the
19 MS. KLIEBENSTEIN: Thank you.	19 revenue stream that I talk about prior to this at
20 MR. FLEMING: Yup.	some length, and there needs to be a connection
21 BY MS. KLIEBENSTEIN:	between the costs and the revenues, and also in
22 Q. Can we go to the chart on Paragraph 180.	22 part I think that I see this in some court
23 A. Okay.	opinions, and it can be for somebody who is
24 Q. I'm trying to figure out where the where the	24 speaking maybe a little more freely about
25 numbers from this table come from. Can you can	25 principles as opposed to, like, using words as
Page 83	
1 you tell me the where those numbers come from	1 terms of art, I think that costs can also relate
2 in your report; certain schedule?	2 to apportionment. There's conceptually there
3 A. Let's see if I can find it quickly. I can make a 4 note to look for that over since we have a	3 can be revenues that are unrelated that need to be
	4 subtracted out that some people see like cost 5 deductions.
<ul> <li>5 break coming up. I think that's that's a fair</li> <li>6 question that's not cited to. Rather than sit</li> </ul>	<ul><li>5 deductions.</li><li>6 Q. Understood, but in Paragraph 193, you're just</li></ul>
6 question that's not cited to. Rather than sit 7 here, I can't find it immediately, but I know it's	7 talking about what a normal lay person would refer
8 somewhere. I'll find out and get back to you.	8 to as a cost and expense; correct?
9 Q. Okay. Generally what was your process when you	9 A. I think so. I think within the context of that
10 talking about copyright disgorgement and the gross	10 paragraph appearing in the middle of a a longer
written premiums that form the base of that award,	11 discussion.
what was your process in identifying the gross	12 Q. For the costs and and you did some work to
written premiums that are at issue in this case?	deduct costs from the revenue stream identified by
14 A. So there was let's see if we're talking about	14 Mr. Zoltowski; correct?
15 the same thing. So there were discovery requests,	15 A. Some.
and there were responses that occurred over a	16 Q. Some, and when you were doing that work, did you
period of time, and then there were refinements	take into consideration whether any of the costs
that were made to that information and then	18 you were working with were fixed available,
19 spreadsheet that was produced, and generally	19 semi-variable?
20 speaking, my my process involved understanding	20 A. Of course.
21 that information, the context of the answers, what	21 Q. And how did in what way? How did that impact
22 happened in the response, and how Mr. Zoltowski	22 your analysis?
23 characterized it. Trying to combine all that	23 A. So I wanted to understand how the costs behaved,
	23 A. So I wanted to understand how the costs behaved, 24 and I described that in above that paragraph 25 and below that paragraph and looked at specific

	Page 86			Page 88
1 c	eategories of costs, and I described those, like,	1	Α.	. I think when you're identifying such a broad range
1	went first, second, third. I describe what the	2		of revenues, when you're identifying all the
1	inancial and economic relationship is to the	3		revenues, you need to subtract all the costs.
1	evenues that were identified, and then I think	4		That's one way to respond to your question. So
	overriding all this, I see this issue come up,	5		all the costs apply that I've identified in my
1	when people overreach in terms of revenues, they	6		report.
1	niss a basic principle, or when there's a wide	7		I think that Mr. Zoltowski identifies a
1	variety of revenues a wide range of revenues	8		narrower stream of revenues, or if in some way the
1	hat are identified.	9		the fact finder has a narrower stream of
10	If you're identifying a wide range of	10		revenues than what Mr. Zoltowski identifies, then
	evenues, you're going to need a wide range of	11		we can think about each of these categories that
	costs to support those revenues. It's not	12		that I've described in my report and whether or
	easonable to think that those those wide range	13		not they behave in a way that's linked to the
	of revenues can just exist without costs to	14		revenue stream.
	support them, and I didn't see that in Mr.	15	Ο.	. Is direct another way to refer to a fixed cost?
	Zoltowski's report at all, but that's a principle			. No.
	hat I think applies to everything that I'm	17		
	lescribing here.		_	. Yes.
19	I discuss direct variable costs, for			. How are they different?
	example, in Paragraph 197. I use that same			They are in some ways, they are the opposite.
	erminology in in that paragraph.	21		
	You mentioned earlier you wanted you wanted to		•	. Well, sometimes fixed costs don't have any
1	inderstand how costs behave. Why, when you were	23		relationship to to anything, they are just
	loing your analysis, did you want to understand	24		costs, and in that case, they wouldn't be direct,
	now costs behave?	25		but that's when they would be the opposite, but at

Page 90	Page 92
1 Q. We'll get to that further when I have examples in	1 written premium dollars are reported in let's
2 front of us. Can you define for me the phrase	2 focus on Interrogatory 17, that one.
3 stream of revenue?	3 A. Okay.
4 MR. FLEMING: I take it you're asking in	4 Q. Do you have an understanding of what revenue
5 connection with a paragraph in his report as	5 stream is reported in response to Interrogatory
6 opposed to in general.	6 Number 17?
7 MS. KLIEBENSTEIN: Well, he just brought up	7 A. I do.
8 that phrase in his testimony about I think it	8 Q. What is that?
9 was in the context of if the court identifies a	9 A. Let me find it here.
10 certain stream of revenue, and I just wanted to	10 Q. Go to Page 10. If that helps.
11 make sure I knew what that phrase meant.	11 A. Thank you. I think the answer does a pretty
THE WITNESS: It would be an amount and the	decent job of explaining this, especially the
13 nature of those revenues. That's what I was	13 objections.
14 referring to.	The issue here is that these are businesses
15 BY MS. KLIEBENSTEIN:	that have revenue streams that aren't driven by
16 Q. An amount an amount and the nature of those	the Blaze Advisor software, and so Federal doesn't
17 revenues. I don't I don't understand that.	17 really keep its records in the way that's
18 Can you try me again?	18 requested under Interrogatory 17, and the
19 MR. FLEMING: Try you again in	19 information that's provided is kind of a best
20 BY MS. KLIEBENSTEIN:	20 effort to respond to this request, which doesn't
21 Q. Try to answer that again in a different way	21 really match ordinary course recordkeeping, and
22 that	22 that's reflected in the objections and provides
23 A. I think it's pretty clear, but let's say that you	23 context for some of these numbers, really all of
have a business where you're cutting lawns and	24 the numbers.
25 you're trimming trees, and it's a yard service	25 Q. The interrogatory asked for gross written premiums
Page 91	Page 93
business, and one stream of revenues might come	1 for insurance policies in connection with which
2 from trimming trees, and the other would be from	2 the Blaze Advisor software was used; correct?
3 cutting the lawns, and you can call each of those 4 streams of revenues.	<ul><li>3 A. Sort of. Not entirely.</li><li>4 Q. Not sure?</li></ul>
5 Q. Okay.	5 A. That's not what I said at all.
6 (Whereupon material was marked for	6 Q. Okay.
7 identification as Exhibit 523.)	7 A. I said sort of, not entirely. I was saying that
8 BY MS. KLIEBENSTEIN:	8 your question wasn't accurate. I wasn't saying
9 Q. I'm handing you what's been marked as Exhibit 523.	9 that I had any lack of certainty on my answer.
This is a verified copy of Federal's responses to	10 Q. So with regard to the response in Interrogatory
11 interrogatory numbers 16 and 17. Have you seen	Number 17, for the gross written premiums that are
this document before?	listed, do you know one way or the other whether
13 A. I think so.	those gross written premiums run through
14 Q. And is it your understanding that Mr. Zoltowski	applications in connection with which Blaze
used his baseline for the gross written premiums	15 Advisor software was used?
16 identified in his report Federal's responses to	16 A. What do you mean run through applications? You
interrogatories, including the answers in Exhibit	lost me where you're starting to use that
18 524 23?	18 terminology. What what are you referring to,
19 A. Well, he can speak for himself, but I think	19 or where are you getting those words?
20 generally speaking that's true. I'd have to	20 Q. Looking at you did not use the gross written
21 double I wish I had that type of memory where I	21 premium in response to Interrogatory Number 17 to
22 could tell you this is what he used specifically,	22 calculate gross written premium figures in your
but generally, he used a document like this.	23 report; is that right?
1	

Page 94	Page 96
1 that is identified in the from the context of	1 Number 17 includes policies and do not touch Blaze
2 this.	2 Advisor in any way?
3 So I think this all can be traced to the	3 A. I think that that's a possibility what driven
4 same source, but there's additional analysis that	4 by the difficulty of answering this question where
5 needs to be done to this information. So I think	5 Blaze Advisor doesn't generate revenue and there's
6 the answer is kind of a yes and no.	6 not revenues kept that are attributable to Blaze
7 Q. Looking at Exhibit 6, Exhibit 6 in your report.	7 Advisor. So what Federal tried to do is is
8 A. Okay.	8 provide information that is if it's going to
9 Q. I see a total of 14 billion under the select gross	9 err in its estimates err on the side of being
written premiums. Do you see that as well?	overinclusive, and so it seems to me that there's
11 A. No. Where are you?	going to be instances that fit the description you
12 Q. At the top of Exhibit 6.	just provided by definition of the way that it
13 A. I see that number.	13 responded.
14 Q. And from what document did that number come from?	14 Q. Do you know for a fact that there are policies
15 A. Blaze IM	15 included in the response to Interrogatory 17 that
16 (Whereupon the reporter asked the witness	do not touch Blaze Advisor in any way?
17 to repeat the answer.)	17 A. In any way at all?
THE WITNESS: It's a document called Blaze	18 Q. Correct.
19 IM Abstract-Final. It's not a document well, I	19 A. Depends how you define that.
20 guess it's a document. Sort of. It's a file.	20 Q. Let's take CSI Express. Let me ask it a different
21 BY MS. KLIEBENSTEIN:	21 way. The interrogatory responses only list policy
22 Q. So that number did not come from the response to	22 counts for policies that run through applications
23 Interrogatory Number 17?	23 that contain Blaze Advisor; correct?
24 A. Yes and no. It came from the same source, but	24 A. Where is that?
25 there's additional this is overinclusive by	25 Q. Well, the table at the top on Page 11 is
Page 95	Page 97
definition, and the objections and the context of	1 DecisionPoint; right?
2 this I think it makes it clear that it's	2 A. Yes.
3 overinclusive. Mr. Zoltowski should have 4 understood that.	3 Q. And that's an application that contains Blaze
5 Q. In what way is the response to Interrogatory	4 Advisor; correct? 5 A. Yes.
6 Number 17 overinclusive?	
o ivamoer i / overmetasive:	6.0 CSI Everess is right below that along with ARP and
7 A Recause it includes what Federal is trying to do	6 Q. CSI Express is right below that along with ARP and
7 A. Because it includes what Federal is trying to do	7 profitability indicator; correct?
8 is respond specifically to this question in I	7 profitability indicator; correct? 8 A. Yes.
8 is respond specifically to this question in I 9 think maybe an overinclusive way. So it's at	<ul> <li>7 profitability indicator; correct?</li> <li>8 A. Yes.</li> <li>9 Q. And those use Blaze Advisor; correct?</li> </ul>
8 is respond specifically to this question in I 9 think maybe an overinclusive way. So it's at 10 least it doesn't want to be accused of making	<ul> <li>7 profitability indicator; correct?</li> <li>8 A. Yes.</li> <li>9 Q. And those use Blaze Advisor; correct?</li> <li>10 A. As part of that. They have Blaze Advisor in them.</li> </ul>
8 is respond specifically to this question in I 9 think maybe an overinclusive way. So it's at 10 least it doesn't want to be accused of making	<ul> <li>7 profitability indicator; correct?</li> <li>8 A. Yes.</li> <li>9 Q. And those use Blaze Advisor; correct?</li> </ul>
8 is respond specifically to this question in I 9 think maybe an overinclusive way. So it's at 10 least it doesn't want to be accused of making 11 judgments or reducing the number arbitrarily, and	7 profitability indicator; correct? 8 A. Yes. 9 Q. And those use Blaze Advisor; correct? 10 A. As part of that. They have Blaze Advisor in them. 11 Q. Yes. I'll agree with that. So those policies
8 is respond specifically to this question in I 9 think maybe an overinclusive way. So it's at 10 least it doesn't want to be accused of making 11 judgments or reducing the number arbitrarily, and 12 so what Federal is saying in this answer is that,	7 profitability indicator; correct? 8 A. Yes. 9 Q. And those use Blaze Advisor; correct? 10 A. As part of that. They have Blaze Advisor in them. 11 Q. Yes. I'll agree with that. So those policies 12 that run through DecisionPoint and CSI Express I
8 is respond specifically to this question in I 9 think maybe an overinclusive way. So it's at 10 least it doesn't want to be accused of making 11 judgments or reducing the number arbitrarily, and 12 so what Federal is saying in this answer is that, 13 look, we don't keep information about Blaze	7 profitability indicator; correct? 8 A. Yes. 9 Q. And those use Blaze Advisor; correct? 10 A. As part of that. They have Blaze Advisor in them. 11 Q. Yes. I'll agree with that. So those policies 12 that run through DecisionPoint and CSI Express I 13 will call those policies as touching Blaze
8 is respond specifically to this question in I 9 think maybe an overinclusive way. So it's at 10 least it doesn't want to be accused of making 11 judgments or reducing the number arbitrarily, and 12 so what Federal is saying in this answer is that, 13 look, we don't keep information about Blaze 14 Advisor having gross written premiums because	7 profitability indicator; correct? 8 A. Yes. 9 Q. And those use Blaze Advisor; correct? 10 A. As part of that. They have Blaze Advisor in them. 11 Q. Yes. I'll agree with that. So those policies 12 that run through DecisionPoint and CSI Express I 13 will call those policies as touching Blaze 14 Advisor.
8 is respond specifically to this question in I 9 think maybe an overinclusive way. So it's at 10 least it doesn't want to be accused of making 11 judgments or reducing the number arbitrarily, and 12 so what Federal is saying in this answer is that, 13 look, we don't keep information about Blaze 14 Advisor having gross written premiums because 15 Blaze Advisor doesn't generate gross written 16 premiums, but what we're going to do is give you 17 the information of companies that used Blaze	7 profitability indicator; correct? 8 A. Yes. 9 Q. And those use Blaze Advisor; correct? 10 A. As part of that. They have Blaze Advisor in them. 11 Q. Yes. I'll agree with that. So those policies 12 that run through DecisionPoint and CSI Express I 13 will call those policies as touching Blaze 14 Advisor. 15 A. I wouldn't.
is respond specifically to this question in I think maybe an overinclusive way. So it's at least it doesn't want to be accused of making judgments or reducing the number arbitrarily, and so what Federal is saying in this answer is that, look, we don't keep information about Blaze Advisor having gross written premiums because Blaze Advisor doesn't generate gross written premiums, but what we're going to do is give you the information of companies that used Blaze Advisor, and what can happen here is that and	7 profitability indicator; correct? 8 A. Yes. 9 Q. And those use Blaze Advisor; correct? 10 A. As part of that. They have Blaze Advisor in them. 11 Q. Yes. I'll agree with that. So those policies 12 that run through DecisionPoint and CSI Express I 13 will call those policies as touching Blaze 14 Advisor. 15 A. I wouldn't. 16 Q. Why not? 17 A. Because they don't necessarily touch it. You have 18 to look at the business flow and the business
s is respond specifically to this question in I think maybe an overinclusive way. So it's at least it doesn't want to be accused of making judgments or reducing the number arbitrarily, and so what Federal is saying in this answer is that, look, we don't keep information about Blaze Advisor having gross written premiums because Blaze Advisor doesn't generate gross written premiums, but what we're going to do is give you the information of companies that used Blaze Advisor, and what can happen here is that and it does happen here and why you need to go to the	7 profitability indicator; correct? 8 A. Yes. 9 Q. And those use Blaze Advisor; correct? 10 A. As part of that. They have Blaze Advisor in them. 11 Q. Yes. I'll agree with that. So those policies 12 that run through DecisionPoint and CSI Express I 13 will call those policies as touching Blaze 14 Advisor. 15 A. I wouldn't. 16 Q. Why not? 17 A. Because they don't necessarily touch it. You have 18 to look at the business flow and the business 19 process and see whether they actually do it, and

You have 18 to look at the business flow and the business 19 process and see whether they actually do it, and 20 the business process there's some ORG charts or 21 business process charts that show how it's 22 relatively complicated, and there may be instances

Page 98 Page 100 1 every single instance and see whether or not it 1 Q. Do you have any specific examples of any of gross did or had to according to the business process 2 written premiums listed on Interrogatory Number 17 3 the flow charts, and my recollection is is that that run through the applications listed but do 4 4 those flow charts are relatively complicated, and not touch Blaze Advisor? 5 if you trace them through, sort of like you trace 5 A. I don't know that I can give you an example. I'd 6 through a -- in -- in, like, a maze, sometimes you have to talk to a business person. 7 7 Q. And there were other similar -- there were other may hit Blaze Advisor, and sometimes you may not, 8 and my understanding from the people who pulled interrogatory responses, this one is in the US, this information together is that it wouldn't there's others for the Canada, Australia, and the 10 really be possible to go through and trace through 10 EU, UK. Do you understand that as well? 11 every single written policy that went through the 11 A. Yes. 12 business process that I'm discussing, and so the 12 Q. And is your critique of those interrogatory 13 assumption was made that they'll -- they included responses the same? 14 instances that could in concept touch Blaze 14 A. I'm not critiquing the interrogatory responses, 15 15 Advisor but don't necessarily do it. and I want to say something here for the record 16 16 So they wanted to be -- when they pulled that I think that what Mr. Zoltowski is saying and 17 this information, Federal wanted to be responsive, 17 accusing Federal of, frankly, he should retract, 18 and to the extent it produced information be 18 and to the extent he's accusing me of doing 19 overinclusive as opposed to under-inclusive. 19 something, he should retract those statements. He 20 20 Q. So if I'm understanding you right, there could be should go back and look at what he wrote and --21 21 a policy that goes through DecisionPoint, for and consider the allegations he's making. They 22 example, the application, and it goes through a 22 are very serious. 23 23 part of DecisionPoint that doesn't touch Blaze I think that what's happening here is that 24 24 Advisor? a company, Federal, is trying to be responsive to 25 25 A. I'd have to look at DecisionPoint and the process, requests for information that doesn't exist, and Page 99 Page 101 1 the flow chart that I talked about and try to 1 it should be considered in that context, and so to 2 2 figure that out on my own and see if I could. try to accuse me, and I don't know if you did this 3 I would -- I think a more efficient way to 3 on purpose or not with your last question of doing 4 4 get an answer to that question is go directly to something wrong or misleading, I -- I take 5 5 somebody from the company. exception to. 6 So without saying that that -- if we're 6 Q. No. I'm just trying to understand your position 7 7 using that as a -- as an example, as opposed to as to why the interrogatory responses are not --8 8 something that's, like, absolutely true, I'd use shouldn't be the starting point for gross written that as an example to describe the type of premium. 10 critical thinking that you'd have to go through in 10 A. They can be the starting point, but they need to understanding the data and how it was compiled. be considered in their context. They shouldn't be 11 11 12 Q. So taking Interrogatory Number 17, this response 12 taken out of context or be considered myopically. 13 in particular, you believe the data is 13 There's a whole back and forth and there's context 14 14 overinclusive; is that right? for this interrogatory and the response. There 15 A. Sort of. In the way that's described, I think 15 is. It's lengthy. it's -- it's clear that that's how it was 16 Q. I know it well. 16 17 compiled. So in one way, it's not. In one way, 17 A. It's lengthy. 18 it's responsive directly and therefore not 18 Q. Mr. Fleming and I lived that for a year. So I'm 19 19 overinclusive because it's described, the trying to do this efficiently without going 20 20 assumptions are described, but when it gets down through each of the interrogatories, but we can do 21 21 to trying to use it for the things that Mr. that if you would like. 22 22 So we've got Interrogatories 18, 19, and 20 Zoltowski tried to use it for, yes, it's 23 23 overinclusive. that ask for the same information but for 24 That's the issue that I describe in detail 24 different geographies. You're aware of that;

in my report.

I think based upon what I see here in 525 and the 4 interrogatory response there there is some
1 policy number. You sorted for the multiple same 2 policy number? 3 A. Maybe I said that, but I didn't mean to say it 4 exactly like that. There's instances there's 5 multiple instances where the same policy number	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of
1 policy number. You sorted for the multiple same 2 policy number? 3 A. Maybe I said that, but I didn't mean to say it 4 exactly like that. There's instances there's 5 multiple instances where the same policy number 6 would exist in a row. So we sorted by policy	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category.
1 policy number. You sorted for the multiple same 2 policy number? 3 A. Maybe I said that, but I didn't mean to say it 4 exactly like that. There's instances there's 5 multiple instances where the same policy number 6 would exist in a row. So we sorted by policy 7 number and identified instances where there's the	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding
1 policy number. You sorted for the multiple same 2 policy number? 3 A. Maybe I said that, but I didn't mean to say it 4 exactly like that. There's instances there's 5 multiple instances where the same policy number 6 would exist in a row. So we sorted by policy 7 number and identified instances where there's the 8 same policy number and where the amount would have	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which
1 policy number. You sorted for the multiple same 2 policy number? 3 A. Maybe I said that, but I didn't mean to say it 4 exactly like that. There's instances there's 5 multiple instances where the same policy number 6 would exist in a row. So we sorted by policy 7 number and identified instances where there's the 8 same policy number and where the amount would have 9 been included under the categories identified in	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category
1 policy number. You sorted for the multiple same 2 policy number? 3 A. Maybe I said that, but I didn't mean to say it 4 exactly like that. There's instances there's 5 multiple instances where the same policy number 6 would exist in a row. So we sorted by policy 7 number and identified instances where there's the 8 same policy number and where the amount would have 9 been included under the categories identified in 10 Mr. Zoltowski's report more than once and	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to?
1 policy number. You sorted for the multiple same 2 policy number? 3 A. Maybe I said that, but I didn't mean to say it 4 exactly like that. There's instances there's 5 multiple instances where the same policy number 6 would exist in a row. So we sorted by policy 7 number and identified instances where there's the 8 same policy number and where the amount would have 9 been included under the categories identified in 10 Mr. Zoltowski's report more than once and 11 corrected it so that it only well, corrected	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to? 11 A. The descriptions in Bakewell 525 and the
1 policy number. You sorted for the multiple same 2 policy number? 3 A. Maybe I said that, but I didn't mean to say it 4 exactly like that. There's instances there's 5 multiple instances where the same policy number 6 would exist in a row. So we sorted by policy 7 number and identified instances where there's the 8 same policy number and where the amount would have 9 been included under the categories identified in 10 Mr. Zoltowski's report more than once and 11 corrected it so that it only well, corrected 12 isn't the right word, studied it so that we only	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to? 11 A. The descriptions in Bakewell 525 and the 12 categories provided in the interrogatory response
1 policy number. You sorted for the multiple same 2 policy number? 3 A. Maybe I said that, but I didn't mean to say it 4 exactly like that. There's instances there's 5 multiple instances where the same policy number 6 would exist in a row. So we sorted by policy 7 number and identified instances where there's the 8 same policy number and where the amount would have 9 been included under the categories identified in 10 Mr. Zoltowski's report more than once and 11 corrected it so that it only well, corrected 12 isn't the right word, studied it so that we only 13 counted that same policy once to arrive at the	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to? 11 A. The descriptions in Bakewell 525 and the 12 categories provided in the interrogatory response 13 and done. Period. I wouldn't say and.
1 policy number. You sorted for the multiple same 2 policy number? 3 A. Maybe I said that, but I didn't mean to say it 4 exactly like that. There's instances there's 5 multiple instances where the same policy number 6 would exist in a row. So we sorted by policy 7 number and identified instances where there's the 8 same policy number and where the amount would have 9 been included under the categories identified in 10 Mr. Zoltowski's report more than once and 11 corrected it so that it only well, corrected 12 isn't the right word, studied it so that we only 13 counted that same policy once to arrive at the 14 correct result. Unlike Mr. Zoltowski. So the	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to? 11 A. The descriptions in Bakewell 525 and the 12 categories provided in the interrogatory response 13 and done. Period. I wouldn't say and. 14 Q. And what were those assumptions?
1 policy number. You sorted for the multiple same 2 policy number? 3 A. Maybe I said that, but I didn't mean to say it 4 exactly like that. There's instances there's 5 multiple instances where the same policy number 6 would exist in a row. So we sorted by policy 7 number and identified instances where there's the 8 same policy number and where the amount would have 9 been included under the categories identified in 10 Mr. Zoltowski's report more than once and 11 corrected it so that it only well, corrected 12 isn't the right word, studied it so that we only 13 counted that same policy once to arrive at the 14 correct result. Unlike Mr. Zoltowski. So the 15 correction is to what Mr. Zoltowski did.	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to? 11 A. The descriptions in Bakewell 525 and the 12 categories provided in the interrogatory response 13 and done. Period. I wouldn't say and. 14 Q. And what were those assumptions? 15 A. I'm just looking to see if we actually need to
1 policy number. You sorted for the multiple same 2 policy number? 3 A. Maybe I said that, but I didn't mean to say it 4 exactly like that. There's instances there's 5 multiple instances where the same policy number 6 would exist in a row. So we sorted by policy 7 number and identified instances where there's the 8 same policy number and where the amount would have 9 been included under the categories identified in 10 Mr. Zoltowski's report more than once and 11 corrected it so that it only well, corrected 12 isn't the right word, studied it so that we only 13 counted that same policy once to arrive at the 14 correct result. Unlike Mr. Zoltowski. So the 15 correction is to what Mr. Zoltowski did. 16 Q. And Mr. Zoltowski did not have access to the data	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to? 11 A. The descriptions in Bakewell 525 and the 12 categories provided in the interrogatory response 13 and done. Period. I wouldn't say and. 14 Q. And what were those assumptions? 15 A. I'm just looking to see if we actually need to 16 make those assumptions from the gross written
policy number. You sorted for the multiple same policy number?  A. Maybe I said that, but I didn't mean to say it exactly like that. There's instances there's multiple instances where the same policy number would exist in a row. So we sorted by policy number and identified instances where there's the same policy number and where the amount would have been included under the categories identified in Mr. Zoltowski's report more than once and corrected it so that it only well, corrected isn't the right word, studied it so that we only counted that same policy once to arrive at the correct result. Unlike Mr. Zoltowski. So the correction is to what Mr. Zoltowski did.  And Mr. Zoltowski did not have access to the data in Exhibit 524; correct?	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to? 11 A. The descriptions in Bakewell 525 and the 12 categories provided in the interrogatory response 13 and done. Period. I wouldn't say and. 14 Q. And what were those assumptions? 15 A. I'm just looking to see if we actually need to 16 make those assumptions from the gross written 17 premium information. I think we're just
policy number. You sorted for the multiple same policy number?  A. Maybe I said that, but I didn't mean to say it exactly like that. There's instances there's multiple instances where the same policy number would exist in a row. So we sorted by policy number and identified instances where there's the same policy number and where the amount would have been included under the categories identified in Mr. Zoltowski's report more than once and corrected it so that it only well, corrected isn't the right word, studied it so that we only counted that same policy once to arrive at the correct result. Unlike Mr. Zoltowski. So the correction is to what Mr. Zoltowski did.  Q. And Mr. Zoltowski did not have access to the data in Exhibit 524; correct?  A. I don't think that's true.	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to? 11 A. The descriptions in Bakewell 525 and the 12 categories provided in the interrogatory response 13 and done. Period. I wouldn't say and. 14 Q. And what were those assumptions? 15 A. I'm just looking to see if we actually need to 16 make those assumptions from the gross written 17 premium information. I think we're just 18 eliminating the multiple instances of the same
policy number? You sorted for the multiple same policy number?  A. Maybe I said that, but I didn't mean to say it exactly like that. There's instances there's multiple instances where the same policy number would exist in a row. So we sorted by policy number and identified instances where there's the same policy number and where the amount would have been included under the categories identified in Mr. Zoltowski's report more than once and corrected it so that it only well, corrected isn't the right word, studied it so that we only counted that same policy once to arrive at the correct result. Unlike Mr. Zoltowski. So the correction is to what Mr. Zoltowski did.  Q. And Mr. Zoltowski did not have access to the data in Exhibit 524; correct?  A. I don't think that's true.	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to? 11 A. The descriptions in Bakewell 525 and the 12 categories provided in the interrogatory response 13 and done. Period. I wouldn't say and. 14 Q. And what were those assumptions? 15 A. I'm just looking to see if we actually need to 16 make those assumptions from the gross written 17 premium information. I think we're just 18 eliminating the multiple instances of the same 19 policy occurring and eliminating double counting
policy number. You sorted for the multiple same policy number?  A. Maybe I said that, but I didn't mean to say it exactly like that. There's instances there's multiple instances where the same policy number would exist in a row. So we sorted by policy number and identified instances where there's the same policy number and where the amount would have been included under the categories identified in Mr. Zoltowski's report more than once and corrected it so that it only well, corrected isn't the right word, studied it so that we only counted that same policy once to arrive at the correct result. Unlike Mr. Zoltowski. So the correction is to what Mr. Zoltowski did.  Q. And Mr. Zoltowski did not have access to the data in Exhibit 524; correct?  A. I don't think that's true.  Q. I'll represent to you that Exhibit 524 was not produced during discovery.	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to? 11 A. The descriptions in Bakewell 525 and the 12 categories provided in the interrogatory response 13 and done. Period. I wouldn't say and. 14 Q. And what were those assumptions? 15 A. I'm just looking to see if we actually need to 16 make those assumptions from the gross written 17 premium information. I think we're just 18 eliminating the multiple instances of the same 19 policy occurring and eliminating double counting 20 in that way, and then we check it against business
policy number? You sorted for the multiple same policy number?  A. Maybe I said that, but I didn't mean to say it exactly like that. There's instances there's multiple instances where the same policy number would exist in a row. So we sorted by policy number and identified instances where there's the same policy number and where the amount would have been included under the categories identified in Mr. Zoltowski's report more than once and corrected it so that it only well, corrected isn't the right word, studied it so that we only counted that same policy once to arrive at the correct result. Unlike Mr. Zoltowski. So the correction is to what Mr. Zoltowski did.  Q. And Mr. Zoltowski did not have access to the data in Exhibit 524; correct?  A. I don't think that's true.  Q. I'll represent to you that Exhibit 524 was not produced during discovery.	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to? 11 A. The descriptions in Bakewell 525 and the 12 categories provided in the interrogatory response 13 and done. Period. I wouldn't say and. 14 Q. And what were those assumptions? 15 A. I'm just looking to see if we actually need to 16 make those assumptions from the gross written 17 premium information. I think we're just 18 eliminating the multiple instances of the same 19 policy occurring and eliminating double counting 20 in that way, and then we check it against business 21 segment income statements, as I describe in
policy number?  A. Maybe I said that, but I didn't mean to say it exactly like that. There's instances there's multiple instances where the same policy number would exist in a row. So we sorted by policy number and identified instances where there's the same policy number and where the amount would have been included under the categories identified in Mr. Zoltowski's report more than once and corrected it so that it only well, corrected isn't the right word, studied it so that we only counted that same policy once to arrive at the correct result. Unlike Mr. Zoltowski. So the correction is to what Mr. Zoltowski did.  Q. And Mr. Zoltowski did not have access to the data in Exhibit 524; correct?  A. I don't think that's true.  Q. I'll represent to you that Exhibit 524 was not produced during discovery.  A. He could have asked for it. My experience is that that would be a a customary thing to ask for	1 DecisionPoint, CSI Express, CUW, the applications 2 that are listed in Interrogatory Number 17? 3 A. I think based upon what I see here in 525 and the 4 interrogatory response there there is some 5 assumptions that were made regarding which of 6 these descriptions went into which category. 7 Q. When you say some assumptions were made regarding 8 which of these descriptions went into which 9 category, which descriptions and which category 10 are you referring to? 11 A. The descriptions in Bakewell 525 and the 12 categories provided in the interrogatory response 13 and done. Period. I wouldn't say and. 14 Q. And what were those assumptions? 15 A. I'm just looking to see if we actually need to 16 make those assumptions from the gross written 17 premium information. Page 115  the deposition of Chris Bakewell. The time now is  1:42 p.m.  BY MS. KLIEBENSTEIN:	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin?
Page 115  1 the deposition of Chris Bakewell. The time now is 2 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way.
Page 115  1 the deposition of Chris Bakewell. The time now is 2 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your 5 report.	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way. 5 Q. Essentially the what figures did you add and
Page 115  1 the deposition of Chris Bakewell. The time now is 2 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your 5 report.  6 A. Sure.	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way. 5 Q. Essentially the what figures did you add and 6 subtract to get the 2.456?
Page 115  1 the deposition of Chris Bakewell. The time now is 2 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your 5 report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way. 5 Q. Essentially the what figures did you add and 6 subtract to get the 2.456? 7 A. I think it's the if you take 16 percent of
Page 115  1 the deposition of Chris Bakewell. The time now is 2 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your 5 report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha 8 data what calculations are shown in Exhibit 5?	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way. 5 Q. Essentially the what figures did you add and 6 subtract to get the 2.456? 7 A. I think it's the if you take 16 percent of 8 14.14 oh. Well, there are specific numbers for
Page 115  1 the deposition of Chris Bakewell. The time now is 2 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your 5 report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha 8 data what calculations are shown in Exhibit 5?	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way. 5 Q. Essentially the what figures did you add and 6 subtract to get the 2.456? 7 A. I think it's the if you take 16 percent of 8 14.14 oh. Well, there are specific numbers for 9 so 16 percent of 16.1 million equals 2.45
Page 115  1 the deposition of Chris Bakewell. The time now is 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way. 5 Q. Essentially the what figures did you add and 6 subtract to get the 2.456? 7 A. I think it's the if you take 16 percent of 8 14.14 oh. Well, there are specific numbers for 9 so 16 percent of 16.1 million equals 2.45
Page 115  1 the deposition of Chris Bakewell. The time now is 2 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your 5 report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha 8 data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the 10 actual numbers versus what Mr. Zoltowski used to	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way. 5 Q. Essentially the what figures did you add and 6 subtract to get the 2.456? 7 A. I think it's the if you take 16 percent of 8 14.14 oh. Well, there are specific numbers for 9 so 16 percent of 16.1 million equals 2.45 10 million 2.45 billion and 16.2 billion on the
Page 115  1 the deposition of Chris Bakewell. The time now is 2 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your 5 report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha 8 data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the 10 actual numbers versus what Mr. Zoltowski used to 11 eliminate the double counting issue that we	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way. 5 Q. Essentially the what figures did you add and 6 subtract to get the 2.456? 7 A. I think it's the if you take 16 percent of 8 14.14 oh. Well, there are specific numbers for 9 so 16 percent of 16.1 million equals 2.45 10 million 2.45 billion and 16.2 billion on the 11 top line.
Page 115  1 the deposition of Chris Bakewell. The time now is 2 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your 5 report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha 8 data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the 10 actual numbers versus what Mr. Zoltowski used to 11 eliminate the double counting issue that we 12 discussed earlier, and that's detailed in Exhibit	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way. 5 Q. Essentially the what figures did you add and 6 subtract to get the 2.456? 7 A. I think it's the if you take 16 percent of 8 14.14 oh. Well, there are specific numbers for 9 so 16 percent of 16.1 million equals 2.45 10 million 2.45 billion and 16.2 billion on the 11 top line. 12 Q. And where did the 16 percent come from?
Page 115  1 the deposition of Chris Bakewell. The time now is 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the actual numbers versus what Mr. Zoltowski used to eliminate the double counting issue that we discussed earlier, and that's detailed in Exhibit 13  6. We were going through Exhibit 6 earlier.	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way. 5 Q. Essentially the what figures did you add and 6 subtract to get the 2.456? 7 A. I think it's the if you take 16 percent of 8 14.14 oh. Well, there are specific numbers for 9 so 16 percent of 16.1 million equals 2.45 10 million 2.45 billion and 16.2 billion on the 11 top line. 12 Q. And where did the 16 percent come from? 13 A. That comes from the 8 series of exhibits. So
Page 115  1 the deposition of Chris Bakewell. The time now is 2 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your 5 report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha 8 data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the 10 actual numbers versus what Mr. Zoltowski used to 11 eliminate the double counting issue that we 12 discussed earlier, and that's detailed in Exhibit 13 6. We were going through Exhibit 6 earlier. 14 Q. Okay. So the	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way. 5 Q. Essentially the what figures did you add and 6 subtract to get the 2.456? 7 A. I think it's the if you take 16 percent of 8 14.14 oh. Well, there are specific numbers for 9 so 16 percent of 16.1 million equals 2.45 10 million 2.45 billion and 16.2 billion on the 11 top line. 12 Q. And where did the 16 percent come from? 13 A. That comes from the 8 series of exhibits. So 14 Exhibit A, where it says percent net earned
Page 115  1 the deposition of Chris Bakewell. The time now is 2 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your 5 report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha 8 data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the 10 actual numbers versus what Mr. Zoltowski used to 11 eliminate the double counting issue that we 12 discussed earlier, and that's detailed in Exhibit 13 6. We were going through Exhibit 6 earlier. 14 Q. Okay. So the 15 A. Go ahead.	1 assuming a 16 percent profit margin. 2 Q. Assuming a 16 percent profit margin, or is the 3 result a 16 percent profit margin? 4 A. Either way. 5 Q. Essentially the what figures did you add and 6 subtract to get the 2.456? 7 A. I think it's the if you take 16 percent of 8 14.14 oh. Well, there are specific numbers for 9 so 16 percent of 16.1 million equals 2.45 10 million 2.45 billion and 16.2 billion on the 11 top line. 12 Q. And where did the 16 percent come from? 13 A. That comes from the 8 series of exhibits. So 14 Exhibit A, where it says percent net earned 15 premiums in 2018, that's 16 percent and the loss 16 ratio of 18.4 percent.
Page 115  1 the deposition of Chris Bakewell. The time now is 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the actual numbers versus what Mr. Zoltowski used to eliminate the double counting issue that we discussed earlier, and that's detailed in Exhibit  13 6. We were going through Exhibit 6 earlier.  14 Q. Okay. So the  15 A. Go ahead.  16 Q. No. Go ahead.  17 A. I was going to volunteer something that related to a question you asked me earlier that I promised to	assuming a 16 percent profit margin.  Q. Assuming a 16 percent profit margin, or is the result a 16 percent profit margin?  A. Either way.  Q. Essentially the what figures did you add and subtract to get the 2.456?  A. I think it's the if you take 16 percent of 14.14 oh. Well, there are specific numbers for so 16 percent of 16.1 million equals 2.45 million 2.45 billion and 16.2 billion on the top line.  Q. And where did the 16 percent come from?  A. That comes from the 8 series of exhibits. So Exhibit A, where it says percent net earned premiums in 2018, that's 16 percent and the loss ratio of 18.4 percent.  Q. So here is what I'm trying to clarify. These percentages came from other calculations that you
Page 115  1 the deposition of Chris Bakewell. The time now is 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the actual numbers versus what Mr. Zoltowski used to 11 eliminate the double counting issue that we 12 discussed earlier, and that's detailed in Exhibit 13 6. We were going through Exhibit 6 earlier.  14 Q. Okay. So the  15 A. Go ahead.  16 Q. No. Go ahead.  17 A. I was going to volunteer something that related to a question you asked me earlier that I promised to 19 get you something during lunch.	assuming a 16 percent profit margin.  Q. Assuming a 16 percent profit margin, or is the result a 16 percent profit margin?  A. Either way.  Q. Essentially the what figures did you add and subtract to get the 2.456?  A. I think it's the if you take 16 percent of 14.14 oh. Well, there are specific numbers for so 16 percent of 16.1 million equals 2.45 million 2.45 billion and 16.2 billion on the top line.  Q. And where did the 16 percent come from?  A. That comes from the 8 series of exhibits. So Exhibit A, where it says percent net earned premiums in 2018, that's 16 percent and the loss ratio of 18.4 percent.  Q. So here is what I'm trying to clarify. These percentages came from other calculations that you did, not from, like, an industry publication or
Page 115  1 the deposition of Chris Bakewell. The time now is 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the actual numbers versus what Mr. Zoltowski used to eliminate the double counting issue that we discussed earlier, and that's detailed in Exhibit  13 6. We were going through Exhibit 6 earlier.  14 Q. Okay. So the  15 A. Go ahead.  16 Q. No. Go ahead.  17 A. I was going to volunteer something that related to a question you asked me earlier that I promised to get you something during lunch.  20 Q. Sure.	assuming a 16 percent profit margin.  Q. Assuming a 16 percent profit margin, or is the result a 16 percent profit margin?  A. Either way.  Q. Essentially the what figures did you add and subtract to get the 2.456?  A. I think it's the if you take 16 percent of 14.14 oh. Well, there are specific numbers for so 16 percent of 16.1 million equals 2.45 million 2.45 billion and 16.2 billion on the top line.  Q. These percentages came from other calculations that you did, not from, like, an industry publication or anything like that?
Page 115  1 the deposition of Chris Bakewell. The time now is 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the actual numbers versus what Mr. Zoltowski used to eliminate the double counting issue that we discussed earlier, and that's detailed in Exhibit 6. We were going through Exhibit 6 earlier.  14 Q. Okay. So the  15 A. Go ahead.  16 Q. No. Go ahead.  17 A. I was going to volunteer something that related to a question you asked me earlier that I promised to get you something during lunch.  20 Q. Sure.  21 A. You want to do that now?	assuming a 16 percent profit margin.  Q. Assuming a 16 percent profit margin, or is the result a 16 percent profit margin?  A. Either way.  Q. Essentially the what figures did you add and subtract to get the 2.456?  A. I think it's the if you take 16 percent of 14.14 oh. Well, there are specific numbers for so 16 percent of 16.1 million equals 2.45 million 2.45 billion and 16.2 billion on the top line.  Q. And where did the 16 percent come from?  A. That comes from the 8 series of exhibits. So Exhibit A, where it says percent net earned premiums in 2018, that's 16 percent and the loss ratio of 18.4 percent.  Q. So here is what I'm trying to clarify. These percentages came from other calculations that you did, not from, like, an industry publication or anything like that?  A. That's not exactly right, but I I considered
Page 115  1 the deposition of Chris Bakewell. The time now is 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the actual numbers versus what Mr. Zoltowski used to eliminate the double counting issue that we discussed earlier, and that's detailed in Exhibit  13 6. We were going through Exhibit 6 earlier.  14 Q. Okay. So the  15 A. Go ahead.  16 Q. No. Go ahead.  17 A. I was going to volunteer something that related to a question you asked me earlier that I promised to get you something during lunch.  20 Q. Sure.  21 A. You want to do that now?  22 Q. Yeah.	assuming a 16 percent profit margin.  Q. Assuming a 16 percent profit margin, or is the result a 16 percent profit margin?  A. Either way.  Q. Essentially the what figures did you add and subtract to get the 2.456?  A. I think it's the if you take 16 percent of 14.14 oh. Well, there are specific numbers for so 16 percent of 16.1 million equals 2.45 million 2.45 billion and 16.2 billion on the top line.  Q. And where did the 16 percent come from?  A. That comes from the 8 series of exhibits. So Exhibit A, where it says percent net earned premiums in 2018, that's 16 percent and the loss ratio of 18.4 percent.  Q. So here is what I'm trying to clarify. These percentages came from other calculations that you did, not from, like, an industry publication or anything like that?  A. That's not exactly right, but I I considered industry data in in providing those estimates,
Page 115  1 the deposition of Chris Bakewell. The time now is 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the actual numbers versus what Mr. Zoltowski used to eliminate the double counting issue that we discussed earlier, and that's detailed in Exhibit  6. We were going through Exhibit 6 earlier.  14 Q. Okay. So the  15 A. Go ahead.  16 Q. No. Go ahead.  17 A. I was going to volunteer something that related to a question you asked me earlier that I promised to get you something during lunch.  20 Q. Sure.  21 A. You want to do that now?  22 Q. Yeah.  23 A. So you were asking about Paragraph 180.	assuming a 16 percent profit margin.  Q. Assuming a 16 percent profit margin, or is the result a 16 percent profit margin?  A. Either way.  Q. Essentially the what figures did you add and subtract to get the 2.456?  A. I think it's the if you take 16 percent of 14.14 oh. Well, there are specific numbers for so 16 percent of 16.1 million equals 2.45 million 2.45 billion and 16.2 billion on the top line.  Q. And where did the 16 percent come from?  A. That comes from the 8 series of exhibits. So Exhibit A, where it says percent net earned premiums in 2018, that's 16 percent and the loss ratio of 18.4 percent.  Q. So here is what I'm trying to clarify. These percentages came from other calculations that you did, not from, like, an industry publication or anything like that?  A. That's not exactly right, but I I considered industry data in in providing those estimates, but there's other calculations that I did. So
Page 115  1 the deposition of Chris Bakewell. The time now is 1:42 p.m.  3 BY MS. KLIEBENSTEIN:  4 Q. Mr. Bakewell, can you turn to Exhibit 5 of your report.  6 A. Sure.  7 Q. Can you explain to me at a 10,000 foot level wha data what calculations are shown in Exhibit 5?  9 A. So in Exhibit 5, we're using, or I'm using the actual numbers versus what Mr. Zoltowski used to eliminate the double counting issue that we discussed earlier, and that's detailed in Exhibit  13 6. We were going through Exhibit 6 earlier.  14 Q. Okay. So the  15 A. Go ahead.  16 Q. No. Go ahead.  17 A. I was going to volunteer something that related to a question you asked me earlier that I promised to get you something during lunch.  20 Q. Sure.  21 A. You want to do that now?  22 Q. Yeah.	assuming a 16 percent profit margin.  Q. Assuming a 16 percent profit margin, or is the result a 16 percent profit margin?  A. Either way.  Q. Essentially the what figures did you add and subtract to get the 2.456?  A. I think it's the if you take 16 percent of 14.14 oh. Well, there are specific numbers for so 16 percent of 16.1 million equals 2.45 million 2.45 billion and 16.2 billion on the top line.  Q. And where did the 16 percent come from?  A. That comes from the 8 series of exhibits. So Exhibit A, where it says percent net earned premiums in 2018, that's 16 percent and the loss ratio of 18.4 percent.  Q. So here is what I'm trying to clarify. These percentages came from other calculations that you did, not from, like, an industry publication or anything like that?  A. That's not exactly right, but I I considered industry data in in providing those estimates,

Page 118

1 industry.

1 A. And 2018 all I'm saying when I look at the 2018
2 Q. Fully understood. I'm just trying to figure out
3 where the math comes from to get these very
3 out of those 24 plus 12 so 36 months 2018 is a

4

- 4 specific numbers just in the exhibits.5 A. Correct.
- 6 Q. So the 16 percent; how was that calculated back in 7 Exhibit 8.0?
- 8 A. It uses a loss ratio.
- 9 Q. And are we sure we're talking about the right
- thing? Because I see in Exhibit 8 that's a 2018
- figure, and Exhibit 5.0 doesn't have dates on it.
- 12 A. I think we applied the 2018 figures to the overall
- time frame. I think that's kind of a generous
- 14 assumption if my recollection is correct. Because
- there's other years where it's lower.
- 16 Q. So you ...
- 17 A. You know, it could be -- I'd have to check this.
- 18 I think that it ends up being mostly 2018 because
- 19 of the time frame -- or the window of the damages
- 20 period. I think we actually matched it to the
- 21 damages period specifically, and it ends up being
- 22 it's driven by 2018.
- 23 Q. Well, if you look back at Exhibit 6.0.
- 24 A. Okay.
- 25 Q. I see 4.6, 4.7, and 4.3 for 2016, 2017, and 2018.

5 years in terms of gross written premiums. So --6 and it didn't surprise me that the number matched. 7 I think it's a combination of all of these, 8 and maybe the 17 percent -- the difference between 9 the 17 percent and the 16 percent is a rounding 10 difference, but it's directionally the same. 11 Q. So I see throughout these charges the phrase loss 12 ratio, and what is the loss ratio and how is it calculated? 13

third of it, and it's the -- one of the larger

- 14 A. Well, I describe that in my report. I described
- that in Section 4.3. I describe how the combined
- ratio is -- combined loss ratio is 84 percent, and
- 17 I discuss the components of that in the preceding
- 18 paragraphs.
- 19 Q. And how did you use -- how did you use the loss 20 ratio in developing your opinions?
- 21 A. To determine what sort of costs are required to
- 22 support a business like this.
- 23 Q. And so let's take the loss ratio on Exhibit 5.0.
- 24 It's 56 percent.
- 25 A. That's the before expenses; right? That's the

Page 119

- 1 Does that change your thought process?
- 2 A. No.
- 3 O. No?
- 4 A. I said no.
- 5 Q. So the 2.456 on Exhibit 5.0 represents -- I just
- 6 want to make sure I got this right. That
- 7 represents the underwriting profit assuming a 16
- 8 percent loss ratio; is that right?
- 9 A. The loss ratio is an opposite number, but yeah, 1
- minus the loss ratio.
- 11 Q. Okay, and that's the underwriting profit for all
- of the years --
- 13 A. That are in the data I think, but it's largely
- 14 2018, it's driven by 2018 because that's the
- 15 biggest portion of the window.
- 16 Q. By what metric '2018 is the biggest portion of the 16
- 17 window by what metric?
- 18 A. Your allegations in this case. It's a function of
- time, right, from the contract expiring from 2016.
- 20 So, like, Exhibit 6 has 2016, 2017, 2018, and
- 21 2019.
- 22 Q. Um-hm.
- 23 A. And that's the period or -- that's covered under
- 24 your allegations; right?
- 25 Q. Correct.

- loss ratio before expenses?
- 2 O. Correct.
- 3 A. Okay.
- 4 Q. Were you just -- when you just testified use the
- 5 loss ratio to determine what sort of costs
- 6 required to support the business you were maybe
- 7 referring to the combined ratio?
- 8 A. Correct.
- 9 Q. Okay. Let's move to Exhibit 7.
- 10 A. Okay.
- 11 Q. Actually, 8 while we're in the United States.
- 12 Finish that out. Okay. So starting with Exhibit
- 8, at a 10,000 foot level, what am I looking at in
- 14 Exhibit 8?
- 15 A. This is looking at the income statements of the
- businesses that had income statement prepared by
- 17 Federal.
- 18 Q. Is that US or international?
- 19 A. It's both I think. I mean, it's detailed in the
- 20 exhibits that follow as UK entities, Canada, US,
- 21 North America.
- 22 Q. So 8 is a rollup of all the -- all the exhibits
- 23 under 8, 8.1, 8.2?
- 24 A. Yeah.
- 25 Q. Okay. So then let's move on to 8.1. Handing you

Page 122

- 1 what has been marked as Exhibit 409 previously in
- 2 this case, and I see at the third page of 8.1 that
- your source is FED 1788, which is this Exhibit
- 409. Is that -- is that accurate?
- 6 Q. And how did you use Exhibit 409 when determining
- 7 your calculations in Exhibit 8.1?
- 8 A. I aggregated them in the ways that I described in
- -- in my -- in the exhibit. I basically took this
- 10 data and sorted it or re-characterized --
- recalculated it to be consistent with the format 11
- 12 that I've laid out in these series of exhibits.
- 13 Q. And the gross written premium figures in Exhibit
- 8.1 did they come from Exhibit 409?
- 15 A. I think so. It says yes. It's source, Number 1,
- is on Page 3 of 3. I say it's -- I cite to the
- 17 same document.
- 18 O. Right. The reason I ask is I don't see that
- little Footnote 1. Oh. It's at the very top.
- 20 Okay.
- 21 So for the gross written premiums, we
- 22 looked at the data in Interrogatory Number 17
- 23 before lunch. Why did you use gross written
- 24 premiums from Exhibit 409 and not Interrogatory
- 25 Number 17?

Page 123

- 1 A. Because this is a source that as I'm looking at
- the businesses that are associated with cost.
- 3 This data was produced in this case, and it's --
- 4 this is more of an ordinary course of business
- 5 document that shows how costs are allocated to
- businesses in the ordinary course of business.
- 7 Q. Exhibit 409 was prepared solely for litigation;
- 8 isn't that right?
- 9 A. I'm not certain. I think this actually comes
- 10 closer to what the company does in the ordinary
- course of business. It might have been a pull or 11
- 12 a query that was made in response to a request
- 13 that was in connection with this litigation, but
- 14 this is more of a ordinary course type of report.
- 15 It comes from the system of record as I understand 15
- 16
- 17 Q. And do you understand that Mr. Harkin testified
- 18 that included in this data are policies that --
- 19 that did not touch Blaze Advisor?
- 20 A. Yes. So that's what I was trying to say in my
- 21 prior answer, and that's what I've tried to
- 22 explain in my report at length is that Blaze
- 23 Advisor isn't a separate business at all within
- 24 Federal, and to get -- to respond to your demands
- 25 for information or requests for information, there

Page 124

- 1 are special queries and things that need to be
- 2 run, and there's not costs that are allocated or 3
  - revenues in the ordinary course of business.
- 4 So what this does is at least says, hey,
- 5 how do your costs behave for your businesses in
  - the ordinary course, are there reports where you
- 7 -- that you generate in the ordinary course that
- 8 might be helpful to understand what your cost
- 9 structure is, and these types of categorizations
- 10 in Exhibit 409 relate to that, or they answer that

6

11

- 12 O. Do you also understand that included in Exhibit
- 13 409 are policies that don't run through the
- 14 applications that are at issue in this lawsuit?
- 15 A. That's possible. Again, this is an ordinary
- 16 course of business report that relates to how the
- 17 business is actually run, and that's what we have
- 18 to look at to study costs.
- 19 Q. Do you know what percentage of the policies
- 20 recorded in Exhibit 409 did go through the
- 21 applications that include Blaze Advisor?
- 22 A. I think you could compare the estimates that are
- 23 specific to Blaze Advisor to these numbers and
- 24 derive a percentage as a proxy, to use as a proxy.
- 25 I don't know that I've done that, but you could do

- 1 that.
  - 2 Q. And the data in Exhibit 409 includes Canada;
  - correct?
  - 4 A. Yes.
  - 5 Q. And it doesn't include gross written premium from
  - writing companies that were Legacy ACE writing
  - 7 companies; correct?
  - 8 A. I'd have to check, but I think all of these are
  - for Chubb from my memory. It's whatever the title
  - 10 is. I don't think ACE was rolled up into this
  - 11
  - 12 Q. Now, the losses and expenses. Let's take the
  - 13 losses first, losses and LAE incurred. How did
  - 14 you calculate in Exhibit 8.1 the losses and LAE
  - incurred?
  - 16 A. This comes from the document is what happened in
  - 17 the ordinary course of business.
  - 18 Q. And so you believe that the losses were
  - 19 appropriate to deduct as a cost in this case?
  - 20 A. For the purposes that I did it, yes.
  - 21 Q. Why is that?
  - 22 A. Because Mr. Zoltowski didn't identify any costs,
  - 23 and he's got a problem with nexus, as you and I
  - 24 have discussed at length and is described
  - 25 throughout my report, and I'm constrained in that

Page 126

- 1 regard in that his starting points are a little
- 2 bit unrealistic, but I do think it -- it would be
- 3 compound the error to say that, well, because
- 4 you've got these revenues that are problematic,
- 5 I'm not going to measure costs or there aren't any 6
- 7 So instead, what I say is, well, what's
- 8 kind of the best way to look at costs when you're
- 9 basically accusing the entirety of a business, and
- 10 so I looked at the reporting information that was
- 11 available in this case and I got from the public
- 12 domain to try to estimate what sort of costs would
- 13 be associated with an insurance business, and
- 14 certainly one of the major categories of insurance
- 15 is that you're going to have some losses. You
- 16 write premiums, and then you have losses that
- 17 accrue against the premiums written, and so in
- 18 that way, it's relevant to try to understand how
- 19 those costs behave, and if Mr. Zoltowski --
- 20 Zoltowski is trying to say that there's revenues
- 21 that are generated by Blaze, well, there's going
- 22 to be costs, there's going to be underwriting
- 23 losses.
- 24 That's what I'm trying to estimate there,
- 25 or at least demonstrate, using the best available

  - Page 127
- 1 information. 2 Q. Do you know how -- in Exhibit 409, do you know how
- the losses and LAE incurred were calculated in
- Exhibit 409?
- 5 A. Let me see if I describe that in my report. I
- think that this actually comes from actual losses
- 7 and loss estimates that are made in the business
- 8 in the ordinary course of business. It comes from
- the system of record.
- 10 Q. So they are -- they are tracked in a -- I remember
- Mr. Harkin used the words bulk and direct? 11
- 12 A. Yes.
- 13 Q. Those in your opinion would be direct?
- 14 A. I'd have to review his testimony about bulk and
- 15 direct. I know that there's some timing
- 16 allocations that need to be done. I defer to what
- 17 he said more specifically.
- 18 What's -- what I do remember sitting here
- 19 is it comes from their system of record. It's how
- 20 they manage the business in the ordinary course.
- 21 Q. And with regard to the losses, is there a
- 22 one-to-one correlation with respect to losses
- 23 compared to the gross written premiums such that
- 24 gross written premium goes up a dollar and the
- 25 loss goes up a dollar, or not?

- 1 A. I think generally speaking the directionality is
  - what's in the data. I think the losses and LA --
  - LAE incurred are 53 to 58 percent of the premiums
  - 4 that are written based upon Exhibit 8.1 for Chubb
  - 5 specialty and commercial insurance segments in
  - North America to use one example.
  - 7 Q. My question is how do the costs -- how do the
  - 8 losses vary with a change in the gross written
  - 9 premium?
  - 10 A. If you write a premium, that means you're selling
  - 11 insurance, and you have an expected loss
  - 12 associated with whatever the premium is that you
  - 13 write. That's how -- that's why you have
  - 14 underwriters and insurance companies, to try to
  - 15 figure out what the odds are that there will be a
  - 16 loss against the dollar and revenues that you
  - 17 write.
  - 18 Q. Could -- some policies, you would agree though,
  - 19 have greater losses than other policies; correct?
  - 20 A. Yeah. Sure. Every policy is going to be
  - 21 different. In actuality, all you have to do --
  - 22 all you can do as an insurance company is try to
  - 23 estimate what your loss ratio is going to be, and
  - 24 it averages out, and that's what you try to
  - 25 manage.

Page 129

- 1 Q. And let's move to the expenses incurred on 409.
- Let me ask it a different way. On 8.1, I see a
- 3 line item for expenses. What -- what buckets of
- expenses were included in that line item?
- 5 A. I understand commissions, general administrative,
- and dividends.
- 7 Q. And do you know how Federal tracks and allocates
- the general, and administrative, and the taxes,
- 9 licenses, fees, the TLF expenses?
- 10 A. I think that it tries to -- if my recollection is
- 11 correct, it tries to allocate as much as it can
- 12 directly to the business, and to the extent
- 13 there's any re-allocations that needs to be done,
- 14 those are done on an activity based costing basis.
- 15 Q. What do you mean by activity based costing basis?
- 16 A. The company tries to look and see how to allocate
- 17 costs so it matches how the business is run, and
- 18 my recollection from speaking with people at Fed
- 19 is that most of the allocations when they are
- 20 done, when they don't have the amount to put
- 21 directly into the income statements for those
- 22 businesses, are allocated based upon written
- 23 premiums percentage.
- 24 Q. And do you know how they were -- those expenses
- 25 were allocated on Exhibit 409?

Page 130 Page 132 1 A. Like I just described. 1 ordinary course what does match and is doable by 2 Federal to provide a proxy or an estimate for the 2 Q. So for those expenses that are allocated on a 3 gross written premium basis, do you have any applicable costs. That's what I say basically in 4 Footnote Number 1. 4 information about whether or how those expenses 5 Q. So 7.1 is a comparison of your data in 8.2 vary with a change in gross written premium? compared to Mr. Zoltowski; is that a proper 6 A. They do. By definition, that's how they are being 7 7 description? allocated, and they are allocated on an 8 A. No. 8 activity-based costing system, and that's how they behave is a function of gross written premiums. 9 Q. Looking at 8.2, I see the -- the gross written 10 Q. That's how the allocation behaves; correct? 10 premium in 2013 starts with 27, and then when I look back to 7.1, I see that it's 19. Why are 11 A. Well, the idea is that the allocations are 11 12 12 supposed to match the business behavior. those two numbers different? 13 A. I think I'm using the numbers that Mr. Zoltowski 13 O. And what evidence do we have in this case that the allocations do match the business behavior of estimated. I think in 7.1 I'm taking Zoltowski's 15 Federal? 15 -- Mr. Zoltowski's estimates, and then in 8.2, I'm 16 taking a look at ordinary course costs and 16 A. Well, I'm relying upon what Federal witnesses told 17 17 me and what they told you during their financial reporting and how it estimates those 18 costs, and then I go back to 7.1 and I say, well, 18 depositions. So we have that as evidence, and I 19 19 think also we have fundamental analysis of the you know, we got to put some costs against the 20 20 revenues. It's not like this revenue stream, even business and my research. I think it's reasonable 21 21 as flawed as it is, wouldn't have any costs to expect that a company that is writing insurance 22 and collects premiums for writing insurance is 22 associated with it. So I take what was done in 23 23 the ordinary course and then allocate it. going to manage its business so that if the 24 Q. Okay. So moving to 8.2, the source for your data 24 premiums go up or down that they put the 25 is solely 17884. So how did you -- did you use 25 appropriate infrastructure in place to support Page 131 Page 133 1 managing that. 1 the same methodology regarding the figures 2 Q. Do you disagree with Mr. Harkin's testimony 2 calculated for losses incurred that we talked regarding Exhibit 409? 3 about with regard to the US data? 4 A. No. I considered what he said. 4 A. Yes. 5 Q. Let's move to Exhibit 8.2. 5 Q. And the -- the same answers for expenses; used the same methodology to calculate the expenses? 6 A. Okay. 7 Q. 8.2 focuses on Australia; correct? 7 A. True. 8 A. Correct. 8 Q. And are the -- are the -- do you have any quarrel 9 Q. And for Australia, what was your support for your with Mr. Harkin's testimony regarding FED 17884? 10 A. What are you talking about? What testimony? data regarding the gross written premium? 11 A. I think that comes from FED 017884 001. 11 Q. He -- he testified about 17884 and what -- what 12 Q. I'm handing you that document that was previously 12 was included under the losses and the expenses and 13 marked as Exhibit 416, and I apologize, this is so 13 how to read the documents. So I'm just wondering 14 14 in I can look to his testimony to understand how 15 A. I don't think you have to apologize. 15 17884 can be interpreted, or if -- if you 16 Q. My copy is a tiny bit bigger. 16 disagreed with any of his testimony and thought he 17 A. Oh. Okay. 17 was wrong? 18 Q. Not by much. Okay. So looking at 8.2, how does 18 MR. FLEMING: So are you referring to, 19 Exhibit 8.2 relate to Exhibit 7.1? 19 like, a paragraph or a number of pages in Harkin's 20 A. 7.1? Oh. So what I'm doing I explain in Footnote 20 testimony? 21 Number 1 is that Mr. Zoltowski has identified some 21 MS. KLIEBENSTEIN: No. 22 THE WITNESS: Is that a question for me? 22 gross written premiums, and there's not, as we 23 23 discussed, an ordinary course of business report BY MS. KLIEBENSTEIN: 24 24 O. Yes. that has costs allocated according to what he's 25 25 A. I think that whatever Mr. Harkin said he said, and done, and so I use what is prepared in the

Page 134 Page 136 1 we're using that UK business, which I think 1 I would accept. I don't recall anything that I 2 includes Europe, the European businesses, at least 2 disagreed with, but I do think that whatever he 3 3 said or did needs to be considered in its proper for a time being, to estimate the costs that would 4 apply under what you've accused as being 4 context, and so I think that's the best I can do 5 applicable to Europe. without you being more specific. 6 Q. So confirming that I understand what you just 6 Q. For your gross written premium calculations in 7 7 said, you used costing data from the UK to -- and Exhibit 8.2, you did not use Federal's 8 8 interrogatory response relating to Australia and then applied that to application -- or gross written premiums in both the UK and Europe? the gross written premiums that touch Blaze 10 Advisor in Australia; is that right? 10 A. Used the best available estimate, and I'd have to check if this UK business included Europe in the 11 11 A. I think what I'm doing in 8.2 is trying to 12 12 understand costs, and so I'm taking ordinary income statement. 13 course information, and it might match what's in 13 So in 7.2, we have information about what 14 14 you've accused. There's a product that is in that interrogatory response, but that would be 15 sort of coincidental. What I'm really focused on 15 Europe, and there's two products that are in the in that series of exhibits is costs, cost 16 UK, and then I'm trying to estimate what applies 16 17 to those revenues in terms of costs, and so I use 17 structure. 18 the ordinary course report that was -- that's in 18 Q. Mr. Harkin testified that the net earned premium 19 and the net written premium were derived. Do you 20 Q. I'm handing you what has been marked as Exhibit 20 recall that testimony? 21 413, which is FED 17885. 21 A. I wish I had that type of memory. I don't, but that's not surprising to me. 22 A. Okay. 23 Q. Is this the costing data you were just referring 23 Q. And when I asked him what -- what does derived mean, he said, "There were assumptions applied to 24 25 A. It appears to be. 25 the written premium poll to approximate what would Page 135 Page 137 1 have been in the earned," -- "the net earned 1 Q. And I see down in -premium associated with these policies haven't 2 2 A. Yes. 3 been able to identify underwriting income at that 3 Q. -- Footnote 4, the report states, "I was not 4 provided with business segment financials for the 5 Did you take that into account when you 5 years 2013 to 2015. As such, I have used the 6 used FED 17884 in your calculations in Exhibit two-year average ratio from 2016 to 2017." 7 8.2? 7 Why did you not have business segment 8 A. Yes. I was aware of that. financials for 2013 to 2015? 9 Q. And were you -- were you concerned that those 9 A. I don't know. 10 figures were derived? 10 Q. Did you ask Federal for that data? 11 A. No. 11 A. Yes. 12 Q. And why not? 12 Q. And you didn't -- didn't get any? 13 A. Because that's normal. That's how businesses operate. 14 Q. In preparing -- were you told why you couldn't 15 Q. And for the expenses reported in 17884, did you have any? 15 deduct all the losses and expenses are reflected 16 A. Probably. 17 in that document in your Exhibit 8.2? 17 Q. In Exhibit 7.2, can you walk me through how you 18 A. I think the numbers should match. I think so. If calculated the gross written premiums? 18 that's what you mean. 19 A. It's the same as the others where I had what Mr. 20 Q. So 7.2 and 8.3, moving on to Europe. 20 Zoltowski identified, and then we went through the 21 A. That sounds exciting. Okay. 21 analysis that I discussed earlier, and then we 22 Q. Can you explain to me the relationship between 22 wanted to estimate or I wanted to estimate what Exhibit 7.2 and 8.3? 23 the costs are that would apply using ordinary 24 A. It's the same. 8.3 is -- oh, and this is UK; 24 course of business reporting is what I determined right? 7.2 -- 7.2 is Europe and 8.3 is UK, and so 25 would be the best way to estimate what those costs

Page 138

1 are, and that's what I used in the 8 series
2 exhibits to look at the business and how its
3 managed in the ordinary course and how costs

Page 138

1 just table that and keep going.

2 A. Okay.

3 Q. So in 8.3, walk me through how you used Exhibit

- 4 behaved, and then I went back and allocated that
- 5 I'm using the percentages in Exhibit 7.2.
- 6 Q. The gross written premiums in Exhibit 7.2 are
- 7 based on interrogatory response; correct?
- 8 A. Well, Mr. Zoltowski's is, is that. We talked
- 9 about the issues with that.
- 10 Q. Yes, but did you -- for your calculations, did you
- use the interrogatory responses or Exhibit 413?
- 12 A. Well, for the gross written premiums, I used that
- other exhibit, the document, the native file. I
- 14 got rid of the double counting stuff; right? We
- 15 talked about that earlier for the revenue stream,
- and then for costs that applied, then I used this
- 17 413.
- 18 Q. For EU and UK data?
- 19 A. Well, maybe I'm mistaken. Oh. I do. I have a
- 20 Footnote Number 3. Fair. Fair question. I did
- 21 use interrogatory responses for this. That's what
- I used to do to deal with the double counting
- issue. Fair enough. That's a good question.
- 24 Q. So how did the -- using the interrogatory
- 25 responses deal with the double counting issue?

- 4 413 to calculate the losses and expenses in
- 5 Exhibit 8.3.
- 6 A. Well, I utilized the document that was produced by
- 7 Federal to categorize these costs and calculate
- 8 these loss ratios or expense ratios. How are we
- 9 doing with time? I actually could use a break to
- 10 use the restroom.
- 11 O. 2:30.

19

24

- 12 A. I know it hasn't been that long but --
- 13 Q. That's okay. We can take a break.
- 14 A. Okay. Thank you.
- 15 THE VIDEOGRAPHER: We are going off the
- 16 record. The time now is 2:37 p.m.
- 17 (Whereupon a short break was taken from
- 18 2:37 p.m. to 2:49 p.m.)
  - (Whereupon material was marked for
- 20 identification as Exhibit 526.)
- 21 THE VIDEOGRAPHER: We are back on the
- 22 record. This marks the beginning of Media 5 in
- the deposition of Chris Bakewell. The time now is
  - 2:50 p.m.
- 25 BY MS. KLIEBENSTEIN:

## Page 139

- 1 A. Well, it didn't. There is a double counting issue
- 2 in there, and to deal with it, I used these
- 3 ordinary course of business reports. It's not
- 4 that -- well, that's right. That's what I did.
- 5 I'll leave it there.
- 6 Q. Well, but the double counting issue only dealt
- 7 with CUW -- CUW and CSI Express, correct, and
- 8 Premium Booking?
- 9 A. I'd have to look and see what Mr. Zoltowski did on
- 10 Schedule 11.1 of his report. Do you have that?
- 11 That's what I cite to in my footnote for Exhibit
- 12 7.2.
- 13 Q. I'm not asking about Mr. Zoltowski's numbers. I'm
- 14 asking about the numbers that your team calculated
- 15 below that, and so my understanding CSI Express,
- 16 CUW, and Premium Booking are US applications, and
- in the EU, we have Adapt, EZER -- Adapt and EZER.
- 18 So is it your belief that the double counting
- issue extends to Adapt and EZER?
- 20 A. I'll have to see what I cite in Exhibit 7.2 to Mr.
- 21 Zoltowski's report, Schedule 11.1. So if I could
- see that, I think that would refresh my memory as
- 23 to what is causing this discrepancy I'm citing to
- that for that reason.
- 25 Q. Okay. I'll have something in a minute. We'll

Page 141

- 1 Q. Mr. Bakewell, I'd like to turn back to Exhibit 7.2
  2 and talk about why you used the interrogatory
- 3 responses to generate the gross written premium in
- 4 7.2.
- 5 You asked for Mr. Bakewell's report so you
- 6 could see Schedule 11.1 --
- 7 A. You meant to say Mr. Zoltowski's report. You said
- 8 Mr. Bakewell's --
- 9 Q. I apologize.
- 10 A. That's all right. Okay. I know where you are,
- 11 but I don't know what your question is.
- 12 Q. My question was: Why did you use the
- interrogatory responses to calculate the gross
- written premium amounts in Exhibit 7.2?
- 15 A. Oh. You mean for 2013 through 2015? So what I
- wrote at the very last sentence is, "I was not
- 17 provided with business segment financials for the
- years 2013 to 2015. As such, I've used gross
- written premiums from interrogatory responses for
- 20 those years." Is that what you're referring to?
- 21 Q. No. The first sentence in Footnote 3 of 7.2 says,
- 22 "I have used the gross written premiums from the
- 23 interrogatory responses for the years 2013 to
- 24 2019."
- 25 A. So I go on and I go through 2013, '14, '15, '16,

Page 142 Page 144 '17, and '18. So for every year, I have an 1 assumptions so that if you disagreed with it or 1 2 Mr. Zoltowski disagreed with it he could just make 2 explanation as to why. I do it in reverse order. 3 3 I discuss 2016 through 2018 first, and I say that changes to it. 4 Q. Did you --4 I used the information for the interrogatory 5 A. That's what was in my mind. 5 responses, from the interrogatory responses 6 Q. Did you ask for business segment financials for 6 because the business segment financials are 7 the years 2013 to 2015? greater than or similar to the gross written 8 premiums in the interrogatory responses. So 8 A. Yes. 9 Q. And did you receive them? that's why I used it for those years, and then I 10 didn't have information from 2013 through 2015, 10 A. No. 11 Q. So let's move to 8.3. How did you calculate the 11 and so what I used for those years was the gross 12 loss figures in 8.3? 12 written premiums from the interrogatory responses. 13 A. Came from the document I think that I cited. It's 13 That's why I used that information kind of from the document that I cited to in Exhibit 413. 14 overall. 15 Q. So for 2016 through 2018, why didn't you use the 15 Q. So you adopted the figures of the losses and 16 business segment financials for the gross written expenses in Exhibit 413? 17 A. I think so. Yes. 17 premium dollars? 18 Q. And what is your understanding of the expenses 18 A. Since the gross written premiums from the business that are reported in Exhibit 413? Meaning, how segment financials are greater than or similar to 19 20 20 are they -- how are they tracked and allocated? the gross written premiums in the interrogatory 21 A. In the ordinary course of business, this is --21 responses. Just as I wrote. 22 Q. And I'm wondering why -- why that criteria -- why 22 this reflects ordinary course of business 23 information, and I think it's the same as what we that criteria stuck out in your mind. The --24 discussed for the other businesses where Federal 24 A. Didn't stick out. 25 will allocate the costs that it can and where it 25 O. Oh. Page 143 Page 145 1 A. This isn't like the type of work where that's 1 can't, and it needs to -- or I said allocate the going to stick out in my mind, but I can tell you 2 costs where it can. I meant expense the costs to 3 what it -- what happened or what I was thinking 3 the business where it can, and then where it needs just sort of in a plain sense. 4 to allocate, it uses activity-based costing to do 5 O. Please do. 5 that, and the primary means of allocation is by written premium. That's my recollection as I sit 6 A. The reason why is because what we're trying to get -- at least whether I understood you were trying here right now. 8 Q. Let's move to Canada in 8.4. 8 to get at in your allegations is some sort of 9 A. Okay. 9 measure that relates to Blaze Advisor, and Federal 10 10 Q. I'm handing you what's been marked as Exhibit 418. has consistently said, hey, look, we don't keep 11 that information in the ordinary course of 11 For your gross written premiums in Exhibit 8.4, 12 business, and it doesn't generate revenues, and 12 did you use the figures from Exhibit 418? 13 there's all kind of discussions back and forth 14 about that over a protracted period of time, and 14 Q. And why did you use 418 instead of the 15 then what Fed did is -- Federal did is produced interrogatory responses? 15 16 16 A. For the same reasons that I discussed with the information that it believes was the most 17 responsive to your request, albeit it's 17 others is that this has details about how the 18 overinclusive. It related to its aspect of its 18 business is managed in the ordinary course, and 19 business that uses Blaze Advisor, and it was a 19 how costs behave. 20 subset of the information that applied to the 20 Q. And we don't know in Exhibit 418 what percentage 21 business overall, albeit very close to the 21 of the gross written premium are from policies 22 22 that touch applications that include Blaze business overall, and so I used that information 23 because it seemed to go in a direction of what 23 Advisor; isn't that right? 24 your allegations are in this case, and on top of 24 A. It's sort of right. I mean, this is a proxy for

trying to estimate what the costs are. We don't

that, what I also did is I disclosed my

25

Page 146 Page 148 1 complete and unnecessary audit. I inquired about 1 have the Blaze Advisor related information because 2 it to check its reasonableness. 2 it's not kept in the ordinary course of business. 3 3 So this is the best estimate that I can find, as I So I think that's a way that is more 4 accurate to describe what I did as opposed to 4 discussed earlier, and as I described in my 5 adopting without modification. Like you said. 5 6 Q. Understanding the work that you did, I'm just 6 Q. Exhibit 418 was created for this litigation, but I 7 7 trying to confirm the numbers match. understand you believe that Exhibit 418 includes 8 -- Exhibit 418 is kept in the ordinary course of 8 A. They should match. 9 Q. Okay, and why did you not use -- strike that. I business; is that right? 10 A. The data is. I think this particular printout or 10 already asked that. Look at Exhibit 10 of your query might have been done for this litigation, 11 11 12 A. Okay. 12 but generally speaking, it's information that is 13 Q. Can you tell me what information is shown in 13 kept in the ordinary course of business, and it Exhibit 10? 14 uses the type of reporting that is done in the 15 15 A. This is a -- these are loss ratios, and expense ordinary course of business. 16 ratios, and combined ratios from other companies 16 Q. And when you -- just so I make sure we're on the 17 17 same page, when you say kept in the ordinary in the space. 18 Q. And how did you select the other companies that 18 course of business, what do you mean by that? 19 A. It comes out of the system of record, and it was a 19 are on this chart? 20 A. I think these are often cited in the materials 20 query made of that. 21 that I've seen as being the peers of Chubb. 21 Q. And it's -- you mentioned it's the type of report that is in the ordinary course of business. What 22 Q. So this is a list that you determined to be the 23 peers of Chubb? 23 do you mean by that? 24 A. I don't know that I determined it or if it's sort 24 A. Looking at loss ratios and expense ratios is the 25 of a consensus view. I might have described this 25 way a business is managed. Page 147 Page 149 1 Q. Did you ask Federal for more detailed information 1 in my report. 2 2 regarding its losses and expenses that are These seem to be the companies that were 3 reflected in the exhibits we've gone through 3 consistently identified as being its peers. Might 4 4 today? be somewhere Where I describe this in my report. 5 5 A. I think I asked for the most detailed information It's getting late in the day. I thought I 6 mentioned it, but I'm not the only one who has that would be reasonable to provide and that was 7 7 taken this view. There's other analysts who kept in the ordinary course and wouldn't be overly 8 8 identified these same companies. burdensome. 9 Of course I always want more detail, and I 9 Q. And what is the purpose of Exhibit 10 as it relates to your overall opinions? 10 have a thirst for information, but I also I think 10 11 A. It's just to check the reasonableness of the 11 have a responsibility to the process and to 12 everyone to make sure that my requests are 12 information that was provided by Chubb to make 13 sure that it was consistent with peers and the 13 realistic, and that's what I meant by not being 14 overly burdensome. 14 industry I think to -- it's also to help provide 15 15 context for Chubb's information, and to show that So this seemed to me to be a good balance. 16 this is how the businesses in this space are all 16 It was sufficient for my work, and I was 17 managed, they all use the same sort of view of how 17 satisfied. 18 Q. And for losses and expenses reflected in Exhibit 18 costs behave, and categorization of costs 19 8.4, did you -- did you adopt without modification 19 according to loss and expense ratios. 20 the losses and expenses that are reflected in 20 Q. Is it your opinion that FICO's damages for breach 21 of contract should be determined by analyzing 21 Exhibit 418? 22 22 A. Well, I had to modify this in terms of, like, hypothetical negotiation between FICO and the 23 defendants? 23 performing calculations and synthesizing this 24 information. I assumed that it's correct, and it 24 A. Thought that was strange when I read Mr.

Zoltowski's report that I accused me of doing

seems correct to me without, like, doing a

25

Page 150 Page 152 1 damages industry perspective. 1 that. I thought that was unfounded on his part, 2 If you're -- you're on a case where you're 2 and I think that he also mischaracterized what a 3 3 hypothetical negotiation is supposed to be about analyzing a hypothetical negotiation. What 4 mindset do you give each of the parties? 4 and reflected a misunderstanding of it, and I say 5 MR. FLEMING: Objection. Vague. 5 that because, even if I did use a hypothetical 6 BY MS. KLIEBENSTEIN: 6 negotiation, I'm not certain that that would be 7 7 Q. Does that make sense? wrong to do. 8 8 A. Let me respond, and we'll see if it's helpful. I'm not saying that I did, but the 9 9 I'm a financial analyst and a valuation hypothetical negotiation idea relates to a 10 valuation principle of fair market value, and the 10 expert, and to me, it's about performing a 11 11 financial analysis and figuring out what the idea is to go back at whatever the date of the 12 intrinsic value is, another thing that we can talk 12 wrongdoing was and figure out what reasonable 13 parties would have negotiated, and while that's 13 about that if you want, but I'm interested in the 14 14 fundamental and intrinsic value of whatever it is got a special term, and in the patent world, that 15 same concept applies outside litigation to valuing 15 I'm valuing, and I want to consider what that is really anything tangible or intangible as of a 16 and in the marketplace and using the toolkit that 16 17 17 I described for you earlier, and I want to analyze certain date. It's the definition of fair market 18 it and study it, and I'm assuming that anybody 18 value is the price that would change hands between 19 else, including the parties to the hypothetical 19 willing and reasonable parties each with access to 20 20 negotiation want to do the same thing, and so it's the same information or reasonable knowledge of 21 21 not about, like, mindsets or that type of thing. facts at a given point in time under no compulsion 22 to buy or sell, and that's almost the same 22 It's about figuring out what this stuff is worth 23 23 and what would be fair. It's about fair market standard that's applied in a licensing sense in a 24 24 hypothetical negotiation. value. So to bring this all full circle to wrap up 25 That's the way I approach my analysis in 25 Page 153 1 my answer, I didn't say it was a hypothetical the patent world and everywhere else, and it's not 1 2 negotiation, but even if I did, I don't think 2 about trying to figure out what's in the parties' 3 that's a problem. 3 mindsets, and what I -- it's about figuring out 4 Q. In that hypothetical -- I understand your answer. what's right, fundamentally and intrinsically, and 5 I just want to understand this hypothetical 5 I have a real problem with what Mr. Zoltowski did 6 negotiation concept fully. here and what he wrote in his reply report because 7 In a hypothetical negotiation in this case, 7 he's violating the principles that he should be 8 how do you -- how do you set the 8 complying with, and where I'm saying that there's 9 parties' mindsets? And that's a really broad 9 a big problem is that he's taking this view that 10 question, but it boils down to this: Does -- do 10 he can accept what his client says they want and 11 you presume that Federal -- Federal has the 11 not consider what the market is like whatsoever. 12 mindset that it -- it has liability or rather that 12 He's taking list prices, and disregarding 13 the two parties are just coming to a table to 13 discounts, and that just violates the spirit of 14 negotiate a new deal at -- at an arm's length 14 what you're supposed to do if you're claiming to 15 15 transaction? do a valuation. 16 MR. FLEMING: Object. Multiple questions. 16 So I hope that's responsive and helps move 17 Misstates his testimony. 17 things along. 18 THE WITNESS: Are you asking me if I 18 Q. So your focus when you come to a project like this 19 is not -- is focused on the -- the asset that's at assumed any of those things, or is that a choice, 19 20 like a checklist? Do I get to choose from the 20 issue, and not --21 menu like I'm going to dinner? I don't understand 21 A. Or the claim. 22 your question. 22 O. The claim, and not how the parties feel about it? 23 BY MS. KLIEBENSTEIN: 23 A. Yeah. I think it's our job to take the emotion 24 Q. Sure, and I -- I'm trying to understand this from 24 out of it and try to figure out what's right. 25 your valuation principles and from an industry --25 Q. So when you were -- when you were developing your

Page 154	Page 15
opinions, you didn't you didn't presume that	1 you know, I don't want to use your product anymore
2 FICO was required to license Blaze Advisor to	2 and I've got other options here, and they work
3 Federal?	3 something out, and it's not a situation like I've
4 A. I did. I assumed that there was some sort of	4 seen where there's no other way to do things,

I think that I discuss other issues that are in part informed by Dell and Oracle said, hey,

Page 158

- 1 for applications like this anything, and if you
- 2 want to make money for a commoditized product like
- 3 this, then let's talk about consulting and
- 4 maintenance, and that's where they would expect,
- 5 and that relates to the next thing that I want to
- 6 talk about, and that's discounts.
- 7 Mr. Zoltowski ignores the fact that it's
- 8 industry practice to discount software, and I
  - think you can reduce his estimates by

. So there's

another -- there's another number. 11

12 Probably others, but those are instructive

13 examples I think.

- 14 Q. Do you know how many of the license agreements in
- 15 Exhibit 12 are enterprise license agreements?
- 16 A. Probably I could look and see from looking at
- 17 them. As I said earlier at the beginning of the
- day, I was more focused on their substance as 18
- 19 opposed to their form.
- 20 Q. Do you know how many are application based, named
- 21 application based?
- 22 A. Same answer. I mean, I could tell by probably
- looking at them and adding them up, but I was more 23
- 24 interested in substance over the form.
- 25 Q.

9

- 1 where I would find that in my report.
- 2 Q. In calculating the discount to apply, did you --
- did you tabulate the different discounts that are
- 4 given to any of the customers in Exhibit 12?
- 5 A. I think I did that at one point, or tried to do
  - it, you know, some of those licenses are more
- 7 difficult than others to figure out a discount
- 8 because they could be implicit.

9 Ultimately I'm relying upon Doctor Kursh

- 10 for that assumption. He's the software licensing

11

- 12 Q. For the assumption of the amount of discount that
- should apply in this case? 13
- 14 A. Correct. He has an opinion about that, and all I
- 15 can do is confirm the reasonableness of his
- 16 opinions, and they certainly seem reasonable, and
- 17 consistent with my experience, and the evidence
- 18 I've seen, but the specific number that comes from
- 19
- 20 Q. And we touched on these briefly, but just to close
- 21 the loop, you criticized Mr. Zoltowski for not
- 22 taking into consideration the Oracle and Dell
- 23 agreements; correct?
- 24 A. Generally. I think more my criticism is around
- 25 the lack of context in his analysis. Those would

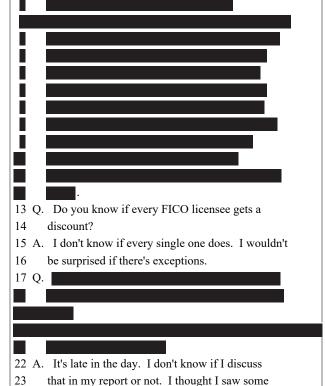

Page 161

Page 160

- have been two good case studies for him to spend
- 2 time on to understand this industry a little
- 3 better and confirm the reasonableness of his
- 4 analysis.

1

- 5 Q. And why do you believe the Oracle and Dell
- agreements are pertinent in this case?
- 7 A. Because they provide context. I think they are
- 8 examples of broader considerations that affect the
- industry. That's all.
- 10 Q. And other than the discount and the maintenance
- 11 fees, did you calculate how much Mr. Zoltowski's
- 12 damages number should be reduced based on the
- 13 Oracle and Dell agreements?
- 14 A. Well, I gave some other examples of -- of that in
- 15 another question, and I think ultimately what
- 16 those are instructive of is, hey, there's a
- 17 marketplace that is at work here, and there's
- 18 other companies that offer alternative software,
- 19
- and that companies also have an option to develop
- 20 solutions on their own, and to me, that's
- 21 instructive of the fact that trying to deviate
- 22 from what was actually paid in the past that's --
- 23 in a way that's specific to -- or I guess the
- 24 deviation would lack specificity to the intrinsic 25
  - value of what's being licensed. That would be --

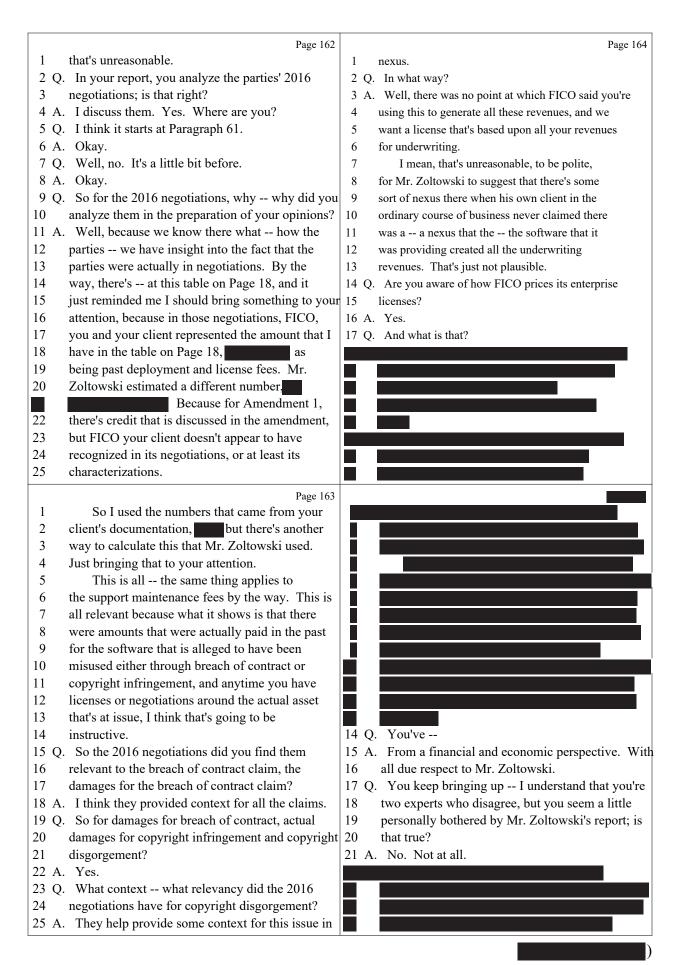

information about that at some point in the course

of my work, but I don't remember what it is or

41 (Pages 158 - 161)

24

Page 166 Page 168 1 A. Well, there's calculations that I've seen in the 1 and copyright infringement? negotiations, and 2 MR. FLEMING: Objection. Multiple 2 3 questions. Calls for speculation. . It's trying to 4 THE WITNESS: I think I'd have to see those 5 say that you should pay more if you're bigger. 5 documents to know a little bit more about your 6 That's -- that's what I understand those 6 question in the context of your question. 7 documents are trying to do, and those documents 7 BY MS. KLIEBENSTEIN: 8 can -- and the interactions, those things speak 8 Q. In 2016, do you know -- do you have an opinion 9 for themselves. So if you have specific about Federal's mindset during those 2016 10 10 questions, I'll be glad to answer them. negotiations? 11 Q. So the 2006 negotiations you also addressed the MR. FLEMING: Objection. Vague. 11 THE WITNESS: I'm not offering an opinion 12 12 2006 negotiations in your report; correct? 13 A. Yes. 13 about somebody's mindset. I'm a financial analyst 14 Q. And do you see the 2006 negotiations as having a 14 and valuation expert. I'm interested in bearing on -- on all of the different damages 15 15 performing a financial analysis. 16 16 We talked about that earlier where I think 17 A. What do you mean having a bearing? 17 this phrase hypothetical negotiation can sometimes 18 Q. Are relevant to the determination of the damages 18 be a little bit of a misnomer, and the job of an for breach of contract; actual damages and 19 expert, damages expert is to perform a financial 20 copyright disgorgement? 20 analysis. So I refer back to that part of my 21 21 A. I think they are useful for context. testimony. 22 Q. How are they useful for context for copyright 22 BY MS. KLIEBENSTEIN: 23 disgorgement? 23 Q. But the discussions in 2016 Federal you would 24 A. Because they help describe what the copyrights 24 agree did not believe it was liable for breach of 25 actually might be, and how they might create value 25 contract and copyright infringement? Page 167 Page 169 1 A. I haven't studied that issue. I don't know. What for the business, and so they relate to the issue 1 I will say is that there's two -- there's a bunch 2 2 in nexus. 3 Q. Are you referring to the dollar amounts floated 3 -- there's a range of possibilities, one of which 4 back and forth in the 2016 negotiations? people often time forget about, and that is that 5 5 A. I think I'm more referring to the nature of the you can have a good faith disagreement about 6 something and still be willing to assume that the discussions than I am the dollar amounts, but I 7 7 other part is -- the other party is correct for think the dollar amounts help provide context too. 8 the sake of moving a discussion along, but I don't 8 The parties were focused in and around numbers 9 that were not anywhere near what Mr. Zoltowski is 9 know -- I'll just leave it there. You're looking 10 10 at me look you're confused. holding out as being relevant. 11 Q. That's my thinking look. 11 Q. In 2016, do you have an opinion one way or the 12 other if Federal had been told it was in breach of 12 A. I was trying to make sure that I was being responsive to your question. 13 the license agreement would Federal have responded 14 Q. You're -- no. That's just an interesting 14 to the different offers from FICO in the same way? 15 15 perspective. So to close it up, your analyses MR. FLEMING: Objection. Calls for 16 didn't focus one way or the other on what Federal 16 speculation. 17 -- what beliefs they brought to the table, whether 17 THE WITNESS: I don't understand your 18 question. Can you re-ask that please? 18 they thought that they were liable for 19 MS. KLIEBENSTEIN: Sure. 19 infringement breach of contract or not? 20 MR. FLEMING: Objection. Asked and 20 BY MS. KLIEBENSTEIN: 21 21 Q. 2016, the parties are negotiating, and my question answered. 22 is: Do you have an opinion one way or the other THE WITNESS: I didn't make a 22 23 determination, and I don't have any opinions about 23 if Federal would have rejected the various offers 24 from FICO if Federal had been operating under the 24 that. I know from experience that there's a range

of possibilities, and that's how I considered that

belief that it was liable for breach of contract

25

Page 170 Page 172 So I think this is -- the statement that 1 information, and that's what I was trying to 1 2 summarize in my last answer, and what I was adding 2 I'm making that's more about substance than it is 3 to that is that a lot of times people will assume 3 4 that a party is in outright denial when -- or not 4 Q. Moving on to the Oracle agreement and the Dell 5 5 admitting even for the sake of moving a discussion agreement, those were settlement agreements in the 6 along, like, hypothetically what a reasonable 6 context of a dispute and possible lawsuit threat; 7 outcome would be. 7 correct? 8 So you need to consider the full range of 8 A. What do you mean settlement agreements and 9 possibilities, and that's what I'm trying to say possible lawsuit? Can you be more specific? 10 when I am responding to your question that I'm 10 Q. Well, in both contexts, FICO was discussing looking at that information with an open mind. initiating suit if the parties didn't come to a 11 11 12 BY MS. KLIEBENSTEIN: 12 resolution; isn't that right? 13 Q. In Paragraph 71 -- Paragraph 71, second sentence, 13 A. That may have been referred to. 14 it says, "FICO and Federal did not discuss a named 14 Q. You're not sure without looking at the agreements? 15 application type license and instead discussed an 15 A. Well, I would just want to make sure that I'm enterprise license that included discounts up to 16 16 characterizing it properly. I mean, documents say 17 That sentence was 17 what they say. 18 referring to the 2016 negotiations; correct? 18 Q. And Dell -- you know that Dell is still a customer 19 A. I think so. of FICO. Do you know if Dell acts as a referral 20 Q. But the parties -- the original Option 2 was a 20 source for FICO? 21 21 A. I don't know. named application option; isn't that right? 22 A. I think ultimately what -- I'd have to look and 22 Q. Do you know how much they pay in maintenance and 23 see what the -- and check what the document says. 23 service fees? 24 I'm not trying to re-characterize documents or 24 A. I said earlier I don't know. 25 Q. Do you know whether they license any other FICO 25 anything like that. I think that they discuss Page 171 Page 173 1 what they discussed. products? 2 They -- most important part I think there's 2 A. I couldn't tell you off the top of my head. 3 a sentence that follows that says if FICO and 3 Q. And do you know how much Dell has paid FICO in 4 Federal did not discuss the type of license professional services fees since 2013? 5 agreement that Mr. Zoltowski is proposing that's 5 A. I don't think I can give you a specific amount as 6 what I'm trying to get at ultimately. So that's I sit here right now. 7 kind of a transition sentence that leads to the 7 Q. What is your definition of intrinsic value as you 8 next one. define it in your report? 9 A. I think that actually Mr. Zoltowski looked it up 9 Q. Here is Exhibit 257. I'm looking at Option 2. So 10 just to confirm, the parties -- the parties did 10 and put it in his reply report, and I don't think discuss a named application type license in 2016. 11 11 I had a problem with whatever that definition is 12 A. Sort of. Not -- not exactly. This is what I'm 12 that he provided. 13 trying to get at with pointing you to the next 13 Ultimately what you're trying to get at 14 sentence, and also my earlier statements about 14 with intrinsic value is the -- the value that's 15 economic substance over form. 15 specific to that asset. 16 They might in this page say, hey, we're 16 Q. And so is that the value -- are you -- with 17 going to talk about 15 named applications, but intrinsic value, are you looking at the value of 17 18 they don't describe what they are here. They just 18 Blaze Advisor in general or Blaze Advisor as it 19 roll up a number of \$6.8 million dollars, and 19 relates to Federal? 20 that's not the type of license agreement where Mr. 20 A. I think both. 21 Zoltowski is -- is discussing where he has the 21 Q. Okay, and do you know if FICO's standard list

prices are based on Blaze Advisor's intrinsic

24 A. What do you mean the intrinsic value to FICO?

large.

applications actually named, and then he tries to

application categorizing them as small, medium,

calculate an amount that's specific to each

22

23

24

25

22

23

25

value to FICO?

That doesn't make sense.

Page 174 Page 176 1 Q. So intrinsic value is the value that is specific 1 Q. Does the intrinsic value of Blaze Advisor include to that asset; right? maintenance and support -- an assessment of 3 A. That's what I said we can use as a working maintenance and support fees as well? definition at a high level. 4 A. It can if those have a reliable connection to 5 Q. Yeah, and the intrinsic value of -- of an asset whatever the contractual claim or the intangible can -- I mean, it can have different values 6 7 depending on who you are; correct? 7 Q. In assessing the intrinsic value of Blaze Advisor 8 A. Yes and no. as it relates to the claims in this case, would 9 Q. So for -- well, I'll ask my question a different that also include an assessment of more than the way. Do you know if FICO's standard list prices 10 software and the software license such as for its software are based on intrinsic value? 11 11 marketing support, potential to license other 12 A. I haven't seen any evidence that they are based on 12 products, professional services, things like that? 13 any valuation principles at all. Yet Mr. 13 A. If you're talking about in context of a breach of 14 Zoltowski relies upon that. 14 contract, I would want to know what all the 15 Q. And to determine whether FICO's standard list 15 economic aspects are of that contract and the prices are based on intrinsic value, what type of 16 potential activities, economic activities that 17 evidence would you want to look at? 17 would be associated with that contract and related 18 A. I would want to know if they relate to incremental 18 breach. income, value over alternatives, and match what 19 Q. So those other items could come into play in some 20 the market actually pays, not what the list prices 20 21 are. So those are the three big buckets within my 21 A. Conceptually they could. You need to tie them to 22 toolbox as a valuation expert, cost marketing 22 the facts and circumstances of each particular 23 23 income approach, just restated in a slightly 24 different way for that context. 24 Q. I think we've discussed this a little bit, but 25 Q. Does your report contain an affirmative opinion on 25 from whose perspective is intrinsic value Page 175 Page 177 1 determined? Is it -- is it Federal's, FICO's, the the intrinsic value of Blaze Advisor? 1 2 2 A. I think I certainly include analyses and open market? 3 calculations that have that consideration in mind. 3 A. Well, it's really the parties. So Federal and FICO, that's what I'm trying to say, is what -- is So I think that all of my calculations go in the direction of intrinsic or fundamental value. 5 this worth to each of them and what would result 6 in a payment that the parties would agree upon, 6 Q. Do you believe in this case that the appropriate 7 and the marketplace provides some backdrop for measure of damages for breach of contract is the 8 that. intrinsic value of Blaze Advisor? 9 A. I think that's a concept that is useful. I think 9 Q. And to assess what is -- what is this worth to 10 ultimately the -- the law will determine what the 10 FICO --MR. FLEMING: What is? What worth? 11 appropriate remedy is, and if it's a but-for 11 12 analysis or lost license fees, I think certainly 12 MS. KLIEBENSTEIN: The intrinsic value of the software. What is it worth from FICO's 13 it's helpful to consider the economic value of 13 14 whatever the asset is in the contract, or whatever 14 perspective. 15 BY MS. KLIEBENSTEIN: 15 the contract would cover, and so I think it's an 16 Q. What facts do you have in your report that have a 16 ingredient. 17 17 bearing on what it's worth to FICO? The actual amount is something that's 18 A. I don't understand your question. To assess what 18 determined by law, but using the -- my skill set 19 and Mr. Zoltowski's skill set we both should be it's worth to FICO? 20 embracing the idea of fundamental economic value, 20 Q. I can restate it again. 21 A. Sure. 21 and that's the -- intrinsic value is another word 22 for that. 22 Q. We were talking about from whose perspective 23 intrinsic value is measured, open market, FICO 23 O. And does --24 A. Otherwise we're not using our -- our respective 24 Federal, and I understood you to say it's the 25 25 party -- it's both the parties; is that right? areas of expertise.

Page 178	Page 180
1 A. In part.	1 considerations that a valuation expert, or an
2 Q. In part, and my question is: From of the value	2 economist, or a financial analyst would look at
3 from FICO's perspective, what facts are in your	3 are present, albeit in different sort of words but
4 report that have a bearing on the value from	4 the concepts are present, and then from I think
5 FICO's perspective?	5 FICO's perspective, those concepts are present
6 A. I think the fact that FICO recognizes that it's in	6 too.
7 a marketplace where discounting is standard. So	7 FICO knew that there were other companies
8 that consideration. Certainly FICO is being	8 that had been able to move away, that there were
9 reasonable and considering that this is a	9 competitors that FICO had competitors that offered

do you think this is helping out, and what sort of value does it create for our business, and so from	24 sequitur in it, like, I don't mean that like it 25 sounds like I'm not being nice when I say that. I

Page 182 Page 184 1 not discussed. I think that what I've seen, and 1 mean it to be nice to try to help you formulate a 2 I'm talking as a lay person which is just general 2 better question. 3 3 Those -- those three -- you described three understanding of the law, is a direction toward 4 nexus, that there needs to be a connection to 4 things at the beginning and then you compared that 5 5 to one when you said or, and it didn't really whatever the allegations are in the case, and I 6 don't know that I've seen the cost approach follow. So maybe you could re-ask the question --7 referred to either way, but that's -- those are 7 Q. Sure. 8 8 A. -- I'm trying to help you ask a good one. just answers as -- that I can give you as a lay person regarding my understanding of the law. I'm 9 Q. Cost, income, market approach. Those are three 10 10 tools that you use to determine the value of a not offering a legal opinion. 11 Q. And what about the income approach and market 11 claim or an asset? 12 approach; do you believe those two approaches 12 A. That's true. 13 should be considered when determining the 13 Q. Okay, and I'm wondering if it's -- if it's an and 14 disgorgement amount here? or an or. Do you have to assess all of them when 15 you're trying to determine the value of an asset 15 A. My answer would be the same. I don't know that of a claim, or are there certain instances where 16 the laws discuss those. I think those are helpful 16 17 or instructive to understanding the issues of 17 you can rely on only one of those three? 18 nexus and whether or not revenues have a 18 A. So you can consider all -- you should consider all 19 the possible ways that you can measure something, reasonable connection to the copyright, but I 20 20 think the law describes more of a -- ideas related and then those might not always be a fit, and it's 21 to nexus. That's my understanding, or uses 21 plausible that you could say that there's only one 22 way that applies, fits the facts and circumstances 22 terminology to describe ideas that includes the 23 23 word nexus. of the case, and when there's multiple tools that 24 24 you can use, you're supposed to reconcile them Without being a lawyer, I'm just telling 25 25 you what my understanding is in general. against one another. Page 183 Page 185 1 Q. What facts does your report identify as pertinent 1 Q. And do you believe the cost approach in this case 2 should be considered with respect to determining to the damages analysis in this case under the 3 the breach of contract damages? 3 cost approach? 4 A. I have a section in my report where I discuss how 4 A. I think the cost approach provides some insights. I'm not sure if it provides a total value that I -- maybe we can find it. Do you have that page number where I discuss what the alternatives are? 6 would use, but I think it provides some insights 7 into the fact that the licensee of Blaze --7 Q. 1 -- Page 35. 8 A. Thank you. Oh. Right. So I go on and I ask Mr. 8 licensees of Blaze have the option to do other things, and that's instructive I think as a McCarter some questions about, hey, what else --10 principle, but I don't know that I get a value out 10 what are the options, how else would you 11 of that analysis. 11 accomplish the same result that the accused 12 Q. And what about with respect to copyright damages; 12 functionality claims to accomplish, and he 13 do you believe the cost approach should be 13 provided me with some examples, and I think that's 14 considered to inform the amount for disgorgement 14 helpful to understand what the economic footprint 15 15 in this case? is and the substitute products of the claims that 16 A. So my understanding of law for copyright 16 are at issue here. 17 infringement damages is that if you're talking 17 Q. Any other -- anything else that's pertinent to the 18 about reasonable royalty or lost royalty income 18 cost approach? 19 alternatives are informative, and copyright law --19 A. Those are the areas I discussed in my report, and 20 I'm not a lawyer, but I'm just telling you my 20 that's kind of the idea behind considering that. 21 understanding, has -- is starting to recognize 21 I mean, that -- that's going to be somewhat 22 some of those principles in the cases that come 22 instructive as to market values. If there's 23 23 out that I've seen over time. different options and competition, that's going to 24 In terms of disgorgement, I don't know that 24 show up in market values.

25 Q. And so the first one I see is manual decisions,

I've seen the idea of alternatives discussed or

Page 186 Page 188 1 manuals lookup procedure. Is your support for 1 understand or put into context what the software 2 2 your opinions relating to the manual decision does, and here you're at least going in the right alternative is that solely from Mr. McCarter? 3 direction that you'd be able to automate, but I 4 4 A. No. I think that's consistent with what people think you lose some flexibility, and in some from Fed told me, particularly Mr. Iannuzzi that, 5 instances, as Mr. Iannuzzi told me and Mr. hey, that wouldn't be as efficient, but if Federal McCarter said, it might actually be better, but in 7 7 had to do that, it could. most instances, it would be better to have a more 8 Q. Do you have any knowledge whether Federal could 8 flexible tool than something that would need to be achieve the same results in the same period of modified every time the business changed. 10 time that it has with Blaze Advisor doing the 10 O. A more flexible tool would be Blaze Advisor or something like Blaze Advisor? 11 manual lookup procedure? 11 12 A. Yeah. I said it would be less efficient. 12 A. That's where I have the next thing in sequence 13 Q. And do you know whether Federal would experience 13 called Other Products. There's a bullet point 14 additional costs using the manual lookup 14 called Other Products. So this is building up 15 15 procedure? conceptually how to think about solving this 16 A. It might. That's why I haven't used it as a value 16 17 to quantify an amount. 17 Q. So under the next products, you identify IBM, 18 Q. Did you ask anyone at Federal whether it would 18 Oracle, or CA; is that right? cost extra to use the manual lookup procedure 19 A. Yes. 20 instead of Blaze Advisor? 20 Q. And do you know why Federal did not purchase the 21 A. I did. I discussed that with Mr. Iannuzzi and 21 IBM ODM software product? others, and I -- I told you that a moment ago. 22 A. I think Federal decided to actually go in another 23 Q. And -- and you said it might additional cost? 23 direction and develop kind of what I'll call its own homegrown solution using a tool called Drools. 24 A. Correct. It might. He said that in some 24 instances they could do things manually and it 25 25 Q. Did you report -- does your report contain any Page 187 Page 189 information about how much the IBM, Oracle, or CA 1 might be better actually, or -- but in others, 1 2 it's better to automate, and there the value is 2 technology business rules management software 3 really in automation, and what he was trying to I 3 4 A. At one point, I knew that and saw that. I don't 4 think convey, at least from my perspective, and 5 this is reasonable and I think instructive too is 5 know if I have something that that's specific 6 that the value is really in the business process that's in my report. 7 and the people that are making decisions that --7 Q. Does your report contain any descriptions of the 8 there's tools that are available to help support IBM, Oracle, and CA technology products so that we 9 the decisions, but this is -- this technology 9 can confirm they have the same features and 10 10 functions as Blaze Advisor? isn't, like, a total replacement for the business 11 process or the -- the human aspects of making 11 A. I relied upon Mr. McCarter for that. So that's something to ask him. I would defer to him for 12 decisions. 12 13 Q. And what about hard coding? Your support for your that. Also Mr. Iannuzzi told me about that. 14 statements about hard coding is Mr. McCarter; is 14 Q. Tell me about your call with Mr. Iannuzzi. 15 that correct? 15 A. What would you like to know? 16 A. Yes, and I also spoke with Mr. Iannuzzi about 16 Q. What -- what you gentlemen talked about. 17 17 A. We talked about his role in the business, and the 18 Q. And do you know if Federal could achieve the same Drools solution, and these alternative software 18 results in the same period of time using hard 19 products, and the things I cited to him for in my coding instead of Blaze Advisor? 20 20 report and that we discussed today. I don't think 21 A. I think it would be what I wrote, that it's less 21 there's anything else. efficient, it would have been closer to Blaze 22 Q. 23 Advisor or substitute products. You're at least 24 moving in the right direction. I mean, I'm

providing here an order in Paragraph 131 to help

Page 194		Page 196
1 Q. The income approach; what facts does your report	1 (	Q. And those types of those types of arrangements
2 identify as pertinent to this case under the	2	give a licensor additional value beyond the
3 income approach?	3	license fee itself; correct?
4 A. Well, I discussed how if I'm trying to measure the	4 /	A. It can.
5 fundamental, or intrinsic value, or just the value	5 (	Q. It can, and when you were reviewing the agreements
6 of an asset Mr. Zoltowski uses just the term	6	in Exhibit 12, did you undertake to analyze which
7 value, and I think we're all talking about the	7	agreements reflected those additional marketing
8 same thing, then or we should be, what I'm	8	assistance?
9 trying to get at is whether or not there's any	9 A	A. Some of them might say that. It wouldn't surprise
10 evidence of incremental income, like changes in	10	me. Sometime people will put that in a license,
11 revenue, increases in revenue, or any cost savings	11	and sometimes they won't.
like reduced cost, or some combination of both,	12	My experience is that two things. Some
and we talked about that earlier at the beginning	13	companies are more willing than others to commit
14 of the day.	14	to doing something like that, or put it in
15 Q. And are there any are there any facts in your	15	writing, or even to do it, but most most
16 report that identify any facts that relate to the	16	companies are willing to kind of just get along
17 income approach? Specific facts	17	with everyone, and if the principle is that,
18 A. There's a lot. I discuss it in my report, and the	18	hey, look, if you do a good job, I'd be more than
main thing we've talked about throughout today and	19	happy to talk to people about you're doing a good

Page 198 Page 200 discussion of Oracle how Oracle regarded that. 1 1 task frankly, and so it includes more than the 2 Q. Moving to a different topic, the pricing matrix 2 last four years. It's overinclusive. 3 Q. Are there any cases that should be added to this 4 A. What is that? I don't know what you're talking 4 about. Are you changing subjects to pricing? 5 A. No. 6 Q. It is totally different. Yes. 6 Q. How many expert reports did you sign and serve in 7 A. Okay. That's --May of this year? 8 Q. Page 47. 8 A. I don't know. 9 A. I follow you. 9 Q. You don't know? 10 Q. I'm doing some cleanup. 10 A. No. 11 A. All right. 11 O. Was it more than five, less than five? 12 Q. So I'm moving to 47 to give you an anchor. 12 A. I don't know. 13 A. Thank you. 13 Q. How many reports have you signed and served in MR. FLEMING: You're talking Paragraph 47? June of this year? 14 15 MS. KLIEBENSTEIN: Page. 15 A. Maybe two, three. THE WITNESS: All right. 16 Q. But you can't remember may? 16 MR. FLEMING: Objection. Asked and 17 BY MS. KLIEBENSTEIN: 17 answered twice already. That would be the third 18 Q. This is just an anchor to start our conversation. 18 I understand your report provides different sizing 19 20 levels for the applications that are accused of 20 THE WITNESS: This is -- it's June. It's 21 21 infringement in this case; is that correct? the end of June. I don't remember May. It's the 22 A. In part. I know where you are. There's a table. 22 end of the day. So I don't know. I gave you an 23 So I see that table. estimate for June. 24 Q. You said in part. How did you not agree with 24 BY MS. KLIEBENSTEIN: that, my question in totality? 25 25 Q. Was it more than one in May? Page 199 Page 201 1 A. Because I'm relying upon Doctor Kursh for this. 1 A. Probably. 2 Q. Was it more than two? 2 Q. And so that's my question. The sizing that's presented in your report that's from reliance on 3 A. I don't know. 4 Q. Did you attend any trials in May of 2019? Doctor Kursh? 5 A. He did that analysis specifically. Yes. 5 A. Maybe. I don't remember one. I don't think so. 6 Q. So is that a zero, or a one, or you don't know? 6 Q. Okay. Do you know how much time you and your team 7 A. I don't remember attending one. It's possible have spent on your report to date? 8 8 A. I don't have the number of hours other than my there was a trial that I attended and testified at 9 recently in Houston involving another party called Federal, Fedd actually F-E-D-D, Fedd Wireless. 10 Q. Do you know the fees that have been charged to 10 That may have been in -- in May. 11 Federal for your report to date? 11 12 A. Yes. 12 Q. For the transcripts identified on in Paragraph 14 of your report, which did you personally review? 13 Q. And what is that? 13 14 A. Approximately \$250,000. 14 A. I think all of them frankly. It's a lot of 15 transcripts and testimony. I will say that 15 Q. And I counted -- when I looked at your CV, I 16 there's -- there's some I reviewed in more detail counted 94 engagements in the last 4 years; is 17 than others, and I also asked people to highlight 17 that right? 18 A. It's a little bit -- I mean, you can count that 18 or flag certain points, certain parts within some document, but that would be overinclusive. That 19 of these transcripts. 20 Q. Tell me about your interview with Ellen Garnes. would be an overstatement. 21 A. With who? 21 Q. In what way? 22 Q. Ellen Garnes, commercial product analyst. 22 A. Because that document is at least over the last 23 A. I think that she may have been on a call along 23 four years. My assistant pulls that together, and 24 her instruction is to include at least what's in 24 with Mr. Pandey, but I'm -- I'm trying to -- I'm 25 25 the last four years, and that's kind of a hard trying to be responsive and not guess. I'm sort

Page 202 Page 204 1 of pulling things together to give you a probably on a call with multiple people. 2 reasonable estimate, but I don't recall Ms. Garnes 2 Q. Do you recall what she told you? 3 saying much frankly because I think she was on a 3 A. Not other than what I just said. 4 call that I had with someone else. 4 Q. Helen Mencke; what did you speak with Ms. Mencke 5 Q. And did she say anything on that call? 6 A. I think so. 6 A. Same thing. I'll give you the same answer. She 7 Q. And what do you recall? was on background calls. 8 A. Here's what I can tell you why this list is so 8 Q. And so you don't remember what she told you long is that I had a bunch of questions for people specifically? 10 about how the accused functionality works, where 10 A. Not specifically. 11 it sat, how to measure it, how to measure the 11 Q. What about generally? 12 financial activities associated with -- with it, 12 A. You know, I think one way it would be maybe 13 to the extent you could at all, and I had a lot of helpful to you in understanding this list and the 14 what I'll say relative to at least other cases 14 people's roles is that if there's something that I 15 kind of exploratory discussions, and I think 15 relied upon somebody specifically for or found 16 that's driven by the fact of what I kind of came particularly useful I would have cited to them in 16 17 to learn over time is that's driven by the fact 17 a footnote in my report. 18 that this Blaze Advisor product is -- or software 18 Otherwise I think that I'm going to give 19 is -- is not something that generates revenues, as 19 you the same answer, that these people -- I spoke 20 we've discussed, and it's just one aspect of many 20 with them about and gained a background 21 within the business kind of deeply in the -- in 21 understanding of information, and the business, 22 the business is just one aspect of the -- is the 22 and Blaze Advisor. 23 flow charts that I've discussed characterized. 23 Q. So for Ms. Mencke, you don't recall what she said 24 So there's a list of names here that's 24 to vou? 25 lengthy because a couple of calls we had we had 25 A. I think that falls in the same category. Page 203 Page 205 1 multiple people on the call, and I asked general 1 Q. And Mr. Schraer; same answer? 2 questions that were, like, exploratory in nature, 2 A. Yes. 3 introduced myself and said, hey, these are the 3 Q. Alissa Theberge? 4 types of problems I'm trying to address and solve, 4 A. That's the same. 5 and this is the type of information I'd like to 5 Q. So you don't recall what she said to you 6 see, and then there were followups and the like. specifically either? 7 So that's a long answer. Hopefully that's 7 A. Yeah. She's in the same category that I just 8 helpful. provided. 9 Q. I -- what did you speak about with Ms. Garnes? 9 Q. What about Kevin Harkin? 10 A. I think it was -- it falls under the 10 A. I think that's a little bit different. Mr. Harkin 11 categorization that I just provided you with. It 11 I can remember speaking about what sort of 12 was background about the business and where Blaze 12 information would be relevant financially, how he Advisor sits. 13 could respond to the interrogatory questions, what 14 Q. And what did she tell you? 14 sort of financial information could be produced. 15 15 A. I think she -- I don't remember. I think some of the production of financial 16 Q. Ms. Verduin, Nancy Verduin; what did you speak 16 information that I relied upon in my report were 17 with her about? 17 either the result of -- or I cited to in my report 18 A. Verduin. The same. She's from the commercial 18 were produced as a result of my request to Mr. underwriting group. I think she mostly listened 19 Harkin, and then I would have interviewed them --20 to questions and maybe had questions back for me 20 him about those documents and their meaning, and 21 about understanding what it is that we were hoping 21 he might have had some questions about how to 22 to study. 22 respond to some of your discovery requests. 23 Q. And do you recall what questions did you ask Nancy 23 Q. What about Ramesh Pandey; what did you speak with

25 A. No. Just that they were exploratory, and she was

24

24

Mr. Pandey about?

25 A. I spoke with him a couple of times, and one time I

# Federal Rules of Civil Procedure Rule 30

- (e) Review By the Witness; Changes.
- (1) Review; Statement of Changes. On request by the deponent or a party before the deposition is completed, the deponent must be allowed 30 days after being notified by the officer that the transcript or recording is available in which:
- (A) to review the transcript or recording; and
- (B) if there are changes in form or substance, to sign a statement listing the changes and the reasons for making them.
- (2) Changes Indicated in the Officer's Certificate. The officer must note in the certificate prescribed by Rule 30(f)(1) whether a review was requested and, if so, must attach any changes the deponent makes during the 30-day period.

DISCLAIMER: THE FOREGOING FEDERAL PROCEDURE RULES

ARE PROVIDED FOR INFORMATIONAL PURPOSES ONLY.

THE ABOVE RULES ARE CURRENT AS OF APRIL 1,

2019. PLEASE REFER TO THE APPLICABLE FEDERAL RULES

OF CIVIL PROCEDURE FOR UP-TO-DATE INFORMATION.

# VERITEXT LEGAL SOLUTIONS COMPANY CERTIFICATE AND DISCLOSURE STATEMENT

Veritext Legal Solutions represents that the foregoing transcript is a true, correct and complete transcript of the colloquies, questions and answers as submitted by the court reporter. Veritext Legal Solutions further represents that the attached exhibits, if any, are true, correct and complete documents as submitted by the court reporter and/or attorneys in relation to this deposition and that the documents were processed in accordance with our litigation support and production standards.

Veritext Legal Solutions is committed to maintaining the confidentiality of client and witness information, in accordance with the regulations promulgated under the Health Insurance Portability and Accountability Act (HIPAA), as amended with respect to protected health information and the Gramm-Leach-Bliley Act, as amended, with respect to Personally Identifiable Information (PII). Physical transcripts and exhibits are managed under strict facility and personnel access controls. Electronic files of documents are stored in encrypted form and are transmitted in an encrypted fashion to authenticated parties who are permitted to access the material. Our data is hosted in a Tier 4 SSAE 16 certified facility.

Veritext Legal Solutions complies with all federal and State regulations with respect to the provision of court reporting services, and maintains its neutrality and independence regardless of relationship or the financial outcome of any litigation. Veritext requires adherence to the foregoing professional and ethical standards from all of its subcontractors in their independent contractor agreements.

Inquiries about Veritext Legal Solutions' confidentiality and security policies and practices should be directed to Veritext's Client Services Associates indicated on the cover of this document or at www.veritext.com.
